Nice Book Age Ultron Vs Marvel Zombies:

Age of Ultron Vs. Marvel Zombies James Robinson, Brian Michael Bendis, 2015-11-11 There's a place so dangerous that it's walled off from the rest of Battleworld. A place where wild zombies feast on those who've been banished for crimes against the state where cold mechanical Ultrons destroy anything human. But as war rages between Ultron's robotic horde and the zombie masses, a small pocket of humanity must defend itself from both sides. Can Salvation, an oasis run by Jim Hammond, the Vision, and Wonder Man protect what little humanity resides in the Dead Zone? And how will the Hank Pym of 1872 react when banished to this hellish landscape? Ultron is on the verge of a breakthrough that will shake the foundations of Battleworld, but whoever wins, we lose unless Hank Pym can deliver us from evil.

Graphic Novels Michael Pawuk, David S. Serchay, 2017-05-30 Covering genres from adventure and fantasy to horror, science fiction, and superheroes, this guide maps the vast terrain of graphic novels, describing and organizing titles to help librarians balance their graphic novel collections and direct patrons to read-alikes. New subgenres, new authors, new artists, and new titles appear daily in the comic book and manga world, joining thousands of existing titles, some of which are very popular and well known to the enthusiastic readers of books in this genre. How do you determine which graphic novels to purchase and which to recommend to teen and adult readers? This updated guide is intended to help you start, update, or maintain a graphic novel collection and advise readers about the genre. Containing mostly new information as compared to the previous edition, the book covers iconic superhero comics and other classic and contemporary crime-fighter-based comics, action and adventure comics, including prehistoric heroic explorers and Far East adventure, as well as Western adventure, science fiction titles that encompass space opera, fantasy, aliens, post-apocalyptic themes, and comics with storylines revolving around computers, robots, and artificial intelligence. There are also chapters dedicated to fantasy titles, horror titles such as comics about vampires, werewolves, monsters, ghosts, and the occult, crime and mystery titles regarding detectives, police officers, junior sleuths, and true crime comics on contemporary life, covering romance, coming-of-age stories, sports, and social and political issues, humorous titles, and various nonfiction graphic novels.

[Why We Need Superheroes](#) Jeffrey Kahan, 2021-12-23 Comic books and superhero stories mirror essential societal values and beliefs. We can be Superman, Batman, Wonder Woman, Spider-Man, Black Panther, or Rocket Raccoon through our everyday choices. We can't fly, fix hyperdrives, or hear human heartbeats a mile away, but we can think about what Matt Murdock would do in a conflict, how Superman would respond to natural disasters, and how Captain America would handle humanitarian crises. This book analyzes the impact of dozens of comics by examining the noble personalities, traits, and actions of the main characters. Chapters detail how superheroes, comic books, and other pop culture phenomena offer more than pure entertainment and how we can better model ourselves after our favorite heroes. Through our good deeds, quick thinking, and positive choices, we can become more like superheroes than we ever imagined.
