Teaching Mathematics Paul Chambers, 2008-05-18

Reflective practice is at the heart of effective teaching and this book helps you develop into a reflective teacher of mathematics

Everything you need is here

guidance on developing your analysis and self evaluation skills

the knowledge of what you are trying to achieve and why

and examples of how experienced teachers deliver successful lessons

The book shows you how to plan lessons

how to make good use of resources

and how to assess pupils progress effectively

Each chapter contains points for reflection which encourage you to break off from your reading and think about the challenging questions that you face as a new teacher

The book is supplemented by a companion website with Videos of real lessons so you can see the skills discussed in the text in action

Links to a range of sites that provide useful additional support

Extra planning and resource materials

If you are training to teach mathematics this book will help you to improve your classroom performance by providing you with practical advice but also by helping you to think in depth about the key issues

It also provides examples of the research evidence that is needed in academic work at Masters level

essential for anyone undertaking an M level PGCE
