## **Nice Book 1989 Revolutions Central Eastern Europe:**

**Post-communism, Democracy, and Illiberalism in Central and Eastern Europe after the fall of the Soviet Union** Matei Gheboianu, Daniela Popescu, 2023-12-06 Post communism Democracy and Illiberalism in Central and Eastern Europe after the fall of the Soviet Union explores how the downfall of communism brought about a difficult transition for Eastern and Central Europe The collapse of communism in this region varied from one case to another and the consequences of this process can still be noticed to varying degrees today Although most of the countries that were part of the former Soviet bloc are now members of the NATO or of the European Union and the democratic system in these areas seems to be a solid one the last ten years have indicated a declining trust of the citizens in political institutions and a degradation of political systems which keeps generating vocal manifestations of populism and Euroscepticism The end of the 1990s marked the final shift towards democracy with the accession of the first states to NATO and the beginning of accession negotiations with the European Union The process of consolidating democracies seemed to be an irreversible one and steps towards respect for human rights freedom of expression and the development of economies that functioned according to the rules of the free market gave hope for a very fast path to reduce the gaps in relation to Western democracies *Sociological Worlds* Stephen K. Sanderson, 2013-10-31 This reissue of the now classic Sociological Worlds originally published in 1995 attempts to present a comprehensive picture of human social life from the perspective of the comparative historical revolution in sociology and presents some of the best theoretical and empirical work that is now being done by comparative historical sociologists as well as work by their close cousins socio cultural anthropologists From this perspective readers gain a picture of the major ways in which human societies differ For this new library edition Professor Sanderson has provided both a new preface and three contributions that did not appear in the original edition **From Revolution to Uncertainty** Joachim

von Puttkamer, Włodzimierz Borodziej, Stanislav Holubec, 2019-06-05 Throughout Eastern Europe the unexpected and irrevocable fall of communism that began in the late 1980s presented enormous challenges in the spheres of politics and society as well as at the level of individual experience Excitement uncertainty and fear predicated the shaping of a new order the outcome of which was anything but predetermined Recent studies have focused on the ambivalent impact of capitalism Yet at the time parliamentary democracy had equally few traditions to return to and membership in the European Union was a distant dream at best Nowadays as new threats arise Europe's current political crises prompt us to reconsider how liberal democracy in Eastern Europe came about in the first place This book undertakes an analysis of the year 1990 in several countries throughout Europe to consider the role of uncertainty and change in shaping political nations *Plural and Multiple Geographies of Modern and Contemporary Art in East-Central Europe* Caterina Preda, Magdalena Radomska, 2024-11-29 This edited volume proposes a theoretical reflection on the different artistic geographies of East Central Europe ECE from an interdisciplinary perspective found at the intersection of art history art and politics and critical geography Contributors argue that this multiplicity is a defining feature of the region At the same time chapters employ the concept of plural geographies and call for an equal geography based on solidarity and an equal distribution of capital which could allow plural geographies to exist and be described The multiple geographies of ECE consider the perspective of local conditions and emphasize how this region was part of successive empires with an important ethnic diversity and changing borders giving it historical layers and multicultural characteristics The book will be of interest to scholars working in art history political studies cultural studies and geography Central and Eastern Europe Handbook Patrick Heenan, Monique Lamontagne, 2014-05-12 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter discussing the region's economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region's economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index Good Governance in Central and Eastern Europe Herman Willem Hoen, 2001-01-01 Undeniably Good Governance in Central and Eastern Europe provides many insights in the political economy of institutional reform and constitutes an important contribution to the growing literature on second generation reforms Carlos Santiso Democratization The implementation of a democratic order embedded in a market economy

environment has proved immensely difficult Furthermore this process is subject to tremendous variety within Central and Eastern Europe Ten years after the collapse of communism it was apparent that only Poland and Slovenia surpassed their 1989 levels of GDP This book scrutinises the arrangements to enforce good governance in this area both by means of external help and domestic political leadership From the popular assumption that transformation is a collective good it follows that the problem of free riding has to be faced Consequently there is a danger that transformation may never be completed This book empirically tests the relationship between economic performance and good governance focusing upon voluntary coercion as a means to prevent free riding behaviour The author examines the role of international organisations and discusses elite formation as an important element of good governance something often ignored in the economic analysis of economic performance

*The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century* Jochen Böhrer, Włodzimierz Borodziej, Joachim von Puttkamer, 2022-02-15 Violence analyzes both the violence exerted on the societies of Central and Eastern Europe during the twentieth century by belligerent powers and authoritarian and or totalitarian regimes and armed conflicts between ethnic social and national groups as well as the interaction between these two phenomena Throughout the twentieth century Central and Eastern Europe was hit particularly hard by war violence and repression with armed conflicts in the Balkans at the start and end of the period and two world wars in between In the shadow of these full scale wars ethnic social and national conflicts were intensified found new forms and were violently played out The interwar period witnessed the emergence of authoritarian states who enforced their claim to power through continued violence against political opponents stigmatized ethnic national and social groups and were themselves fought with subversive or terrorist techniques This volume focuses specifically on physical violence war and civil war ethnic cleansing systematic starvation policies deportations and expulsions forced labour and prison camps persecution by state security such as intensive surveillance which had an enormous impact on the lives of those it affected and other forms of government oppression and militant resistance Geographically it considers the western regions of Belarus and Ukraine as sites of extreme violence that had a noticeable impact on neighbouring Central and Eastern European countries as well The concluding volume in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in violence in this complex region

