Nice Book Human Rights Very Short Introductions:

Human Rights: A Very Short Introduction Andrew Clapham, 2007-06-28 Today it is usually not long before a problem gets expressed as a human rights issue. An appeal to human rights in the face of injustice can be a heartfelt and morally justified demand for some while for others it remains merely an empty slogan. Taking an international perspective and focusing on highly topical issues such as torture, arbitrary detention, privacy, health and discrimination, this Very Short Introduction will help readers to understand for themselves the controversies and complexities behind this vitally relevant issue. Looking at the philosophical justification for rights, the historical origins of human rights and how they are formed in law, Andrew Clapham explains what our human rights actually are, what they might be, and where the human rights movement is heading.

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Human Rights: A Very Short Introduction Andrew Clapham, 2007-06-28 What are our human rights? What are their philosophical justifications and historical origins? Focusing on highly topical issues such as torture, arbitrary detention, privacy and discrimination, this Very Short Introduction will help readers to understand for themselves the controversies and complexities behind this vitally relevant issue.

[Gewirthian Perspectives on Human Rights](#) Per Bauhn, 2016-03-22 Gewirth's theory of human rights has made a major contribution to philosophy. In this edited collection, contributors from a broad range of disciplines discuss the theoretical and practical application of Gewirthian theory to current world issues. Case studies highlight mental health, the LGBT community, intellectual disabilities, global economic inequality, and market instability to provide a truly interdisciplinary study. This important contribution to human rights scholarship provides a platform for further discussion of Gewirthian theory. It will be of interest to those researching moral, legal, and political philosophy, as well as policy makers, social workers, and medical staff.

Political Philosophy: A Very Short Introduction David Miller, 2003-06-26 Accessibly written, this short introduction encourages readers to think clearly and critically about key political concepts such as authority, democracy, justice, and nationality, among others. Miller looks at political authority, discusses the reasons society needs politics in the first place, explores the limitations of politics, and asks if there are areas of life that shouldn't be governed by politics. Moreover, he explores the connections between political authority and justice, a constant theme in political philosophy, and he outlines the ways in which social justice can be used to regulate rather than destroy a market economy.

Ethics: A Very Short Introduction Simon Blackburn, 2003-05-08 Our self-image as moral, well-behaved creatures is dogged by scepticism, relativism, hypocrisy, and nihilism by the fear that in a Godless world, science has unmasked us as creatures fated by our genes to be selfish and tribalistic or competitive and aggressive. In this sparklingly clear Guardian introduction to ethics, Simon Blackburn tackles the major moral questions surrounding birth, death, happiness, desire, and

freedom showing us how we should think about the meaning of life and how we should mistrust the soundbite sized absolutes that often dominate moral debates

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Multiculturalism: A Very Short Introduction Ali Rattansi, 2011-09-22 Has multiculturalism failed Is it time to move on What is the alternative Ali Rattansi explores the issues from national identity and social cohesion to cultural fragmentation and political correctness Providing a balanced assessment of the truth and falsity of the charges against multiculturalism he explores new ideas for the future

Historical Dictionary of International Relations Peter Lamb, Fiona Robertson-Snape, 2017-03-21 The Historical Dictionary of International Relations is a general guide to the theory and practice of the relations between states and between states and other actors on the world stage It introduces readers to the real world operations of international relations and is thus concerned with the actual relations between states organizations groups and people It also offers introductory information about the various theories old and new that help explain these relations why they happen and the possible alternatives that might be available now or in the future Moreover some of the key thinkers of these theories are discussed The Historical Dictionary of International Relations contains a chronology an introduction and an extensive bibliography The dictionary section has over 200 cross referenced entries on real world operations of international relations the actual relations between states organizations groups and people This book is an excellent resource for students researchers and anyone wanting to know more about International Relations

Reading: A Very Short Introduction Belinda Jack, 2019-04-18 Today many people take reading for granted but we remain some way off from attaining literacy for the global human population And whilst we think we know what reading is it remains in many ways a mysterious process or set of processes The effects of reading are myriad it can be informative distracting moving erotically arousing politically motivating spiritual and much much more At different times and in different places reading means different things In this Very Short Introduction Belinda Jack explores the fascinating history of literacy and the opportunities reading opens For much of human history reading was the preserve of the elite and most reading meant being read to Innovations in printing paper making and transport combined with the rise of public education from the late eighteenth century on brought a dramatic rise in literacy in many parts of the world Established links between a nation s levels of

