### Virginia and the New Nation Study Guide

After the colonies won their independence during the Revolutionary War, the new American nation had to be established. Virginia had an important role in this process. The actions and ideas of some Virginians formed the basis for the new constitutional government of the United States of America.

#### Important Virginians:

Two Virginians who were important during the establishment of the United States include George Washington and James Madison.

#### George Washington, the "Father of Our Country"

- was elected the first President of the United States of America
- provided the strong leadership needed to help the young country
- provided a model of leadership for future presidents

#### James Madison, the "Father of the Constitution"

- believed in the importance of having a United States constitution
- kept detailed notes during the Constitutional Convention
- was skilled at compromise and helped delegates (representatives) reach agreement during the difficult process of writing the Constitution of the United States of America

#### Important Documents:

The United States Declaration was an important document. It outlined how the government of the United States would work. It established how the American government would operate.

Two other important documents, both written by Virginians, focused on protecting people's rights. Key ideas from these documents are included in the Constitution in the "Bill of Rights."

**Globe Fearon Global Studies: Teacher's resource manual**, 1997 **Writers and Nations** Mohammed Ghazi Alghamdi, 2021-10-12 *Writers and Nations The Case of American and Saudi Literatures* examines how the concept of the nation in nineteenth century American literature and twentieth century and contemporary Saudi Arabian literature is represented in an array of relevant works. Reading their works gives us a sense of their conceptions of nation as a political and/or a social community. Writers examined in this book often see the nation as a threat to marginalized groups due to its cultural, religious, and political constraints. Writers tend to represent the tension between individuals and communities as a significant key to understanding a particular nation. This tension carries in it a sense of the boundaries of the nation. It is a question of who is part of the nation and who is not. The constraints of a certain nation, be they political or social, include the

dominant by excluding the repressed or the marginalized In other words by exposing the tension between disenfranchised and dominant groups writers define redefine and reform for us the national political and social scenes of a particular nation
