Suprahumanism Daniel S. Forrest, 2014-08-09 We are at a crucial point in time a moment of transition as important as the emergence of Homo sapiens or the beginning of civilisation after the Neolithic Revolution Paradoxically the triumph of the West also called globalisation means the death of Europe and European man Our destiny hangs between two options either to complete the triumph of the egalitarian conception of the world which will bring about the end of history or to promote a historical regeneration Nietzsche prophesied that the Earth will eventually belong to either the last man or to the superman There are no other alternatives

The Devil in History Vladimir Tismaneanu, 2014-03-14 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author's personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century's experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements

the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus François Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness

The Aesthetics of Anarchy Nina Gourianova, 2012-03-06 In this meticulously researched in depth examination of anarchism and modernism Gurianova provides a new and compelling interpretation of the early Russian avant garde Her study has major implications for our understanding of some of the twentieth century s most important modernists and is an important contribution to the history and theory of radical political thought Allan Antliff author of *Anarchist Modernism Art Politics and the First American Avant Garde* Gurianova is the first scholar to study the early Russian avant garde not as a precursor to the Constructivism of the 1920s but as a distinctive movement in its own right In this important book she identifies an aesthetics of anarchy that characterized the movement s politics and poetics a concept with provocative implications for our understanding of the relationship between word and image This is a work of original and compelling scholarship that will profoundly alter our understanding of the Russian avant garde Nancy Perloff Getty Research Institute Los Angeles curator of the exhibit *Tango with Cows Book Art of the Russian Avant Garde 1910 1917*

In Search of Russian Modernism Leonid Livak, 2018-11-30 A critical reexamination of Russian modernist cultural historiography Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures by the Modern Language Association The writing and teaching of Russian literary and cultural history have changed little since the 1980s *In Search of Russian Modernism* challenges the basic premises of Russian modernist studies removing the aura of certainty surrounding the analytical tools at our disposal and suggesting audacious alternatives to the conventional ways of thinking and speaking about Russian and transnational modernism Drawing on methodological breakthroughs in Anglo American new modernist studies Leonid Livak explores Russian and transnational modernism as a story of a self identified and self conscious interpretive community that bestows a range of meanings on human experience Livak s approach opens modernist studies to integrative and interdisciplinary analysis including the extension of scholarly inquiry beyond traditional artistic media in order to account for modernism s socioeconomic and institutional history Writing with a student audience in mind Livak presents Russian modernism as a minority culture coexisting with other cultural formations while addressing thorny issues that regularly come up when discussing modernist artifacts Aiming to open an

overdue debate about the academic fields of Russian and transnational modernist studies this book is also intended for an audience of scholars in comparative literary and cultural studies specialists in Russian and transnational modernism and researchers engaged with European cultural historiography **Architecture of Oblivion** Andreas Schönle, 2011-06-01 Despite attempts to promote the aesthetics of ruins in Russia from Catherine the Great's construction of fake ruins in imperial parks to Josef Brodsky's elegiac meditations ruins have never achieved the status they enjoy in Western Europe While the Soviet Union was notorious for leveling churches post Soviet Russia has only intensified the practice of massive destruction and reconstruction Architecture of Oblivion examines the role of ruins in the development of Russia's historical consciousness from the eighteenth century to the present Investigating the meaning and functions ruins have acquired in Russian culture Sch nle looks at ideological reasons for the current disregard for the value of ruins and historical buildings in particular by political authorities and reveals how ruins have often become a site of resistance to official ideology and an invitation to map out alternative visions of history and of statehood An interdisciplinary study of Russia's response to ruins has never been attempted although the topic of ruins has garnered considerable interest in Western Europe and in the U S This original work from a leading authority on the subject will appeal to historians of Russian culture and thought literature and art scholars and general readers interested in ruins Death Orders Anna Geifman, 2010-05-20 This fascinating study shows how terrorism as developed and practiced in Romanov Russia has over the past century manifested itself as the template for modern and postmodern terrorism as a universal sociocultural psychological and existential experience irrespective of particular political causes ethnic distinctions and ideological boundaries Arguing that Russia is the birthplace of modern terrorism Death Orders The Vanguard of Modern Terrorism in Revolutionary Russia uses the nation as a case study of psycho historical patterns of worldwide terrorist activity during the past century Key features of early 20th century Russian political extremism serve as models for terrorist experiences in other periods and regions as author Anna Geifman builds a typology of a universal phenomenon The book shows how in Russia and elsewhere terrorists objectives have degenerated from punishment of individual adversaries and attempts to intimidate political elites to indiscriminate acts of political violence It shifts attention from ideology to practices that had been previously hidden ignored or rationalized demonstrating that what terrorists say about their motives may not be what actually drives them to brutality By looking closely at Russian precedents for the general experience of modern political violence the book helps illuminate many obscure aspects of terrorism today Alexander Bogdanov and the Politics of Knowledge after the October Revolution Maria Chehonadskih, 2023-12-30 In this book Maria Chehonadskih unsettles established narratives about the formation of a revolutionary canon after the October Revolution Displacing the centre of gravity from dialectical materialism to the rapid dissemination canonisation and decline of a striking convergence of empiricism and Marxism she explores how this tendency overshadowed by official historiography establishes a new attitude to modernity and progress nature and environment