**Central and South-Eastern Europe 2003** Europa Publications, 2002 An in depth survey of the region presenting the latest economic and political developments It includes expert comment on issues of regional importance up to date statistics a directory of institutes and companies and political profiles

**Political Posters in Central and Eastern Europe, 1945-95** James Aulich, Marta Sylvestrová, 1999 Publikacja towarzysząca wystawie Sign of the times Manchester Metropolitan University 17 11 1999 31 01 2000

**Remembering 1989** Anke Pinkert, 2024-10-07 This account of the laboratory of radical democracy in the months before East Germany's absorption in the West challenges memories of Germany's reunification For many 1989 is an iconic date one we associate with the fall of

the Berlin Wall and the end of the Cold War The year prompts some to rue the defeat of socialism in the East while others celebrate a victory for democracy and capitalism in the reunified Germany Remembering 1989 focuses on a largely forgotten interregnum the months between the outbreak of protests in the German Democratic Republic in 1989 and its absorption by the West in 1990 Anke Pinkert who herself participated in those protests recalls these months as a volatile but joyous laboratory of radical democracy and tells the story of how and why this time out of joint has been erased from Germany's national memory Remembering 1989 argues that in order to truly understand Germany's historic transformation we must revisit protesters' actions across a wide range of minor vernacular and often transient sources Drawing on rich archives including videotapes of untelevised protests illegally printed petitions by Church leaders audio recordings of dissident meetings and interview footage with military troops Pinkert opens the discarded history of East European social uprisings to new interpretations and imagines alternatives to Germany's neoliberal status quo The result is a vivid unexpected contribution to memory studies and European history

During the 1990s Europe became the first continent with a mature society where people aged 60 years and older outnumber children and as this trend continues the resulting ageing societies will differ from previous societies in their make up in their needs and in their resource allocation Population ageing poses an even greater challenge to the post communist societies of Central and Eastern Europe While still struggling to cope with the aftermath of the economic and social transition process following the breakdown of communism they are now facing even more rapid demographic change than Western Europe This book brings together leading scholars to present an understanding of the processes underlying the very rapid population ageing in Central and Eastern Europe In addition to discussing the main demographic drivers behind this development in each of the countries examined this volume also discusses its implications for policy healthcare provision workforces intergenerational family relations the social cohesion of future Central and Eastern European societies and the quality of life experienced by their citizens Organised around broad geographical regions with final sections analysing the book's findings and their future implications *Population Ageing in Central and Eastern Europe* will be of interest to gerontologists policy makers students and scholars of population change

**The Triumph of Broken Promises** Fritz Bartel, 2022-08-09 A powerful case that the economic shocks of the 1970s hastened both the end of the Cold War and the rise of neoliberalism by forcing governments to impose austerity on their own people Why did the Cold War come to a peaceful end And why did neoliberal economics sweep across the world in the late twentieth century In this pathbreaking study Fritz Bartel argues that the answer to these questions is one and the same The Cold War began as a competition between capitalist and communist

governments to expand their social contracts as they raced to deliver their people a better life But the economic shocks of the 1970s made promises of better living untenable on both sides of the Iron Curtain Energy and financial markets placed immense pressure on governments to discipline their social contracts Rather than make promises political leaders were forced to break them In a sweeping narrative *The Triumph of Broken Promises* tells the story of how the pressure to break promises spurred the end of the Cold War In the West neoliberalism provided Western leaders like Ronald Reagan and Margaret Thatcher with the political and ideological tools to shut down industries impose austerity and favor the interests of capital over labor But in Eastern Europe revolutionaries like Lech Walesa in Poland resisted any attempt at imposing market discipline Mikhail Gorbachev tried in vain to reform the Soviet system but the necessary changes ultimately presented too great a challenge Faced with imposing economic discipline antithetical to communist ideals Soviet style governments found their legitimacy irreparably damaged But in the West politicians could promote austerity as an antidote to the excesses of ideological opponents setting the stage for the rise of the neoliberal global economy

**Inventing Eastern Europe** Larry Wolff, 1994 Wolff explores how Western thinkers contributed to defining and characterizing Eastern Europe as half civilized and barbaric

**The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century**

Włodzimierz Borodziej, Sabina Ferhadbegović, Joachim von Puttkamer, 2020-04-21 Statehood examines the extending lines of development of nation state systems in Eastern Europe in particular considering why certain tendencies in state development found a different expression in this region compared to other parts of the continent This volume discusses the differences between the social developments political decisions and historical experience that have influenced processes of state building with a focus on the structural problems of the region and the different paths taken to overcome them The book addresses processes of building social orders and examines the contribution of state institutions to social and cultural integration and disintegration It analyses institutional and personnel continuities that have outlasted the great political changes of the twentieth century and addresses the expansion of state activity in shaping property relations in agriculture and industry as well as in social security and family politics Taking a comparative approach based on experiential history allowing individual experience to be detached from specific national references the volume delineates a transnational comparison of problems shared within the region as they have been passed down through history providing definition to the specificity of Eastern Europe and situating the historical experience of the region within a pan European context The second in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in statehood and state building in this complex region
