Buku ini disusun sebagai bentuk kontribusi penulis dalam mendukung proses pembelajaran dan pemahaman terhadap salah satu bagian penting dalam kajian ekonomi mikro yaitu teori produksi. Topik ini memiliki peran yang sangat vital karena berhubungan langsung dengan bagaimana perusahaan atau produsen memanfaatkan sumber daya yang terbatas untuk menghasilkan barang dan jasa secara efisien. Dalam pembahasan ini, penulis mencoba menjelaskan secara sistematis mengenai konsep fungsi produksi, faktor produksi jangka panjang dan pendek, serta keuntungan skala ekonomi dalam produksi.

21st Century Economics: A Reference Handbook Rhona C. Free, 2010-05-14

Interest in economics is at an all time high. Among the challenges facing the nation is an economy with rapidly rising unemployment, failures of major businesses and industries and continued dependence on oil with its wildly fluctuating price. Economists have dealt with such questions for generations but they have taken on new meaning and significance. Tackling these questions and encompassing analysis of traditional economic theory and topics as well as those that economists have only more recently addressed.

21st Century Economics: A Reference Handbook is a must have reference resource. Key Features: Provides highly readable summaries of theory and models in key areas of micro and macroeconomics; helpful for students trying to get a big picture sense of the field; Includes introductions to relevant theory as well as empirical evidence useful for readers interested in learning about economic analysis of an issue as well for students embarking on research projects; Features chapters focused on cutting edge topics with appeal for economists seeking to learn about extensions of analysis into new areas as well as new approaches; Presents models in graphical format and summarizes empirical evidence in ways that do not require much background in statistics or econometrics so as to maximize accessibility to students.

Trust and consumers' willingness to pay for safe and certified safe vegetables in West African cities

Trust and consumers' willingness to pay for safe and certified safe vegetables in West African cities. A comparative analysis of Tamale, Ouagadougou, Bamenda and Bamako. Christina Seeger, 2021-11-08

Smallholder farmers cultivating in West African cities often lack access to irrigation water and may use wastewater to irrigate their fields particularly in the dry season. Wastewater contaminates vegetables with pathogens so that local consumers are likely to be exposed to health risks. Market data on consumers' actual payments for safety improved pathogen reduced vegetables are not available in West Africa as vegetables differing in safety levels are sold due to an information deficit on the consumers' side at a uniform market price. Certification and repeated purchase experience may reduce these information deficits. For both market signals to be effective, trust is required. This book analyses the role of trust in explaining consumers' maximum willingness to pay (WTP) for safe and certified safe food in a Hicksian framework. This theory is tested using household data from 2,662 generated from contingent valuation surveys undertaken in Tamale, Ouagadougou, Bamenda and Bamako. The findings show that local consumers are willing to pay substantially higher prices (40% to 160%) for certified safe vegetables. They further suggest that trust in farmers and traders reduces WTP and trust in certifying institutions increases WTP for certified safe vegetables. Most WTPs were found to be construct valid. They are

therefore taken as trustworthy expressions of consumers preferences for safety improved vegetables These results stress the need to introduce vegetable certification in West African cities
