Anderman, 2012 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs A Difficult Transition Mandira Sharma, Seira Tamang, 2016-10-25 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of research on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India as well as two standalone volumes comprising over fifty research papers and two book length studies detail the histories of sexual violence and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators The essays in this volume focus on Nepal which though not directly colonized has not remained immune from the influence of colonialism in its neighbourhood In addition to home grown feudal patriarchal structures the writers in this volume clearly demonstrate that it is the larger colonial and post colonial context of the subcontinent that has enabled the structuring of inequalities and power relations in ways that today allow for widespread sexual violence and impunity in

the country through legal systems medical regimes and social institutions The period after the 1990 democratic movement the subsequent political transformation in the aftermath of the Maoist insurgency and the writing of the new constitution has seen an increase in public discussion about sexual violence The State has brought in a slew of legislation and action plans to address this problem And yet impunity for perpetrators remains intact and justice elusive What are the structures that enable such impunity What can be done to radically transform these How must States understand the search for justice for victims and survivors of sexual violence This volume addresses these and related issues Published by Zubaan International Handbook on Ecotourism Roy Ballantyne, Jan Packer, 2013-01-01 Roy and Jan have assembled a timely snapshot of our current understanding of ecotourism both as a concept worthy of scientific inquiry and as an increasingly significant segment of global commerce and industry A terrific piece of work Sam Ham University of Idaho US In the 30 or so year since it became established in the tourism literature and in tourism practice ecotourism has attracted as many proponents as opponents This Handbook now brings together some of the leading scholars worldwide in this field to explore the current position of this form of tourism In doing so it offers serious critiques it explores meanings and paradoxes it offers best practices and it looks to the future It is the Handbook for one of tourism's fastest growing and controversial sectors David Airey University of Surrey UK This is a most welcome and needed book With a very strong editorial team and contributing authors the Handbook covers all the key issues of ecotourism It cuts through the confusion surrounding the much misunderstood concept of ecotourism clearly dealing with definitions concepts and research issues The Handbook is particularly welcome for its focus on the visitor experience a strength of the editors and for clearly linking the theory of ecotourism with practice in the field Christopher Cooper Oxford Brookes University UK This Handbook brings together contributions from over forty international experts in the field of ecotourism It provides a critical review and discussion of current issues and concepts it challenges readers to consider the boundaries of what ecotourism is and could be The Handbook provides practical information regarding the business of ecotourism insights into ecotourist behaviour and visitor experiences and reflections on the practice of ecotourism in a range of different contexts The Handbook is designed to be a valuable reference book for tourism scholars and researchers **Luzac's Oriental List and Book Review**, 1907
