*Environmental Values in a Globalizing World* Ian Lowe, Jouni Paavola, 2004-08-02 This multidisciplinary volume presents a refreshing new approach to environmental values in the global age it investigates the challenges that globalization poses to traditional environmental values in general as well as in politics and international governance Divided into five parts the book investigates how environmental values could be reconceived in a globalizing world Part I explores contemporary environmental values and their implications for a globalizing world Part II examines the development of Western and Eastern environmental values Part III discusses contemporary environmental politics Part IV examines how values inform environmental governance and how governance solutions influence which values are realised Part V concludes the volume with two different views of the prospects of environmental values in a globalising world This study will be of great interest to students and researchers studying the environment in philosophy political science international relations international environment law environmental studies and development studies Federal Register ,2013-04

*Consumerism and Prestige* Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies between literary production and distinctions of taste by examining how the material aspects of literary texts such as the cover binding typography and paper stock reflect or even determine their cultural status In many cases for example the distinctions between highbrow and lowbrow taste have little to do with the content of the texts themselves as books often function as markers of socioeconomic status like clothing or home decor One might even go so far as to say that the concept of literary taste is more closely related to fashion sense than critical judgment The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology literacy and social power

Cyberpsychology as Everyday Digital Experience across the Lifespan Dave Harley, Julie Morgan, Hannah Frith, 2018-05-25 Digital technologies are deeply embedded in everyday life with opportunities for information access and perpetual social contact now mediating most of our activities and relationships This book expands the lens of Cyberpsychology to consider how digital experiences play out across the various stages of people's lives Most psychological research has focused on whether human technology interactions are a good or a bad thing for humanity This book offers a distinctive approach to the emergent area of Cyberpsychology moving beyond these binary dilemmas and considering how popular technologies have come to frame human experience and relationships In particular the authors explore the role of significant life stages in defining the evolving purpose of digital technologies They discuss how people's symbiotic relationship with digital technologies has started to redefine our childhoods how we experience ourselves how we make friends our experience of being alone how we have sex and form romantic relationships

our capacity for being antisocial as well as the experience of growing older and dying This interdisciplinary book will be of great interest to scholars and practitioners across psychology digital technology and media studies as well as anyone interested in how technology influences our behaviour