agency and subjectivity party and class knowledge and power The book traces the adventure of the synthesis of empiricism and Marxism across philosophy science politics art and literature from the 1890s to the 1930s offering a radical rethinking of the true scope and scale that the main proponent of Empirio Marxism Alexander Bogdanov had on the post revolutionary socialist legacies Chehonadskih draws on both key and forgotten figures and movements such as Proletkult Productivism and Constructivism filling a gap in the literature that will be particularly significant for Marxism continental philosophy art theory and Slavic studies specialists *Anna Seghers* ,2019-11-11 Anna Seghers The Challenge of History features essays by

leading scholars devoted to this most important German writer whose novels and stories have been read by millions worldwide The volume is intended for teachers and students of literature and for general readers The contributions address facets of Seghers s large body of work which is characterized by reflections on political events shaping world history and written in a highly imaginative array of narrative styles The first section focuses on the author s famous novel The Seventh Cross Articles in the next two sections analyze her reactions to crises that marked the twentieth century and her connections to other relevant thinkers of her time The last section features new translations of Seghers s works **The Cultural**

E. Maurer,J. Richers,M. Rüthers,C. Scheide,2011-08-16 Starting with the first man made satellite Sputnik in 1957 and culminating four years later with the first human in space Yuri Gagarin space became a new utopian horizon This book explores the profound repercussions of the Soviet space exploration program on culture and everyday life in Eastern Europe especially in the Soviet Union itself The personality cult of Stalin in Soviet posters, 1929-1953 Anita Pisch,2016-12-16

From 1929 until 1953 Iosif Stalin s image became a central symbol in Soviet propaganda Touched up images of an omniscient Stalin appeared everywhere emblazoned across buildings and lining the streets carried in parades and woven into carpets and saturating the media of socialist realist painting statuary monumental architecture friezes banners and posters From the beginning of the Soviet regime posters were seen as a vitally important medium for communicating with the population of the vast territories of the USSR Stalin s image became a symbol of Bolshevik values and the personification of a revolutionary new type of society The persona created for Stalin in propaganda posters reflects how the state saw itself or at the very least how it wished to appear in the eyes of the people The Stalin who was celebrated in posters bore but scant

resemblance to the man Iosif Vissarionovich Dzhugashvili whose humble origins criminal past penchant for violent solutions and unprepossessing appearance made him an unlikely recipient of uncritical charismatic adulation The Bolsheviks needed a wise nurturing and authoritative figure to embody their revolutionary vision and to legitimate their hold on power This leader would come to embody the sacred and archetypal qualities of the wise Teacher the Father of the nation the great Warrior and military strategist and the Saviour of first the Russian land and then the whole world This book is the first dedicated study on the marketing of Stalin in Soviet propaganda posters Drawing on the archives of libraries and museums throughout Russia hundreds of previously unpublished posters are examined with more than 130 reproduced in full colour The personality cult of Stalin in Soviet posters 1929 1953 is a unique and valuable contribution to the discourse in Stalinist studies across a number of disciplines
