Nicholas J. Karolides, 2020-03-09 Reading is a quest Likened to an adventure both metaphoric and real the quest is a journey of discovery The reader s search encompasses the sensations of the experience itself accompanying emotions sense and meaning engendered by the experience and understandings of the self others and the world around Out of curiosity readers also search for an extensive array of information The journey can be envisioned and contemplated again and again after the reading act itself is completed In a meaningful way the reader s quest and its discoveries are life enduring and life fulfilling The purpose of this volume is two fold to establish and explore the essential features of reader response theory and its rendering of the reading process and to acknowledge a philosophy of teaching and to illustrate teaching strategies to evoke and enhance readers responses Understanding the ways in which the reader affects the reading and how the reading

happens will illuminate classroom pedagogy This text establishes and explores the essential features of reader response theory and its rendering of the reading process The essays acknowledge a philosophy of teaching and illustrate a spectrum of teaching strategies to evoke and enhance readers responses including whole and small group discussion story drama readers theatre journal writing scripts letters stories and other writings and body punctuation A case study format is used to illustrate these strategies in action in real classrooms

Reading Sacred Scripture Stephen Westerholm, Martin Westerholm, 2016 A rich display of the Christian tradition's reading of Scripture Though well known and oft repeated the advice to read the Bible like any other book fails to acknowledge that different books call for different kinds of reading The voice of Scripture summons readers to hear and respond to its words as divine address Not everyone chooses to read the Bible on those terms but in *Reading Sacred Scripture* Stephen and Martin Westerholm father and son invite their readers to engage seriously with a dozen major Bible interpreters ranging from the second century to the twentieth who have been attentive to Scripture's voice After expertly setting forth pertinent background context in two initial chapters the Westerholms devote a separate chapter to each interpreter exploring how these key Christian thinkers each understood Scripture and how it should be read Though differing widely in their approaches to the text and its interpretation these twelve select interpreters all insisted that the Bible is like no other book and should be read accordingly

researched look at the pedagogical value of literature in the classroom this book introduces new dimensions to discussions of contemporary picturebooks in elementary education and the social nature of intertextuality
