powerful when it listens before it speaks Dr Octavian C Obeada Engaging Life's Deepest Questions Our moral obligations are not burdensome impositions but expressions of a reality in which we are invited to participate John M Frame The Doctrine of the Christian Life The first task of love is to listen Henri J M Nouwen Out of Solitude A robust apologetic does not fear the tough questions but welcomes them as opportunities for growth William Lane Craig A Reasonable Response Evangelicals Engaging in Practical Theology Helen Morris, Helen Cameron, 2022-03-30 This book aims to introduce a distinctively evangelical voice to the discipline of practical theology Evangelicals have sometimes seen practical theology as primarily a liberal project This collection however actively engages with practical theology from an evangelical perspective both through discussion of the substantive issues and by providing examples of practical theology done by evangelicals in the classroom the church and beyond This volume brings together established and emerging voices to debate the growing role which practical theology is playing in evangelical and Pentecostal circles Chapters begin by addressing methodological concerns before moving into areas of practice Additionally there are four short papers from students who make use of practical theology to reflect upon their own practice Issues of authority and normativity are tackled head on in a way that will inform the debate both within and beyond evangelicalism This book will therefore be of keen interest to scholars of practical evangelical and Pentecostal theology **Collaborative Practical Theology** Henk de Roest, 2019-10-07 In Collaborative Practical Theology Henk de Roest documents and analyses research on Christian practices as it can be conducted by academic practical theologians in collaboration with practitioners of different kinds in Christian practices all around the world *Engaging the fourth industrial revolution* Jan-Albert van den Bergh, 2020-01-01 The reality of a radically changing world is beyond dispute The notion of the Fourth Industrial Revolution is a heuristic key for the world of emerging technologies such as artificial intelligence nanotechnology quantum computing big data the internet of things and biotechnology The discussion of emerging technologies and the Fourth Industrial Revolution highlights urgent questions about issues like intention function risk and responsibility This publication stimulates further reflection ongoing conversation and eventually the production of more textured thinking The conversation with technology and with thinkers on technology holds the promise of a certain fecundity the possibility to see deeper into human evolution but also may be into the future of humankind **Postdigital Theologies** Maggi Savin-Baden, John Reader, 2022-09-01 This book is about the relationships between technologies and the content of religious belief and practice A number of models are now starting to emerge but each of these depends on the theological or philosophical framework within which the debate is set At the same time there are dilemmas operating at different ends of the spectrum For example at one end there is a tendency towards subsuming the digital within the divine and at the other an instrumental stance relating to how technology is deployed Either of these stances could be said to ignore rather than acknowledge that the human itself is being changed as a result of the interactions with the digital The book explores the following areas Where is God to be found or present in the postdigital condition What

are the implications of the postdigital condition for spirituality and indeed for the activity of God through the Holy Spirit How do concepts of transhumanism or posthumanism effect understandings of the incarnation Does the doctrine of the Trinity need revisiting in the light of the digital as medium of relationship Does Creation now include the postdigital What of the Kingdom of God now that the kingdom of the Tech giants is so powerful all consuming