literacy and its economy led to the promotion of reading for political ends But equally reading has been associated with subversive ideas leading to censorship through multiple channels denying access to education controlling publishing destroying libraries and even the burning of authors and their works Indeed the works of Voltaire were so often burned that an enterprising Parisian publisher produced a fire proof edition decorated with a phoenix But as Jack demonstrates reading is a collaborative act between an author and a reader and one which can never be wholly controlled Telling the story of reading from the ancient world to digital reading and restrictions today Belinda Jack explores why it is such an important aspect of our society ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Great Compassion Norm Phelps, 2004 Buddhism ought to be an animal rights religion par excellence It has long held that all life forms are sacred and considers kindness and compassion the highest virtues Moreover Buddhism explicitly includes animals in its moral universe Buddhist rules of conduct including the first precept Do not kill apply to our treatment of animals as well as to our treatment of other human beings Consequently we would expect Buddhism to oppose all forms of animal exploitation and there is in fact wide agreement that most forms of animal exploitation are contrary to Buddhist teaching Yet many Buddhists eat meat although many do not and monks priests and scholars sometimes defend meat eating as consistent with Buddhist teaching The Great Compassion studies the various strains of Buddhism and the sutras that command respect for all life Norm Phelps a longtime student of Buddhism and an acquaintance of His Holiness the Dalai Lama answers the central questions of whether Buddhism demands vegetarianism and whether the Buddha ate meat He is not afraid to examine anti animal statements in Buddhist lore particularly the issues of whether Buddhists in non historically Buddhist countries need to keep or to jettison the practices of their historical homelands

Critical Theory: A Very Short Introduction Stephen Eric Bronner, 2011-03-18 Critical Theory emerged in the 1920s from the work of the Frankfurt School the circle of German Jewish academics who sought to diagnose and if at all possible cure the ills of society particularly fascism and capitalism In this book Stephen Eric Bronner provides sketches of leading representatives of the critical tradition such as George Lukacs and Ernst Bloch Theodor Adorno and Walter Benjamin Herbert Marcuse and Jurgen Habermas as well as many of its seminal texts and empirical investigations This Very Short Introduction sheds light on the cluster of concepts and themes that set critical theory apart from its more traditional philosophical competitors Bronner explains and discusses concepts such as method and agency alienation and reification the culture industry and repressive tolerance non identity and utopia He argues for the introduction of new categories and perspectives for illuminating the obstacles to progressive change and focusing upon hidden transformative possibilities Only a critique of critical theory can render it salient for a new age That is precisely what this very short introduction provides

Advanced Introduction to

Legal Research Methods Ernst H. Ballin, 2020-10-30 Written by Ernst Hirsch Ballin this original Advanced Introduction uncovers the foundations of legal research methods an area of legal scholarship distinctly lacking in standardisation The author shows how such methods differ along critical empirical and fundamental lines and how our understanding of these is crucial to overcoming crises and restoring trust in the law Key topics include a consideration of law as a normative language and an examination of the common objects of legal research

The Rule of Law Under Fire? Raymond Wacks, 2021-10-21 Does the rise of populism authoritarianism and nationalism threaten the welfare of the rule of law Is this fundamental democratic ideal under siege In this timely and important book Raymond Wacks examines the philosophical roots of the rule of law and its modern often contentious interpretation He then investigates 16 potential ideological economic legal and institutional dangers to the rule of law They range from the exercise of judicial and administrative discretion and parliamentary sovereignty to the growth of globalisation the war on terror and the disquieting power of Big Tech He also considers the enactment and enforcement in several countries of Draconian measures to curtail the spread of COVID 19 which has generated fears that these emergency powers may outlive the pandemic and become a permanent feature of the legal landscape thereby impairing the rule of law Wacks identifies which issues among this extensive array pose genuine risks to the rule of law and suggests how they might be confronted to ensure its defence and preservation

Understanding International Relations Chris Brown, 2019-01-10 The fifth edition of this bestselling textbook offers a comprehensive and engaging introduction to International relations and has been fully updated to cover the dramatic changes in recent world politics Written in the author's unique and engaging style the text explores everything from foreign policy and security to global governance and the global economy to show how the theories and concepts Brown outlines are the only way to make sense of contemporary issues and events With reference to such diverse events as Brexit the Russian armed conflict in Ukraine the financial crisis the rise of China and the challenges of identity politics the author expertly shows how the range of theories presented in the book allow for an understanding of the destabilising events and developments that characterise global politics today and will continue to do so in the future This text remains the definitive guide to understanding international relations and is suitable for undergraduate and postgraduate students of international relations at any stage of their studies New to this Edition Thoroughly updated to showcase the breadth of the latest research and key thinkers in international relations theory Entirely rewritten chapter on the development of human rights and international criminal law Brand new chapter that offers a sophisticated and up to date analysis of the current state of world politics

Sociology and Social Justice Margaret Abraham, 2018-10-29 Superbly conceptualises and contextualises social justice in and for our global age The stellar cast of sociologists connect concepts to practices and outline the challenges we face as well as providing necessary responses Gurminder K Bhambra Professor of Postcolonial and Decolonial Studies University of Sussex A collection of brilliant essays by international scholar activists examining concepts and practices from diverse contexts Mary

