Mickalene Thomas: All about Love Ed Schad, Renée Mussai, Rachael Thomas, 2024 Co organized by the Hayward Gallery London and The Broad Los Angeles and in partnership with the Barnes Foundation Philadelphia Mickalene Thomas *All About Love* will be the first major international tour of this pioneering artist's work Marking its debut at The Broad with over 80 works made by the artist over the last 20 years the exhibition highlights how Thomas has mastered and innovated within several disciplines from mixed media painting and collage to installation and photography The exhibition shares its title and several of its themes with the pivotal text by feminist author bell hooks in which love is an active process rooted in healing carving a path away from domination and towards collective liberation Exhibition website *Self-Representation in an Expanded Field* Ace Lehner, 2021-05-31 Defined as a self image made with a hand held mobile device and shared via social media platforms the selfie has facilitated self imaging becoming a ubiquitous part of globally networked contemporary life Beyond this selfies have facilitated a diversity of image making practices and enabled otherwise representationally marginalized constituencies to insert self representations into visual culture In the Western European and North American art historical context self portraiture has been somewhat rigidly albeit obliquely defined and selfies have facilitated a shift regarding who literally holds the power to self image Like self portraits not all selfies are inherently aesthetically or conceptually rigorous or avant guard But as this project aims to do address via a variety of interdisciplinary approaches selfies have irreversibly impacted visual culture contemporary art and portraiture in particular Selfies propose new modes of self imaging forward emerging aesthetics and challenge established methods they prove that as scholars and image makers it is necessary to adapt and innovate in order to contend with the most current form of self representation to date The essays gathered herein will reveal that in our current moment it is necessary and advantageous to consider the merits and interventions of selfies and self portraiture in an expanded field of self representations We invite authors to take interdisciplinary global perspectives to investigate various sub genres aesthetic practices and lineages in which selfies intervene to enrich the discourse on self representation in the expanded field today Black Matrilineage, Photography, and Representation Lesly Deschler Canossi, Zoraida Lopez-Diago, 2022-10-03 *Black Matrilineage Photography and Representation* Another Way of Knowing questions how the Black female body specifically the Black maternal body navigates interlocking structures that place a false narrative on her body and that of her maternal ancestors This volume which includes a curated selection of images addresses the complicated relationship between Blackness and photography and in particular its

gendered dimension its relationship to health sexuality and digital culture primarily in the context of racialized heteronormativity With over forty contributors this volume draws on scholarly inquiry ranging from academic essays interviews poetry to documentary practice and on contemporary art Black Matrilineage Photography and Representation Another Way of Knowing thus offers a cross section of analysis on the topic of Black motherhood mothering and the participation of photography in the process This collection challenges racist images and discourses both historically and in its persistence in contemporary society while reclaiming the innate brilliance of Black women through personal narratives political acts connections to place moments of pleasure and communal celebration It serves as a reflection of the past a portal to the future and contributes to recent scholarship on the complexities of Black life and Black joy **The Art**
