Dick Jason P. Vest, 2009-02-17 From his 1952 short story *Roog* to the novels *The Divine Invasion* and *VALIS* few authors have had as great of an impact in the latter half of the 20th century as Philip K Dick In The

Postmodern Humanism of Philip K Dick Jason Vest explores the work of this prolific subversive and mordantly funny science fiction writer He examines how Dick adapted the conventions of science fiction and postmodernism to reflect humanist concerns about the difficulties of maintaining identity agency and autonomy in the latter half of the 20th century In addition to an extensive analysis of the novel *Now Wait for Last Year* Vest makes intellectually provocative comparisons between Dick and the works of Franz Kafka Jorge Luis Borges and Italo Calvino He offers a detailed examination of Dick s literary relationship to all three authors illuminating similarities between Dick and Kafka that have not previously been discussed as well as similarities between Dick and Borges that scholars frequently note but fail to explore in detail Like Kafka Borges and Calvino Dick employs fantastic unreal and visionary fiction to reflect the disruptions dislocations and depressing realities of twentieth century life By comparing him to these other writers Vest demonstrates that Dick s fiction is a fascinating barometer of postmodern American life even as it participates in an international tradition of visionary literature

From the pencil to the puppet to the drone the humanities and the social sciences continue to ride a wave of interest in

material culture and the world of things How should we understand the force and figure of that wave as it shapes different disciplines Other Things explores this question by considering a wide assortment of objects from beach glass to cell phones sneakers to skyscrapers that have fascinated a range of writers and artists including Virginia Woolf Man Ray Spike Lee and Don DeLillo The book ranges across the literary visual and plastic arts to depict the curious lives of things Beginning with Achilles s Shield then tracking the object thing distinction as it appears in the work of Martin Heidegger and Jacques Lacan Bill Brown ultimately focuses on the thingness disclosed by specific literary and artistic works Combining history and literature criticism and theory Other Things provides a new way of understanding the inanimate object world and the place of the human within it encouraging us to think anew about what we mean by materiality itself *Shusterman's Somaesthetics*, 2022-04-19 This edited collection provides an in depth and wide ranging exploration of pragmatist philosopher Richard Shusterman s distinctive project of somaesthetics devoted not only to better understanding bodily experience but also to greater mastery of somatic perception performance and presentation Against contemporary trends that focus narrowly on conceptual and computational thinking Shusterman returns philosophy to what is most fundamental the sentient expressive human body with its creations of living beauty Twelve scholars here provide penetrating critical analyses of Shusterman on ontology perception language literature culture politics aesthetics cuisine music and the visual arts including films of his work in performance art [The Epistemological Skyhook](#) Jim Slagle, 2016-05-20 Throughout philosophical history there has been a recurring argument to the effect that determinism naturalism or both are self referentially incoherent By accepting determinism or naturalism one allegedly acquires a reason to reject determinism or naturalism The Epistemological Skyhook brings together for the first time the principal expressions of this argument focusing primarily on the last 150 years This book addresses the versions of this argument as presented by Arthur Lovejoy A E Taylor Kurt G del C S Lewis Norman Malcolm Karl Popper J R Lucas William Hasker Thomas Nagel Alvin Plantinga and others along with the objections presented by their many detractors It concludes by presenting a new version of the argument that synthesizes the best aspects of the others while also rendering the argument immune to some of the most significant objections made to it [Activist Poetics](#) John Kinsella, 2010-01-01 John Kinsella is known internationally as the acclaimed author of more than thirty books of poetry and prose but in tandem with and often through those creative works Kinsella is also a prominent political activist In this collection of essays he explores anarchism veganism pacifism and ecological poetics and makes a compelling argument for poetry as a vital form of resistance to a variety of social and ethical ills Building on his own earlier notion of linguistic disobedience he analyzes his poetry and prose in the context of resistance For Kinsella all poetry is a call to action and Activist Poetics reads like a lively manifesto for it to escape the aesthetic vacuum and enter the real world *A Reader's Book of Days: True Tales from the Lives and Works of Writers for Every Day of the Year* Tom Nissley, 2013-11-04 Book connoisseur Tom Nissley has combed literary history to capture the stories that make writers lives perennially fascinating

Last Call: Humanity Hanging From A Cross Of Iron And Our Escape To Another Planet Daniel R Altschuler, 2022-05-30 This book tries to look at human thought and action from a scientific perspective and in the process acquaints the reader with essential concepts about science and its history It takes a broad look at our present troubles without overlooking some crucial historical religious and political causes but places science at the center stage The author applies what he has learned throughout his career to go beyond science After an introduction setting the scene and a review of the scientific temper and the inexcusable ignorance of science by some leaders and many followers the author turns his sharp vision to look at other issues The most significant challenges are critical and global climate change caused by our activities stockpiles of nuclear weapons that are a constant threat population growth and increasing inequality at all levels These problems do have a profound ethical character and threaten to end forever with our misery producing a catastrophic convergence Written with rigor for all readers with many references and infused with relevant quotations the author's message is clear we need to change our ways drastically and urgently now or never But he offers not much in terms

of a solution something done by many authors to sweeten the pill because as he argues beyond lofty declarations there is no real solution as the clock runs down leading to his dystopian view of the future

Relativism, Alternate History, and the Forgetful Reader Derek Thiess, 2014-11-25 The writer of alternate history asks what if What if one historical event were different what would the world look like today In a similar way the postmodern philosopher of history suggests that history is literature or that if we read certain historical details differently we would get a distinctly different interpretation of past events While the science fiction alternate history means to illuminate the past to increase our understanding of past events however the postmodern approach to history typically suggests that such understanding is impossible To the postmodern philosopher history is like literature in that it does not offer the reader access to the past but only an interesting story Building on criticism that suggests personal psychological reasons for this obscuring the past and using a literary theory of readership this book challenges the postmodern approach to history It channels the speculative power of science fiction to read the works of postmodern philosophy of history as alternate histories themselves and to map the limits and pathology of their forgetful reading of the past
