*Essential Revision Notes in Clinical Neurology* Hani T. S. Benamer, 2017-11-22 Neurological disorders account for 10% of consultations in primary care and 20% of acute hospital admissions yet there is good evidence that neurophobia is common among medical students lost in unnecessary detail This has led to neurology's long established reputation as a difficult subject This book is the antidote to neurophobia It is divided into four sections Section I introduces the reader to clinical neurology by summarising the basic aspects of a neurological consultation including history and examination Section II covers neurological signs related to cranial nerves motor and sensory system and peripheral nerve lesions Section III comprises the major and common diseases such as headache epilepsy stroke Parkinson's disease and Multiple sclerosis and Section IV addresses other main neurological problems The scope of this book is limited to only the most fundamental principles and omits all superfluous detail ideal for medical students needing a concise introduction to neurology and an overview for revision
