Newsweek Magazine Vol Cxlv No 21 May 23 2005

S Ben Porath

Newsweek Magazine Vol Cxlv No 21 May 23 2005:

Sociology of Waiting Paul Christopher Price, 2021-05-04 In *Sociology of Waiting* Paul Christopher Price investigates how people wait and analyzes what individuals do while waiting. It is a key feature within U S and other societies waiting is universal. Sociologically waiting gets at order and our ability or inability to pause. Crowds cannot rush into concert venues and supermarket clerks cannot check out customers simultaneously. So we must wait. In all our waiting we've developed strategies and structures for delays and such methods and structures provide order as well as understanding we recognize why we wait. The sociology of waiting is a classic piece of everyday sociology a timeless piece of routine behavior. Waiting is as natural as breathing eating and drinking indeed mothers wait nine months before infants are brought to term and summer will always follow spring. Waiting provides its own lessons. That is watching cars weave through traffic and receive citations by police we learn that waiting may have saved time and money. Shining the light on waiting permits a far superior understanding of order and how our society organizes itself around taking turns. Waiting is a matter that takes up much of our valuable time and resources consequently reducing wait time has become big business. Minerals Yearbook ,2006
