Networks of Power Dennis W. Mazzocco,1994 This book is a startling expose of the increasing threat to free speech and democratic government A broadcast insider with twenty years of working experience with the major networks Mazzocco describes the ways that an ever expanding U S based multinational media cartel veils the machinations of the corporate state by dominating worldwide markets for TV radio newspapers books movies cable recordings and videos Networks of Power Dennis W. Mazzocco,1994 This book is a startling expose of the increasing threat to free speech a democratic government Mazzocco describes the ways that an ever expanding U S based multinational media cartel velis the machinations of the corporate state by dominating worldwide markets for TV radio newspapers books movies cable recordings and videos

The Partisan Press Si Sheppard,2007-11-19 This book is the first to place the contemporary debate over media bias in historical context illustrating how partisan bias in the American media has built political parties set the stage for several wars and even contributed to the rise and fall of U S presidents The author discusses the rise of the unprecedented post World War II model of objective journalism and explains why this model is breaking down under the challenge of a new generation of technology driven partisan media alternatives *Journalism in the United States* Edd Applegate,2011-05-19 Print and broadcast journalism in the United States have changed in recent years as a result of millions of people using the Internet and social media for obtaining some or most of the information they desire So notes professor of journalism Edd Applegate who after surveying the decline in circulation and advertising revenues of newspapers and broadcast and radio news stations and the rise of cable news and website journalism outlines in *Journalism in the United States Concepts and Issues* the effect of this sea of change on key matters in journalism today In this work Applegate updates readers on the current conditions of the print and broadcast industries with chapters on a variety of topics from theories of the press to the structure of the print and broadcast industries from the role of advertising and public relations to the role of the changing view of the press views of and commitments to objectivity and news balance Throughout Applegate obliges readers to wrestle with how the change in medium from print or broadcast to Web is not the main culprit in how the news has changed Instead he illustrates how many of the core issues remain unchanged and what is needed is a more complex analysis of core concepts and issues and how these have been affected from freedom of the press to the treatment of minorities by the evolution of news as a business and the education of journalists today for that business With a selected bibliography and an index to assist the reader this book is a wonderful text for upper level undergraduates graduates and college faculty with journalism or mass communications courses as well as for academic libraries Towards a Market in Broadcasting C. Potschka,2012-03-27 A comparative analysis of the evolution ofUK and German broadcasting policies adding to the developing area of comparative research on media and communications policy The book focuses on processes of marketization and liberalization as they have affected policy making national regulatory frameworks and media structures

Lies the Media Tell Us James P. Winter, 2007 More disinformation and misinformation as perceived bad news threatens to disturb domestic tranquility *Race, Class, and Gender in the United States* Paula S. Rothenberg, 2004 Race Class and Gender in the United States An Integrated Study presents students with a compelling clear study of issues of race gender and sexuality within the context of class Rothenberg offers students 126 readings each providing different perspectives and examining the ways in which race gender class and sexuality are socially constructed Rothenberg deftly and consistently helps students analyze each phenomena as well as the relationships among them thereby deepening their understanding of each issue surrounding race and ethnicity **Unmasking the Klansman** Dan T. Carter, 2023-04-15 **Distorting**

Defense Stephen P. Aubin, 1998-11-30 Using journalists own standards as the measure an exhaustive analysis of nearly 3000 network news reports from the Reagan Bush and Clinton administrations reveals that the networks may do more to misinform than inform on a whole range of complex issues related to national defense This study paints a disturbing picture of the inadequate coverage ABC World News Tonight CBS Evening News and NBC Nightly News provide to millions of viewers each night Aubin concludes that network coverage of defense issues was too often tainted by preconceived attitudes and lapses in journalistic standards While as much as twenty five cents of every dollar went to the defense budget during some of the periods reviewed the networks hardly covered the key issues surrounding the Reagan defense buildup or the dramatic cuts that followed the end of the Cold War In addition to their inadequate coverage the networks also deprived Americans of balanced coverage of the investments made in high tech weapons that ultimately prevailed in the Gulf War Though the networks receive good marks for foreign policy coverage they need to improve the quality of defense reports This book provides them with the lessons and prescriptions for doing so and it serves as a primer for all Americans who want to know just what it was that the networks failed to tell them **American Television News** Steve Michael Barkin, 2003

