[Monuments of Diverse Heritage in Early America](#) Barry L. Stiefel, 2025-10-01 Monuments of Diverse Heritage in Early America Placemaking and Preservation by Black Indigenous and Jewish Peoples explores a more inclusive history of preserving public historic sites At a time when some Americans have embraced white nationalism in response to unfolding demographic changes and others celebrate individual identities over all else an inclusive tolerant and unifying historical vision is sorely needed While past preservation efforts sometimes resulted in exclusionary forms of historical inspiration that need not be the case in the future Bringing greater attention to the diverse heritage of the United States will not only help dismantle the lingering remnants of exclusionary and elitist narratives but also celebrate a pluralistic and diverse past and present An inclusive empowering history can provide social cohesion while allowing room for individual groups to have authority over their pasts and representation in public side by side with one another **The Synagogues of New York's**

Afro-Asian Connections in Latin America and the Caribbean Debbie Lee-DiStefano, Luisa Marcela Ossa, 2018-11-27 Afro Asian Connections in Latin America and the Caribbean explores the connections between people of Asian and African descent in Latin America and the Caribbean. Although their journeys started from different points of origin spanning two separate oceans, their point of contact in this hemisphere brought them together under a hegemonic system that would treat these seemingly disparate continental ancestries as one. Historically, an overwhelming majority of people of African and Asian descent were brought to the Americas as sources of labor to uphold the plantation agrarian economies, leading to complex relationships and interactions. The contributions to this collection examine various aspects of these connections. The authors bring to the forefront perspectives regarding history, literature, art, and religion and engage how they are manifested in these Afro Asian relationships and interactions. They investigate what has received little academic engagement outside the acknowledgement that there are groups who are of African and Asian descent. In regard to their relationships with the dominant Europeanized center, references to both groups typically only view them as singular entities. What this interdisciplinary collection presents is a more cohesive approach that strives to place them at the center together and view their relationships in their historical contexts.
