**Salmond** David Torrance, 2012-05-23 NEW POST REFERENDUM EDITION Alex Salmond is well known in Scotland the UK and beyond as the leader of the Scottish National Party and Scotland's First Minister but relatively little is understood about Salmond as a human being what makes him a Nationalist what shaped his political views and what sort of country he believes an independent Scotland can be In this first biography with which close colleagues and friends have co-operated the acclaimed political biographer David Torrance turns his attention to perhaps one of the most capable and interesting politicians Scotland has produced in the last few decades Utilising a raft of published and unpublished material Torrance charts the life and career of Alex Salmond from his schooldays his political activism at St Andrews University his early career at the Royal Bank of Scotland his election as the MP for Banff and Buchan and in greater depth than ever before his two spells as leader of the SNP and from 2007 as First Minister of Scotland

**Between Kin and Cosmopolis** Nigel Biggar, 2014-05-30 The nation state is here to stay Thirty years ago it was fashionable to predict its imminent demise but the sudden break up of the Soviet Union in the 1990s unshackled long repressed nationalisms and generated a host of new states The closer integration of the European Union has given intra national nationalisms a new lease of life confirming the viability of small nation states under a supra national umbrella after all if Ireland and Iceland then why not Scotland and Catalonia And then the world stage has seen new and powerful national players moving from the wings to the centre China India and Brazil are full of a sense of growing into their own national destinies and are in no mood either to dissolve into or to defer to some larger body Nations nationalisms and nation states are persistent facts but what should we think of them morally Surely humanity not a nation should claim our loyalty How can it be right to exclude foreigners by policing borders Can a liberal nation state thrive without a cohering public orthodoxy Does national sovereignty confer immunity Is national separatism always justified These are urgent questions Between Kin and Cosmopolis offers timely Christian answers

*Scottish National Party (SNP) Leaders* James Mitchell, 2016-09-15 By any measure the story of the Scottish National Party is an extraordinary one Forced to endure decades of electoral irrelevance since its creation in the 1930s during which it often found itself grappling with internal debate on strategy and rebellion from within its own ranks the SNP virtually swept the board in the 2015 general election winning all but three of Scotland's fifty nine seats in Westminster What's more under the current leadership of Nicola Sturgeon the SNP has never been a more important force in the landscape of British politics The leaders who have stood at its helm during this tumultuous eighty year history from Sir Alexander MacEwen to Nicola Sturgeon and Alex Salmond have steered the SNP vessel with varying degrees of success but there is no doubt that all have contributed to the shape purpose and ultimate goal of the party of government we see today The latest addition to the acclaimed British Political Leaders series Scottish National Party Leaders examines each of these senior figures for the first time and is essential reading for anyone curious about how this former fringe party evolved into a political phenomenon

changing not only the face of Scottish politics but British politics as well