Adapting Nathaniel Hawthorne to the Screen Laurence Raw, 2008 Raw explains how some filmmakers have tackled the difficulty of Hawthorne s material by treating it as being firmly situated in American life of the mid nineteenth century while others have used Hawthorne s work to comment on various aspects of twentieth century American life This latter device is particularly evident in the many versions of *The Scarlet Letter* including a 1950 television broadcast that aired two months after senator Joseph McCarthy s speech about card carrying members of the Communist Party and 1960s and early 70s versions supporting countercultural values *Mother Jones Magazine* , 1994-11 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues *Burying the Lead* Mal Jay Hyman, 2019-03-01 The Cold War ushered in a time of secrecy and willing media cooperation to keep those secrets But even after winning that war the vault of secrets remains firmly locked especially surrounding John F Kennedy s murder Even for those who fundamentally oppose the current presidential administration notions of a national security state and fake news must be examined to maintain a functional democracy This book explains

the rapid decline in confidence in government that started after the assassination of JFK The mainstream media failed to go beyond repeating the official story and by 1991 they along with academe and the government had stopped investigating altogether It was filmmaker Oliver Stone whose film fueled public outrage and led to the JFK Act to declassify all of the remaining documents Almost four million pages of documents were then released that even Congress had not yet seen The JFK Act stated that all files must be released by October 2017 yet thousands are still withheld on the grounds of national security This volume examines the tight alliances that have allowed this cover up for more than 50 years President Kennedy declared in October 1963 that men who create power make an indispensable contribution to a nation s greatness but the men who question power make a contribution just as indispensable especially when they are disinterested for they determine whether we use power or power uses us Changing and Unchanging Face of U.S. Civil Society Marcella Ridlen Ray,2017-12-02 Ray has written a book that should be read by anyone interested in the current debates about the general health of civil society in the United States American Journal of Sociology The formation maintenance and well being of American civil society is a topic of intense debate in the social sciences Until now this debate has lacked rigor with the term civil society commonly used interchangeably and imprecisely with other terms such as civic engagement Today s discourse also lacks methodological discipline and relies too heavily on narrowly selected evidence in support of a particular argument In this invaluable contribution to the debate Marcella Ridlen Ray supplies an empirical study based on a theoretical model of democratic civil society one that posits high levels of communication diversity autonomy mediation and voluntary association In Ray s account the emergent story of U S civil society is that of a dynamic institution not necessarily one that is linear in its progression It is a tale of flux resilience and stability over the long term that is consistent with subtexts on political equilibrium she notes in the work of early political analysts such as Aristotle Machiavelli Locke Burke and later Tocqueville Ray dispels the widely accepted myth that Americans are increasingly apathetic and withdrawn from common interests The evidence reveals a persistence of long standing public spiritedness despite the fact that individuals use wider discretion in deciding if and how to attach to community and despite a historical lack of enthusiasm for performing civic duties in lieu of more pleasurable leisure activity This public spiritedness continues to reflect embedded religious cultural values that disproportionately influence how and when people dedicate time and money to associational life U S civil society has grown more inclusive and democratic as Americans venture at growing rates across differences in perspective *Public Service Media and Policy in Europe* K. Donders,2011-11-15 An in depth account of EU policies in the area of public service broadcasting focusing mainly on the application of the European State aid rules The book discusses when how and with what impact the European Commission deals with public service broadcasting Herbert Schiller Richard Maxwell,2003 Herbert I Schiller 1919 2000 has been called America s most original and influential media analyst of the left in the twentieth century Maxwell s timely book fuses biography and history in a digest of Schiller s major works to reveal their continuing relevance

Wright,2023-05-31 This textbook describes the field of radio and television in the United States presents the material in a manner the reader can grasp and enjoy and makes the book useful for the classroom teacher Written for adaptation to individual teaching situations the book is divided by subject matter into logical chapter divisions that can be assigned in the order appropriate for specific course students Each chapter stands by itself but the book is also an integrated whole It is easy to understand at first reading by beginning radio television majors or nonmajor elective students alike To give readers a complete picture of the field subjects such as ethics careers and rivals to U S commercial radio and television are included *From Teams to Knots* Yrjö

Engeström,2008-04-14 Teams are commonly celebrated as efficient and humane ways of organizing work and learning By means of a series of in depth case studies of teams in the United States and Finland over a time span of more than 10 years this book shows that teams are not a universal and ahistorical form of collaboration Teams are best understood in their specific activity contexts and embedded in historical development of work Today static teams are increasingly replaced by forms of fluid knotworking around runaway objects that require and generate new forms of expansive learning and distributed agency This book develops a set of conceptual tools for analysis and design of transformations in collaborative work and learning The Political Economy of Global Communication Peter Wilkin,2001-09-20 Recent debates surrounding human security have focused on the satisfaction of human needs as the vital goal for global development Peter Wilkin highlights the limitations of this view and argues that unless we incorporate an account of human autonomy into human security then the concept is flawed He reveals how human security is a concern with social relations that connect people in local national and global networks of power structured through capitalism and hierarchical inter state systems Autonomy as an aspect of human security depends upon the ability of citizens to gain information about the processes that shape their lives In this respect autonomy and communication are inherently linked and are prerequisites for the establishment of meaningful democratic systems
