The range of perspectives is broad encompassing middle class professionals mosque congregations factory workers in France and the north of England itinerant African traders and prison inmates in New York The truism that Islam is a religion of the word takes on concrete meaning as these disparate communities find ways to elaborate word centered ritual and to have the visual and aural presence of sacred words in the spaces they inhabit The volume includes 46 black and white photographs that illustrate Muslim populations in Edmonton Philadelphia the Green Haven Correction Facility Manhattan Marseilles Berlin and London among other places The focus on space directs attention to the new kinds of boundaries and consciousness that exist not only for these Muslim populations but for people from all backgrounds in today s ever more integrated world This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 Focusing on the private and public use of space this volume explores the religious life of the new Muslim communities in North America and Europe Unlike most studies of immigrant groups these essays concentrate on cultural practices and expressions of
