## **Nice Reaching Canopy Zoo Born Orangutans Journey:**

**Reaching for the Canopy** Kylie Bullo, 2015 Temara had done her species proud and proven that captive orangutans do have a place in the jungle of tomorrow I felt honoured that I was by her side during the first part of her remarkable world first journey In 2006 Kylie Bullo and her colleagues at Australia's Perth Zoo were part of a bold groundbreaking experiment that many experts believed was doomed to failure to return a zoo born orangutan to the wild The orangutan they chose was Temara a fiery redhead with a will of her own Temara had always been strong intelligent and independent but preparing for the return to the jungles of her ancestors would put all her best qualities and those of her keepers to the test Reaching for the Canopy is the story of that remarkable journey and of the remarkable woman who helped make it happen The book proves that the right blend of passion compassion and hard work can achieve what many thought was impossible It brings new hope to those fighting to bring this magnificent creature back from the brink of extinction Part of the proceeds on the sale of this book will go towards orangutan conservation projects Librarians ebook available on ProQuest and EBSCO Subject Memoir Zoology

**Ethical Debates in Orangutan Conservation** Alexandra Palmer, 2020-03-04 Ethical Debates in Orangutan Conservation explores how conservationists decide whether and how to undertake rehabilitation and reintroduction R R when rescuing orphaned orangutans The author demonstrates that exploring ethical dilemmas is crucial for understanding ongoing disagreements about how to help endangered wildlife in an era of anthropogenic extinction Although R R might appear an uncontroversial activity there is considerable debate about how and why it ought to be practised Drawing on in depth qualitative research with orangutan conservation practitioners this book examines how ethical trade offs shape debates about R R For example what if the orphan fails to learn how to be an orangutan again after years in the company of humans What if she is sent into the forest only to slowly starve Would she have been better off in a cage Could the huge cost of sending a rescued ape back to the wild be better spent on stopping deforestation in the first place Or do we have a moral obligation to rescue the orphan regardless of cost This book demonstrates that deconstructing ethical positions is crucial for understanding ongoing disagreements about how to help our endangered great ape kin and other wildlife Ethical Debates in Orangutan Conservation is essential reading for those interested in conservation and animal welfare animal studies primatology geography environmental philosophy and anthropology

**The Dialectical Primatologist** Nicholas Malone, 2021-10-24 The Dialectical Primatologist identifies the essential parameters vital for the continued coexistence of hominoids apes and humans synthesising primate research and conservation in order to develop culturally compelling conservation strategies required for the facilitation of hominoid coexistence As unsustainable human activities threaten many primate species with extinction effective conservation strategies for endangered primates will depend upon our understanding of behavioural response to human modified habitats This is especially true for the apes who are arguably our most powerful connection to the natural world Recognising the inseparability of the natural and the social

the dialectical approach in this book highlights the heterogeneity and complexity of ecological relationships Malone stresses that ape conservation requires a synthesis of nature and culture that recognises their inseparability in ecological relationships that are both biophysically and socially formed and seeks to identify the pathways that lead to either hominoid coexistence or alternatively extinction This book will be of keen interest to academics in biological anthropology primatology environmental anthropology conservation and human animal studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
