Net Smart How To Thrive Online:

Net Smart Howard Rheingold, 2012-03-16 A media guru shows us how to use social media intelligently humanely and above all mindfully Like it or not knowing how to make use of online tools without being overloaded with too much information is an essential ingredient to personal success in the twenty first century But how can we use digital media so that they make us empowered participants rather than passive receivers grounded well rounded people rather than multitasking basket cases In Net Smart cyberculture expert Howard Rheingold shows us how to use social media intelligently humanely and above all mindfully Mindful use of digital media means thinking about what we are doing cultivating an ongoing inner inquiry into how we want to spend our time Rheingold outlines five fundamental digital literacies online skills that will help us do this attention participation collaboration critical consumption of information or crap detection and network smarts He explains how attention works and how we can use our attention to focus on the tiny relevant portion of the incoming tsunami of information He describes the quality of participation that empowers the best of the bloggers netizens tweeters and other online community participants he examines how successful online collaborative enterprises contribute new knowledge to the world in new ways and he teaches us a lesson on networks and network building Rheingold points out that there is a bigger social issue at work in digital literacy one that goes beyond personal empowerment If we combine our individual efforts wisely it could produce a more thoughtful society countless small acts like publishing a Web page or sharing a link could add up to a public good that enriches everybody William M. Ferriter, Adam Garry, 2015-04-17 Find the natural overlap

between the work you already believe in and the digital tools that define today's learning Each chapter introduces an enduring skill information fluency verbal persuasion visual persuasion collaborative dialogue and problem solving Then the authors present a digital solution that can be used to enhance traditional skill based instructional practices A collection of handouts and supporting materials tailored to each skill and tool type ends each chapter **Emerging Perspectives on**

How the World Changed Social Media Daniel Miller, Elisabetta Costa, Nell Haynes, Tom McDonald, Razvan Nicolescu, Jolynna Sinanan, Juliano Spyer, Shriram Venkatraman, Xinyuan Wang, 2016-02-29 *How the World Changed Social Media* is the first book in Why We Post a book series that investigates the findings of anthropologists who each spent 15 months living in communities across the world This book offers a comparative analysis summarising the results of the research and explores the impact of social media on politics and gender education and commerce What is the result of the increased emphasis on visual communication Are we becoming more individual or more social Why is public social media so conservative Why does equality online fail to shift inequality offline How did memes become the moral police of the internet Supported by an introduction to the project s academic framework and theoretical terms that help to account for the findings the book argues that the only way to appreciate and understand something as intimate and ubiquitous as social media is to be immersed in the lives of the people who post Only then can we discover how people all around the world have already transformed social media in such unexpected ways and assess the consequences

Change the World Using Social Media Paul Signorelli, 2021-01-15 In this story driven handbook to using social media to foster collaboration and positive change people using social media describe how those tools work and how they have used social media to produce positive transformations within their extended communities Starting with an overview of what social media tools provide Signorelli shows how social media tools can be quickly learned and easily adapted to produce small as well as large scale changes when used effectively in conjunction with other collaboration resources and tools Chapters include What Is Social Media and What Can It Do for You Facing the Pros and Cons of Facebook Twitter Small Messages With Large Results LinkedIn and Collaborative Project Management Tools Tapping Into Business Networks Picturing Change Instagram Snapchat and Flickr Blogging for Social Change Broadcasts and Podcasts YouTube TalkShoe and Zencast Videoconferencing and Telepresence Meeting Online to Change the World Follow the Money Changing the World through Online Fundraising Facing Incivility Trolls Online Harassment and Fake News Organizing to Change the World This engaging handbook that takes us into the minds and hearts

of some of today's most successful activists showing how they think and work Paul Signorelli helps us see easy ways you can incorporate the examples they provide into your own work to create stronger more creative positive results when addressing today's myriad challenges By the time you finish reading this book you should be able to decide which social media tools will be most effective for you immediately begin using those tools to reach your goals and be one large step closer to changing your world

Always On (Theology for the Life of the World) Angela Williams Gorrell, 2019-05-21 Many of us are always on scrolling through social media checking email or searching the web New media spaces can be sites and instruments of God's unconditional love but they can also nurture harmful conditions and become sources of anxiety jealousy and despondency Always On provides useful tools for helping students and congregants understand the world of social media and engage it faithfully enabling Christian communities to address its use in constructive pastoral ways The book includes discussion questions and sample exercises for each chapter

Civic Media Eric Gordon, Paul Mihailidis, 2016-06-10 Examinations of civic engagement in digital culture the technologies designs and practices that support connection through common purpose in civic political and social life Countless people around the world harness the affordances of digital media to enable democratic participation coordinate disaster relief campaign for policy change and strengthen local advocacy groups The world watched as activists used social media to organize protests during the Arab Spring Occupy Wall Street and Hong Kong's Umbrella Revolution Many governmental and community organizations changed their mission and function as they adopted new digital tools and practices This book examines the use of civic media the technologies designs and practices that support connection through common purpose in civic political and social life Scholars from a range of disciplines and practitioners from a variety of organizations offer analyses and case studies that explore the theory and practice of civic media The contributors set out the conceptual context for the intersection of civic and media examine the pressure to innovate and the sustainability of innovation explore play as a template for resistance look at civic education discuss media enabled activism in communities and consider methods and funding for civic media research The case studies that round out each section range from a debt resistance movement to government service delivery ratings to the It Gets Better campaign aimed at combating suicide among lesbian gay bisexual transgender and queer youth The book offers a valuable interdisciplinary dialogue on the challenges and opportunities of the increasingly influential space of civic media

The Culture Industry and Participatory Audiences Emma Keltie, 2017-01-19 This project offers a new critique of participatory media practices While the concept of participatory culture is often theorised as embodying the possibility of a potentially utopian future of media engagement and participation this book argues that the culture industry as it adapts and changes provides moments of authorised participation that play out under the dominance of the industry Through a critical recounting of the experience of creating a web series in Australia with a global audience outside of the culture industry structures this book argues that whilst participatory culture employing convergent media technologies enables media

consumers to become media producers this takes place through platforms controlled by industry The emerging architecture of the Internet has created a series of platforms where div participation can take place It is these platforms that become spaces of controlled access to participatory cultural practices

Wikipedia U Thomas Leitch, 2014-11-01 Explores the battle between the top down authority traditionally ascribed to experts and scholars and the bottom up authority exemplified by Wikipedia Since its launch in 2001 Wikipedia has been a lightning rod for debates about knowledge and traditional authority It has come under particular scrutiny from publishers of print encyclopedias and college professors who are skeptical about whether a crowd sourced encyclopedia in which most entries are subject to potentially endless reviewing and editing by anonymous collaborators whose credentials cannot be established can ever truly be accurate or authoritative In Wikipedia U Thomas Leitch argues that the assumptions these critics make about accuracy and authority are themselves open to debate After all academics are expected both to consult the latest research and to return to the earliest sources in their field each of which has its own authority And when teachers encourage students to master information so that they can question it independently their ultimate goal is to create a new generation of thinkers and makers whose authority will ultimately supplant their own Wikipedia U offers vital new lessons about the nature of authority and the opportunities and challenges of Web 2 0 Leitch regards Wikipedia as an ideal instrument for probing the central assumptions behind liberal education making it more than merely as one of its severest critics has charged the encyclopedia game played online
