Online Book Sovereign Colony National Identity International:

The Sovereign Colony Antonio Sotomayor, 2016-02 Ceded to the United States under the terms of the Treaty of Paris after the Spanish American War of 1898 Puerto Rico has since remained a colonial territory Despite this subordinated colonial experience however Puerto Ricans managed to secure national Olympic representation in the 1930s and in so doing nurtured powerful ideas of nationalism By examining how the Olympic movement developed in Puerto Rico Antonio Sotomayor illuminates the profound role sports play in the political and cultural processes of an identity that evolved within a political tradition of autonomy rather than traditional political independence Significantly it was precisely in the Olympic arena that Puerto Ricans found ways to participate and show their national pride often by using familiar colonial strictures and the United States claim to democratic values to their advantage Drawing on extensive archival research both on the island and in the United States Sotomayor uncovers a story of a people struggling to escape the colonial periphery through sport and nationhood yet balancing the benefits and restraints of that same colonial status The Sovereign Colony describes the surprising negotiations that gave rise to Olympic sovereignty in a colonial nation a unique case in Latin America and uses Olympic sports as a window to view the broader issues of nation building and identity hegemony postcolonialism international diplomacy and Latin American U S relations

Globalization: The nation-state and international relations
Roland Robertson, Kathleen E. White, 2003 Containing articles on approaches to and theories of globalization this collection addresses the making of the modern world from different disciplinary perspectives This set investigates the major components of globalization in its most comprehensive sense the nation state and the system of international relations the question of self identity and the individual in the globalization process human rights citizenship and the environment institutional questions including matters of media communication education tourism multinational corporations migration and intercultural communication New introductions and a thorough index make this work an indispensable research tool

Solidarity across the Americas Margaret M. Power, 2023-02-16 The Puerto Rican Nationalist Party PNPR understood that to successfully establish an independent nation it needed to generate solidarity across the Americas with its struggle against US colonial rule It invested significant energy personnel and resources in attending regional conferences distributing its literature throughout the hemisphere creating solidarity committees presenting its case to elected officials and the general public and promoting the causes of oppressed peoples The hemispheric outpourings of solidarity with Puerto Rican independence have been obscured by larger later liberation movements as well as the anticolonial party's ultimate failure to achieve independence However as this book shows they were nonetheless central to anti imperialists nationalists and revolutionaries from New York City to Buenos Aires Margaret M Power's new history of the PNPR focuses on how it built a broad movement with active networks in virtually all of Latin America much of the Caribbean and New York City This hemispheric view introduces a sprawling transnational network nurtured by the PNPR from its founding in 1922 through its

military actions of the 1950s and beyond that included individuals parties organizations and governments throughout the Americas and it resituates the Puerto Rican nationalist movement as a transnational revolutionary influence and force

Official Master Register of Bicentennial Activities American Revolution Bicentennial Administration,1975 **Human Rights, Diversity, and National Identity** Patricia E. Bromley,2011 Fundamental world changes that simultaneously undermine a nation state s charisma and promote the rise of a supra national system have wide ranging effects upon national states within a modern global society My dissertation empirically examines the effects of social and cultural globalization on systems of mass schooling which are central institutions in every country Globally primary and secondary education initially emerged as the premier tool for nation states to create a unified national citizenry loyal to their country and socialized into a common cultural tradition I examine the extent to which this original nationalizing purpose of schooling is challenged by the increased emphases on universal human rights and diversity in civic education The analyses consist of two sections Hierarchical linear models are used to analyze a unique primary data source of 521 social science textbooks from 74 countries during the period 1970 2008 These findings show a worldwide increase in emphasis on human rights and increases in discussions of diversity in well established liberal democracies Cross national quantitative analyses are complemented by a qualitative case study of social science curricula in British Columbia BC which examines nation building within a context of strong emphasis on diversity and human rights The BC study utilizes currently approved high school citizenship education textbooks as well as older textbooks dating back to 1871 It also draws on a selection of historical documents including Ministry of Education reports curricular frameworks and high school exit exams Process wise I find the incorporation of human rights and diversity reflects macro level changes in national and global society Content wise I find four main approaches to reconciling ideas of human rights and diversity with national identity 1 framing human rights and multiculturalism as part of national identity 2 using pedagogical approaches that promote multiple perspectives and individual agency 3 celebrating social and scientific figures and accomplishments as the source of national pride and 4 drawing on exogenous sources to affirm state legitimacy This study is one of the first to theorize that civic education worldwide is moving away from a national focus and to provide empirical evidence of this trend A key implication is that educational systems are being repurposed from their original goal of constructing a unitary national citizenry to a new view emphasizing human diversity and equality in a globally interconnected world Further students are increasingly taught that the global civil society and non state actors are important and legitimate agents of social change Routledge International Handbook of Contemporary Racisms John Solomos,2020-02-25 The study of contemporary forms of racism has expanded greatly over the past four decades Although it has been a focus for scholarship and research for the past three centuries it is perhaps over this more recent period that we have seen important transformations in the analytical frames and methods to explore the changing patterns of contemporary racisms The Routledge International Handbook of Contemporary Racisms

