substrates in psychopathology      Cognitive Processes in Individual and Collective Creativity: A Cross-Cultural Perspective Chang Liu, Linden John Ball, Haiying Long, Wangbing Shen, 2019-12-30 Creativity the highest level of human wisdom has become an increasingly important concept in different fields of psychological enquiry particularly because it is portrayed as contributing to many aspects of society including personal development economic prosperity and technological advancement However although considerable research attention from a wide range of disciplinary backgrounds has focused on trying to understand creativity the specific nature of creativity its theoretical underpinnings and cognitive mechanisms remain unclear not least when it comes to the understanding of creativity at the individual level and creativity at the collective level On the one hand there are crucial distinctions between individual and collective creativity On the other hand the process of being creative involves not only independent or individual efforts but also interdependent or collective efforts Understanding these differences and interrelationships is crucially important in studies of creativity In this Research Topic we bring together research from a wide variety of cognitive and psychological approaches and perspectives in order to provide a comprehensive and in depth understanding of creativity at both the individual and collective levels Furthermore cognitive mechanisms in the creativity process are unavoidably affected by sociocultural factors and these mechanisms look different across cultures particularly between Eastern cultures and Western cultures two worlds that often imply dramatically dissimilar values and perspectives Despite the fact that many studies have compared and contrasted these two cultures in various respects little research has focused on the specific topic of cultural variation in creative cognition In addition very few studies have examined the differences in the cognitive mechanisms underpinning the cultural variations that can be observed at a surface level This Research Topic aims to fill this gap in the literature and examine the cognitive processes and mechanisms in the creativity process at both individual and collective levels across different cultures by using theoretical and empirical evidence      Explicit and Implicit Emotion Processing: Neural Basis, Perceptual and Cognitive Mechanisms Giulia Mattavelli, Alessia Celeghin, Noemi Mazzoni, 2021-06-23      **Disorders of Emotion in Neurologic Disease** , 2021-08-11 Disorders of Emotion in Neurologic Disease Volume 183 in the Handbook of Clinical Neurology Series informs clinicians on which neurologic diseases are likely to have a secondary effect on emotion what to look for in diagnosis and best practices for treatment The book begins with an understanding of the neurological basis for emotions in order to better understand what goes awry in neurological disease It then discusses specific neurologic diseases and disorders affecting emotion Reviews the neurology of emotions Specifies neurologic diseases that affect emotional expression Informs clinicians on how to diagnose along with best practices for treatment Includes coverage of stroke dementia epilepsy Huntington s Parkinson s TBI and more      **Protest and the Ambiguous Politics of Indignation** Louise Knops, 2025-02-14 What makes indignation political And why should we care about it Drawing on field work among four movements in Belgium 2017 2021 The Youth for Climate movement the Citizen platform for refugee support the Yellow Vests movement and the radical right movement

Schild in others it is rooted in historical forms of injustice and discrimination It triggers some of the most disruptive forms of contention while also reinforcing hegemonic norms and beliefs Indignation overall is one of the most explicitly political affects of mobilization while also reinforcing broader trends of depoliticization By unveiling the affective complexity of indignation the author shows the multiple ways in which the indignation expressed by social movements both politicizes and depoliticizes and what this means for the role played by emotions and affects in today s landscape of conflictuality The Oxford Handbook of Dialectical Behaviour Therapy Michaela A. Swales,2018-10-25 Dialectical behavior therapy DBT is a specific type of cognitive behavioral psychotherapy developed in the late 1980s by psychologist Marsha M Linehan to help better treat borderline personality disorder Since its development it has also been used for the treatment of other kinds of mental health disorders The Oxford Handbook of DBT charts the development of DBT from its early inception to the current cutting edge state of knowledge about both the theoretical underpinnings of the treatment and its clinical application across a range of disorders and adaptations to new clinical groups Experts in the treatment address the current state of the evidence with respect to the efficacy of the treatment its effectiveness in routine clinical practice and central issues in the clinical and programmatic implementation of the treatment In sum this volume provides a desk reference for clinicians and academics keen to understand the origins and current state of the science and the art of DBT

**Passion killers: The art of passion killing in the age of stress and anxiety** Phillip Walden Bowen,2021-09-07 There is growing pressure and stress placed on organisations to fight for customers and service product placement in an increasingly competitive global marketplace It has therefore never been more important to get the best out of the workforce To achieve this the role of the leader can be a fundamental factor in organisational success or failure Leaders need to have the requisite skills to reflect the demands placed upon them in the 21st century There are the accidental managers who just drop into the role of leadership and others who may develop skills and knowledge in readiness for a leadership role There are also those who may have the innate ability to lead Within the mix are those who are characterised by traits associated with the dark triad or who may use pathocratic influence on others to conform reinforcing values or lack of values associated with toxic leadership They create damage and harm They become passion killers The result can lead to a pathocracy This book discusses the role emotional intelligence plays in helping people deal with stressful and challenging experiences suggesting different ways to cope The author reflects on the values that are integral to the success or failure of an organisation Passion is identified as an added value that can differentiate one organisation from another If passion is harmed it can affect motivation creativity output performance and productivity Therefore this book provides the reader with examples of passion killing while making suggestions as to factors that can be adopted to engage and encourage passion Conclusions are drawn and recommendations made to support those faced with passion killers This book is aimed at those of all ages and educational backgrounds interested in developing their leadership knowledge and skills It is also aimed at those interested in learning more about

differences in personality emotional intelligence stress coping values and the importance of understanding the impact of passion killers
