Kleederdrachten Theodoor Molkenboer, 2022-02-08 In De Nederlandsche Nationale Kleederdrachten presenteert Theodoor Molkenboer een diepgaand en visueel rijk document dat een cultuurhistorische blik werpt op de klederdrachten van Nederland Het boek is niet alleen een catalogue van traditionele kledingstukken maar ook een reflectie op de sociaal culturele context waarin deze klederdrachten zijn ontstaan Molkenboers literaire stijl kenmerkt zich door een gedetailleerde en beschrijvende benadering met een zorgvuldige afstemming op etnologische en folkloristische elementen Door het gebruik van illustraties en iconografie weet hij de lezer te transporteren naar een tijd en plaats waar klederdracht niet alleen een modekeuze maar een sociale identiteit en regionale trots vormde Theodoor Molkenboer 1851-1932 was een fervent pleitbezorger van de volkskunde en had een sterke affiniteit met de tradities van zijn vaderland Zijn achtergrond als kunstenaar en etnograaf stelde hem in staat om de essentie van de Nederlandse klederdrachten niet alleen visueel maar ook emotioneel vast te leggen Molkenboer's betrokkenheid bij het optekenen van nationale geschiedenis en cultuur is duidelijk voelbaar in dit werk en zijn passie voor het behoud van deze tradities door innovatieve documentatie maakte hem tot een belangrijke figuur in de volkskundige wereld De Nederlandsche Nationale Kleederdrachten is een waardevol boek voor zowel geschiedenisliefhebbers als culturele antropologen Het biedt niet alleen inzicht in de diversiteit van de Nederlandse klederdracht maar ook in de sociokulturele achtergrond van het land De combinatie van schoonheid en educatie in dit werk maakt het tot een onmiskenbare aanvulling op iedere boekenplank van de culturele geïnteresseerde Dit boek verdient een brede lezersgroep die de verbindende kracht van cultuur en traditie waardeert **Reframing Dutch Culture** Herman Roodenburg, 2016-04-08 Dutch society has undergone radical changes in recent years due to complex political social and ethnic developments Reframing Dutch Culture examines issues of nationality ethnicity culture and identity in The Netherlands from an ethnological perspective linking past traditions and notions of identity with more recent transformations Weaving in a range of fascinating case studies contributors provide an interdisciplinary analysis of these changes The developments are related to wider European and global transformation processes highlighting the contribution of Dutch ethnology to the international debate This timely collection provides a fascinating and insightful window on modern Dutch society *The Dutch World of Washington Irving* Elisabeth Paling Funk, 2025-06-15 The Dutch World of Washington Irving tells an alternative origin story of American literary culture In December of 1809 before finding fame with Rip Van Winkle and The Legend of Sleepy Hollow Washington Irving published his satirical A History of New York from the Beginning of the World to the End of the Dutch Dynasty under the pseudonym Diedrich Knickerbocker Elisabeth Paling Funk explains that the History of New York and the Hudson Valley folktales that followed were part of an early trend of responding to the national

desire for a historical record Funk argues that these works uniquely describe this part of the American scene in the period of the Early Republic and bring forward the Dutch strain in its history and culture Funk explores what the young Irving would have read heard and observed during his early life and career in New York City once part of the former colony of New Netherland where he was surrounded by Dutch speaking neighbors and relatives and Dutch literature Based on these sources The Dutch World of Washington Irving argues that Irving s Knickerbocker works not only his History but also his Hudson Valley stories represent a crucial effort to preserve Dutch life and folk customs in the Hudson Valley in the face of Anglo Americanization Providing the first complete glossary of Irving s Dutch vocabulary and drawing on untranslated Dutch sources Funk offers cultural historians scholars of American folklore and literature and the latest generation of Irving s readers unprecedented access into the Dutch world of Washington Irving and his American contemporaries Studies in Roman Literature, Culture and Religion H. protection in its foundational years before the 1960s the decade when it launched from obscurity onto the global stage Raf De Bont studies a movement while it was still in the making and its groups were still rather small revealing the geographies of the early international preservationist groups their social composition self perception ethos and predilections their ideals and strategies and the natures they sought to preserve By examining international efforts to protect migratory birds the threatened European bison and the mountain gorilla in the interior of the Belgian Congo Nature s Diplomats sheds new light on the launch of major international organizations for nature protection in the aftermath of World War II Additionally it covers how the rise of ecological science the advent of the Cold War and looming decolonization forced a rethinking of approach and rhetoric and how old ideas and practices lingered on It provides much needed historical context for present day convictions about and approaches to the preservation of species and the conservation of natural resources the involvement of local communities in conservation projects the fate of extinct species and vanished habitats and the management of global nature