brings together thirty four original chapters from international experts that address key features of contemporary racisms The Handbook has a truly global orientation and covers contemporary racisms in both the western and non western geopolitical environments In terms of structure the volume is organized into ten interlinked parts that include Theories and Histories Contemporary Racisms in Global Perspective Racism and the State Racist Movements and Ideologies Anti Racisms Racism and Nationalism Intersections of Race and Gender Racism Culture and Religion Methods of Studying Contemporary Racisms and the End of Racism These parts contain chapters that draw on original theoretical and empirical research to address the evolution and changing forms of contemporary racism The Handbook is framed by a General Introduction and by short introductions to each part that provide an overview of key themes and concerns Written in a clear and direct style and from a conceptual multidisciplinary and international perspective the Handbook will provide students scholars and practitioners with an overview of the most pressing issues of Racisms in our time

American Indian Sovereignty and Law Wade Davies,Richmond L. Clow,2009-02-04 American Indian Sovereignty and Law An Annotated Bibliography covers a wide variety of topics and includes sources dealing with federal Indian policy federal and tribal courts criminal justice tribal governance religious freedoms economic development and numerous sub topics related to tribal and individual rights While primarily focused on the years 1900 to the present many sources are included that focus on the 19th century or earlier The annotations included in this reference will help researchers know enough about the arguments and contents of each source to determine its usefulness Whenever a clear central argument is made in an article or book it is stated in the entry unless that argument is made implicit by the title of that entry Each annotation also provides factual information about the primary topic under discussion In some cases annotations list topics that compose a significant portion of an author s discussion but are not obvious from the title of the entry American Indian Sovereignty and Law will be extremely useful in both studying Native American topics and researching current legal and political actions affecting tribal sovereignty

Fantasies of the Master Race Ward Churchill,1998 Chosen an Outstanding Book on the Subject of Human Rights in the United States by the Gustavus Myers Center for the Study of Human Rights In this volume of incisive essays Ward Churchill looks at representations of American Indians in literature and film delineating a history of cultural propaganda that has served to support the continued colonization of Native America During each phase of the genocide of American Indians the media has played a critical role in creating easily digestible stereotypes of Indians for popular consumption Literature about Indians was first written and published in order to provoke and sanctify warfare against them

Later the focus changed to enlisting public support for civilizing the savages stripping them of their culture and assimilating them into the dominant society Now in the final stages of cultural genocide it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth The primary means by which this is accomplished is through the powerful publishing and film industries Whether they are the tragically doomed noble savages walking into the sunset of *Dances With Wolves* or Carlos Castaneda's *Don Juan* the exotic mythical Indians constitute no threat to the established order Literature and art crafted by the dominant culture are an insidious political force disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom This book is offered to counter that deception and to move people to take action on issues confronting American Indians today

Construction of Chinese Nationalism in the Early 21st Century Suisheng Zhao, 2014-07-25 Chinese nationalism is powered by a narrative of China's century of shame and humiliation in the hands of imperialist powers and calls for the Chinese government to redeem the past humiliations and take back all lost territories The continuing surge of Chinese nationalism in the early 21st century therefore has fed a roiling sense of anxiety in many political capitals about whether a virulent nationalism has emerged to make China's rise anything but peaceful This book addresses this anxiety by examining the domestic sources and foreign policy implications of Chinese nationalism in the early 21st century It is divided into three parts Part I is an overview of the scholarly debate about if the rise of Chinese nationalism has driven China's foreign policy in a more irrational and inflexible direction in the first one and half decades of the 21st century Part II analyzes the construction of Chinese nationalism by a variety of domestic forces including the communist state the angry youth *fen qing* liberal intellectuals and ethnic groups Part III explores whether Chinese nationalism is affirmative assertive or aggressive through the case studies of China's maritime territorial disputes with Japan in the East China Sea and with several Southeast Asian countries in the South China Sea the border controversy over the ancient Koguryo with Korea and the cross Taiwan Strait relations This book was based on articles published in the *Journal of Contemporary China*

Race and Nation Paul Spickard, 2005-07-08 *Race and Nation* is the first book to compare the racial and ethnic systems that have developed around the world It is the creation of nineteen scholars who are experts on locations as far flung as China Jamaica Eritrea Brazil Germany Punjab and South Africa The contributing historians sociologists anthropologists political scientists and scholars of literary and cultural studies have engaged in an ongoing conversation honing a common set of questions that dig to the heart of racial and ethnic groups and systems Guided by those questions they have created the first book that explores the similarities differences and the relationships among the ways that race and ethnicity have worked in the modern world In so doing they have created a model for how to write world history that is detailed in its expertise yet also manages broad comparisons

