Groove Theory Tony Bolden, 2020-10-21 Tony Bolden presents an innovative history of funk music focused on the performers regarding them as intellectuals who fashioned a new aesthetic Utilizing musicology literary studies performance studies and African American intellectual history Bolden explores what it means for music or any cultural artifact to be funky Multitudes of African American musicians and dancers created aesthetic frameworks with artistic principles and cultural politics that proved transformative Bolden approaches the study of funk and black musicians by examining aesthetics poetics cultural history and intellectual history The study traces the concept of funk from early blues culture to a metamorphosis into a full fledged artistic framework and a named musical genre in the 1970s and thereby Bolden presents an alternative reading of the blues tradition In part one of this two part book Bolden undertakes a theoretical examination of the development of funk and the historical conditions in which black artists reimagined their music In part two he provides historical and biographical studies of key funk artists all of whom transfigured elements of blues tradition into new styles and visions Funk artists like their blues relatives tended to contest and contextualize racialized notions of blackness sexualized notions of gender and bourgeois notions of artistic value Funk artists displayed contempt for the status quo and conveyed alternative stylistic concepts and social perspectives through multimedia expression Bolden argues that on this road to cultural recognition funk accentuated many of the qualities of black expression that had been stigmatized throughout much of American history

The Hank Show McKenzie Funk, 2023-10-03 The bizarre and captivating story of the most important person you've never heard of The world we live in today where everything is tracked by corporations and governments originates with one manic elusive utterly unique man as prone to bullying as he was to fits of surpassing generosity and surprising genius His name was Hank Asher and his life was a strange and spectacular show that changed the course of the future In The Hank Show critically acclaimed author and journalist McKenzie Funk relates Asher's stranger than fiction story he careened from drug running pilot to alleged CIA asset only to be reborn as the pioneering computer programmer known as the father of data fusion He was the multimillionaire whose creations now power a new reality where your every move is tracked by police departments intelligence agencies political parties and financial firms alike But his success was not without setbacks He truly lived nine lives on top of the world one minute only to be forced out of the companies he founded and blamed for data breaches resulting in major lawsuits and market chaos In the vein of the blockbuster movie Catch Me if You Can this spellbinding work of narrative nonfiction propels you forward on a forty year journey of intrigue and innovation from Colombia to the White House and from Silicon Valley to the 2016 Trump campaign focusing a lens on the dark side of American business and its impact on the everyday fabric of our modern lives

The Nation on Screen Enric Castelló, Alexander

Dhoest, 2020-07-24 But we can still rise now runs a line of Scotland's unofficial national anthem Flower of Scotland and be the nation again who defeated the English King Edward II in 1314 at the Battle of Bannockburn These short lines tell us much about the concept of the nation Firstly the pronoun of the nation is we Secondly nationhood remains aspirational for some while it is entirely taken for granted for others Thirdly nations often trace their origins back to an implausibly dim and distant past Finally it points to the fundamentally discursive nature of the nation the nation appears not as something which simply is but as something which can be called into existence through talk official documents official and unofficial national anthems ceremonies and parades monuments and statuary press coverage and increasingly television This book which arose out of a conference held in Tarragona in 2007 focuses on the complex discourses of the nation to be found in the television systems of twelve different countries examining how these circulate in fiction in news and documentary including re-enactment formats and in entertainment programmes adverts and the coverage of large scale sporting events The nation which emerges is everywhere and nowhere talked about endlessly but never finally grasped repeatedly staged and re-enacted but lacking a foundational script In short it is a site of struggle The stakes are high since the nation when mobilised is a force to be reckoned with and the on-going attempts to define it are many varied and often highly creative This book details many such events from the high drama of war reporting to the self-mocking irony of ten-second commercial spots
