Oxford Textbook of Palliative Medicine Geoffrey W. C. Hanks, 2011-07-21 Emphasising the multi disciplinary nature of palliative care the fourth edition of this text also looks at the individual professional roles that contribute to the best quality palliative care

Children's Palliative Care in Africa Justin Amery, 2009 Children's palliative care has developed rapidly as a discipline as health care professionals recognise that the principles of adult palliative care may not always be applicable to children at the end of life The unique needs of dying children are particularly evident across Africa where the scale of the problem is overwhelming and the figures so enormous that they are barely comprehensible over 400 000 children in Africa died from AIDS in 2003 and out of the 166 000 children a year diagnosed with cancer 84% of these are in the developing world Despite the enormous need provision of children's palliative care in Africa is almost non-existent with very few health workers trained and confident to provide care for dying children The challenges of providing palliative care in this setting are different to those in more developed countries contending with the shortage of physical and human resources in addition to the vast scope of the care needed Written by a group with wide experience of caring for dying children in Africa this book provides practical realistic guidance on improving access to and delivery of palliative care in this demanding setting It looks at the themes common to palliative care including communication assessment symptom management psychosocial issues ethical dilemmas end of life care and tips for the professional on compassion and conservation of energy but always retains the focus on the particular needs of the health care professional in Africa Whilst containing some theory the emphasis is on practical action throughout

It will provide health care professionals working in Africa and other resource poor settings with the confidence knowledge and capacity to improve care for the terminally ill child in constrained and demanding environments **Comprehensive Neonatal Nursing Care** Carole Kenner,Judy Lott,2013-08-21 This book provides a complete look at neonatal healthcare delivery This edition includes discussions of contemporary topics of interest such as informatics genetics global health and family centered care which are vital to providers caring for neonates today The case studies and the evidence based practice dialogues at the end of each chapter provide great opportunities for further reflection The book is useful to a wide audience in nursing including undergraduate and graduate nursing students practicing neonatal and pediatric nurses and advanced practice nurses who care for neonates Score 92 4 Stars Doody s Medical Reviews This classic has been thoroughly updated to incorporate the most up to date research findings and strategies for providing cost effective and evidence based care New chapters address emerging infections the late preterm infant and neonatal care from a global perspective Included are updated neonatal care protocols and procedures neuroprotective risk factors new treatments and new trends in developmental care Text integrates the Institute of Medicine s 10M five competencies reflects the Affordable Healthcare Act and the Robert Wood Johnson and 10M report The Future of Nursing The text continues to provide neonatal care from a physiologic and pathophysiologic approach with a major emphasis on nursing management at the bedside and advanced practice level Each neonatal body system is presented along with E B interventions to assist in understanding the why behind what is seen in the clinical area Integrative management is threaded through the text along with extensive research findings to support practice strategies and rationales for sound clinical decision making Topics of recent interest include iatrogenic complications neonatal pain use of computers or other technology in neonatal care and neonatal AIDS Case studies enhance understanding of both common and rare neonatal conditions New to the Fifth Edition New chapters emerging infections the late preterm infant and neonatal care from a global perspective Updated neonatal care protocols and procedures neuroprotective factors new treatment modalities and new trends in developmental care Tackles the UN Millennium Development Goals MDGs Addresses the expansion of the nurse s role in the US and worldwide Provides case studies that lead the reader through the identification diagnosis treatment and evaluation of common and rare neonatal conditions
