The Protection of Foreign Investment in Times of Armed Conflict Jure Zrilic, 2019-10-17 Foreign investors often sustain injuries during violent situations such as riots revolutions civil wars and international armed conflicts There is a great deal of uncertainty about how effective investment treaty protections are in volatile times how they relate to other applicable legal frameworks and how they affect the state security policy and the post conflict transition to peace This book explores how foreign investment is protected in times of armed conflict under the investment treaty regime It does so by combining insights from different areas of international law including international investment law international humanitarian law international human rights law the law of state responsibility and the law of treaties While the protections have evolved over time with the investment treaty regime providing the strongest legal framework for protecting investors yet there has been an apparent shift in treaty practice towards safeguarding a state s security interests Jure Zrilic identifies and analyses the flaws in the existent normative framework but also highlights the potential that investment treaties have for minimising the devastating effects of armed conflict The book offers an analytical framework for assessing the investment treaty regime in times of armed conflict distinguishing between different paradigms and different types of conflicts Crucially he argues that a new approach is needed to appropriately balance the competing interests of host states and investors when it comes to investment protection in armed conflicts

Constitutional Discussions on Nuclear Energy in Germany Robert Rybski, 2024-06-27 This book analyses the German constitutional system's responses towards nuclear energy Robert Rybski begins with a presentation of

energy security as a constitutional value and explores how it connects with nuclear energy. He also examines constitutional standards derived from the German Constitution which directly regulates nuclear energy issues within the German system of power. The book presents the structure of sources of law that are binding in the area of security of nuclear installations and considers the impact that The European Atomic Energy Community had on the German constitutional system. The final part of the book is devoted to a novel judicial concept of the so called *Restrisiko* a risk that cannot be avoided which has been developed in the jurisprudence of the Federal Constitutional Court. The essence of this concept is an assumption that as long as the legal framework regulating nuclear energy fulfils conditions formulated in that judgment then each citizen has to accept risks resulting from the nuclear energy sector. Covering the entire period of commercial usage of nuclear energy for power generation this book will be of great interest to students, scholars and energy experts who are active in researching or adopting public policies related to the nuclear energy sector. Sixty Years of European Integration and Global Power Shifts Julien Chaisse, 2020-02-06. This book focuses on a review of how sixty years of case law and regulatory activity transformed the European continent and the world. It provides a critical analysis of the key features of EU integration and how this integration is perceived internally and externally. In this context this book also explores the EU's interactions with a number of other countries and organisations with the objective of assessing the EU's role in global governance.

EU Values in Investment Law And Policy Maria Laura Marceddu, 2025-06-25. Is it possible that the EU premises of democracy and rule of law transform the global landscape of international investments? For realists this is a calculated political move an opportunity for the EU to shape the world according to the rules established in Brussels. To the most skeptical the ambition to export these values might seem too grandiose if not far fetched especially considering that the system somewhat displays these features already. Yet the more idealistic like the author of this book would find it fascinating especially given the undeniable visionary component that has permeated the EU story since its beginning. *EU Values in Investment Law And Policy* intends to carry this fire and continues to tell precisely that story of vision, ambition and influence. Inspired by premises that have aspired to become promises of democracy and rule of law the book critically examines how and how far these EU values extended their reach into international investment law and policy. While the book is not an ode to the EU there is plenty that is admirable in the EU transmission efforts and is likely to leave an imprint on the investment regime's dynamics. It is these efforts that this book unravels to explain how the international investment system deficits are turned into an opportunity for normative change. The book seeks to establish a solid analytical foundation to unpack the EU's evolving aspirations as a global leader in reimagining traditional investment rules. Through a careful critique of EU initiatives it sheds light on the fine line between innovation and dogmatism showing where the EU has genuinely re-shaped and advanced international norms and where its bold rhetoric

meets its limits For scholars practitioners and those intrigued by the intersection of law policy and global governance EU Values in Investment Law and Policy offers a captivating exploration of how a visionary Europe continues to inspire change in international investment setting the stage for a fairer and more value driven global system Handbook on East Asian Economic Integration Kimura, Fukunari,Pangestu, Mari,Thangavelu, Shandre M.,Findlay, Christopher,2021-12-09 This comprehensive Handbook provides an in depth analysis of the nature of East Asian economic integration alongside thoughtful insights into contemporary issues such as agricultural development structural transformation and East Asian trade alongside skills and human capital development policies of ASEAN Contributors also provide detailed explanations on trade poverty and Aid for Trade institutional reforms regulatory reform and measuring integration Contemporary Methods in International Legal Research Juan J Garcia Blesa,2024-12-01 This book is a concise practical guide to some of the most relevant ways of thinking and doing international legal research today It is designed to help students and early career researchers to get acquainted with the theory and practice of a selection of non doctrinal modes of legal research that include feminist international law critical international law and TWAIL complemented with qualitative methods of empirical legal research The book also encourages a meaningful dialogue with traditional doctrinal styles of legal research The book s most innovative aspect is its practical learner centred approach which focuses on the applied learning of the modes of research presented Law Beyond the State Rainer Hofmann,Stefan Kadelbach,2016-11-10 Law beyond the State brings together contributions by renowned experts on international and European Union law to celebrate the centennial of Goethe Universit t Frankfurt The essays explore Frankfurt s contribution to the development of international law the historical development of international law how this form of law can be used as a tool to improve the world and create a better future for all the essential relevance of the spiritual dimension of legal orders including the European Union to ensuring their values will be taken seriously and the possibility offered by the Internet for all persons concerned with global lawmaking to participate effectively in relevant decision making processes **Protection of Foreign Investments in an Intra-EU Context** Moskván, Dominik,2022-02-04 The Achmea judgment revolutionised intra EU investment protection by declaring intra EU bilateral investment treaties intra EU BITs incompatible with EU law This incisive book investigates whether intra EU foreign investments benefit from this alteration which discontinued the parallel applicability of intra EU BITs and EU law in the EU internal market In addition to comparative legal analysis from an investor perspective Dominik Moskván puts forward a proposal for a creation of a permanent intra EU foreign investment court to ensure a balanced economic development of the EU internal market *Intellectual Property Policy, Law and Administration in Africa* Caroline B.