Contesting the Arctic Philip E. Steinberg, Jeremy Tasch, Hannes Gerhardt, Adam Keul, Elizabeth A. Nyman, 2015-02-16 As climate change makes the Arctic a region of key political interest so questions of sovereignty are once more drawing international attention

The promise of new sources of mineral wealth and energy and of new transportation routes has seen countries expand their sovereignty claims. Increasingly interested parties from both within and beyond the region including states, indigenous groups, corporate organizations and NGOs are pursuing their visions for the Arctic. What form of political organization should prevail? Contesting the Arctic provides a map of potential governance options for the Arctic and addresses and evaluates the ways in which Arctic stakeholders throughout the region are seeking to pursue them.

Bees in Early Modern Transatlantic Literature Nicole A. Jacobs, 2020-11-29 This book examines apian imagery: bees, drones, honey and the hive in the seventeenth and eighteenth century literary and oral traditions. In England and the New World colonies during a critical period of expansion, the metaphor of this communal society faced unprecedented challenges even as it came to emblemize the process of colonization itself. The beehive connected the labor of those marginalized by race, class, gender or species to larger considerations of sovereignty. This study examines the works of William Shakespeare, Francis Daniel Pastorius, Hopi, Wyandotte and Pocasset cultures, John Milton, Hester Punter and Bernard Mandeville. Its contribution lies in its exploration of the simultaneously recuperative and destructive narratives that place the bee at the nexus of the human, the animal and the environment. The book argues that bees play a central representational and physical role in shaping conflicts over hierarchies of the early transatlantic world.

Managing the Post-Colony: Voices from Aotearoa, Australia and The Pacific Gavin Jack, Michelle Evans, Billie Lythberg, Jason Mika, 2024-05-10 This edited book is the second in the book series *Managing the Post Colony*. The book series is co-edited by Nimruji Jammulamadaka IIM Calcutta, India and Gavin Jack, Monash University, Australia. The book series seeks to present cutting edge critical interdisciplinary and geographically and culturally diverse perspectives on the contemporary nature, experience and theorisation of managing and organising under conditions of postcoloniality. This book specifically presents voices and perspectives from Aotearoa, New Zealand, Australia and The Pacific locations with shared and distinctive histories and present day experiences of colonisation and imperialism. Ways of managing, organising and doing business in these places demonstrate cultural continuity and change. In such histories, present sites of postcolonial struggle and diverse prospects for self-determined future making. The book explores struggles and prospects of managing in the post colony through qualitative empirical cases, historical and legal studies, conceptual essays and provocations and interviews with Indigenous business leaders. It contributes to the ongoing diversification, provincialisation and decolonisation of management and organisation studies and practice. A strong focus is placed on diverse Indigenous knowledges and experiences including those of Aboriginal and Torres Strait Islander, Pasifika and Māori peoples and insights into the capacity for Indigenous culture specific modes of business to offer decolonising futures.

Voicing Identity John

Borrows, Kent McNeil, 2022-11-01 Written by leading Indigenous and non Indigenous scholars *Voicing Identity* examines the issue of cultural appropriation in the contexts of researching writing and teaching about Indigenous peoples This book grapples with the questions of who is qualified to engage in these activities and how this can be done appropriately and respectfully The authors address these questions from their individual perspectives and experiences often revealing their personal struggles and their ongoing attempts to resolve them There is diversity in perspectives and approaches but also a common goal to conduct research and teach in respectful ways that enhance understanding of Indigenous histories cultures and rights and promote reconciliation between Indigenous and non Indigenous peoples Bringing together contributors with diverse backgrounds and unique experiences *Voicing Identity* will be of interest to students and scholars studying Indigenous issues as well as anyone seeking to engage in the work of making Canada a model for just relations between the original peoples and newcomers

Statehood à la Carte in the Caribbean and the Pacific Jack Corbett, 2023-04-15 This book explains how leaders in the Caribbean and Pacific regions balance the autonomy viability dilemma of postcolonial statehood that political self determination is a hollow achievement unless it is accompanied by economic development by practising statehood la carte Previous research has focused on the pursuit of decolonial self determination through and above the nation state via regionalism and internationalism or by creating non sovereign alternatives to it This book looks at how communities have sought the same goals below the state including via secession and devolution Downsizing is typically portrayed as the antithesis of progressive cosmopolitan internationalism and employed as evidence for the claim that the age of anticolonial self determination has ended In this book Jack Corbett shows how these movements are animated by similar ideas and motivations that are rendered viable by the simultaneous pursuit of regional integration and forms of non sovereignty He argues that the la carte pursuit of political and economic independence through above and below the state and via non sovereign alternatives to it is a pragmatic response to the contradictions inherent to coloniality