Romero Professor of Justice Studies and Social Inquiry Arizona State University An excellent set of chapters bringing to the fore new perspectives on the social injustices and inequalities facing a world in crisis Kammila Naidoo Professor of Sociology University of Johannesburg By using contextual global sociology Sociology and Social Justice explores Historic and contemporary sites and contexts around the world Sociological insights on topics ranging from social movements to cyber space International struggles processes and outcomes Written by distinguished international scholars this is an essential text for those looking at issues of Human Rights Public Sociology Democratization Gender and Globalization *The Goods of Design* Ariel Guersenzvaig, 2021-04-07 A 2022 Choice Reviews Outstanding Academic Title What ends should designers pursue To what extent should they care about the societal and environmental impact of their work And why should they care at all Given the key influence design has on the way people live their lives designing is fraught with ethical issues Yet unlike education or nursing it lacks widespread professional principles for addressing these issues Rooted in a communitarian view of design practice this lively and accessible book examines design through the lens of professions offering a critical vision that enables practitioners academics and students of design in all disciplines to reflect on the practice s overarching purposes Considering how these are connected to others flourishing and moulded by community interactions *The Goods of Design* argues for a practice based approach to cultivate professional ethics it provides a normative direction that can meaningfully guide professional design activity both individually and collectively The volume also looks into the implications work has for the designer s self growth as a person offering ways to discover and navigate the complex tensions between personal and professional life [The International Convention on the Elimination of All Forms of Racial Discrimination](#) Patrick Thornberry, 2016-07-14 The Convention on the Elimination of All Forms of Racial Discrimination is the centrepiece of international efforts to address racial discrimination defined in broad terms to include discrimination based on skin colour descent ethnic and national origin Victims of discrimination within the scope of the Convention include minorities indigenous peoples non citizens and caste or descent groups Virtually all national societies are diverse in terms of ethnicity or race and none is free from discrimination making it one of the great issues of our time Against the background of international human rights standards and mechanisms to counter racial and ethnic discrimination this book provides the first comprehensive legal analysis of the provisions of the Convention on an article by article basis The book addresses the place of the Convention within the broader framework of United Nations action against discrimination The different chapters analyse and discuss broad topics of race ethnicity and international law the genesis and drafting of the Convention the aims and objectives of the Convention in light of its preamble and principles of non discrimination and equality In particular the book includes a critical appraisal of the contribution of the Convention to the eradication of racial discrimination It also reflects on whether there is scope for modification of the substance or procedures of the Convention in light of challenges arising from enhanced transnational population movements the intersection between discrimination on the ground of race and discrimination

against religious communities and the intersection of racial and gender based discrimination Encyclopedia of Global Justice Deen K. Chatterjee,2012-01-23 This two volume Encyclopedia of Global Justice published by Springer along with Springer s book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas *Global Politics* Roni Kay M. O'Dell,Sasha Breger Bush,2020-12-30 Global Politics A Toolkit for Learners is an innovative and exciting new learner centered approach to the study of international relations Leveraging decades of in class teaching and learning experiences authors Roni Kay M O Dell and Sasha Breger Bush have developed evidence based teaching and learning practices which support a scaffolded skills oriented approach Each chapter introduces historical documents from key political events important concepts and the techniques learners need to independently and actively engage with primary sources Readers are encouraged to develop a personal connection with global issues to consider matters of justice freedom and equality and to think critically about possibilities for social transformation in the global arena **Truths about Evil, Sin, and the Demonic** Byron Belitsos,2023-04-18 The Problem of Evil and the Predicament of Theodicy As Christians or theists we are moved to share the truth of God s love for humankind But how can we speak of such providential care in a world rife with crime war racism genocide and even ecocide In response to this predicament a theodicy proposes a rational defense of God s goodness that offers consolation to victims and hope to all believers Truths about Evil Sin and the Demonic provides a sweeping history of the discipline of theodicy that focuses on its strategic turning points and its possible future Belitsos argues that because of the atrocities of the last century and the threat of horrendous evils in the coming century we need to marshal the most explanatory elements of all previous theodicies and then drive toward an integrative model based on a creative synthesis The author also turns to a modern revelatory source that supports his argument for such a meta theodicy He concludes by critically engaging with this source and the entire tradition in his call for an apophatically informed integral theodicy

This is likewise one of the factors by obtaining the soft documents of this **Nice Book Human Rights Very Short Introductions** by online. You might not require more grow old to spend to go to the book initiation as capably as search for them. In some cases, you likewise do not discover the notice Nice Book Human Rights Very Short Introductions that you are looking for. It will definitely squander the time.

However below, past you visit this web page, it will be appropriately certainly easy to get as with ease as download guide Nice Book Human Rights Very Short Introductions

It will not acknowledge many era as we accustom before. You can accomplish it even though accomplish something else at house and even in your workplace. thus easy! So, are you question? Just exercise just what we provide below as with ease as evaluation **Nice Book Human Rights Very Short Introductions** what you like to read!
