of fascinating case studies contributors provide an interdisciplinary analysis of these changes The developments are related to wider European and global transformation processes highlighting the contribution of Dutch ethnology to the international debate This timely collection provides a fascinating and insightful window on modern Dutch society     **Handelingen en mededeelingen van de Maatschappij der Nederlandsche Letterkunde te Leiden over het jaar ....** Maatschappij der Nederlandse Letterkunde te Leiden,1903     *Power and Urban Space in Pre-Modern Holland* Clé Lesger,2024-02-22 Cities and urban societies have many faces In this study the pre modern cities of Holland are presented as arenas where power relations between social classes are expressed in a more or less permanent appropriation of physical space and through discursive strategies The continuity of the power relations in the cities of Holland spanning centuries makes it urgent to look not only at the assumption of urban space as an expression of power relations within society but also at the contribution of this appropriation to the acceptance and continuity of the existing power relations in pre modern Holland Within this broad area extensive attention is paid to the very prominent and enduring appropriation of urban space in the field of housing the less permanent but violent appropriation of urban space during the public execution of scaffold punishments the maintenance of public order by civic militias and appropriation during riots and revolts In addition city descriptions maps and pictures of the pre modern cities of Holland are scrutinised for what they can reveal about the appropriation of urban spaces These themes each have an extensive historiography but they have never been brought together in an interpretative framework that fits in with Pierre Bourdieu s model of society and the work of especially John Allen on power until now
