Parsons' Practice Manual of the State of New York, Containing the Civil Practice Act and Surrogate's Court Act, with Sections Annotated with Notes Showing Derivation Thereof, with Reference Notes, and Cases Construing and Applying Such Sections, Containing Also Tables Showing Distribution of Sections of the Code of Civil Procedure New York (State), 1921 **Assessment: Social Practice and Social Product** Ann Filer, 2002-11-01

Assessment has become one of the most significant areas of interest in educational policy development as well as the focus of complex political economic and cultural expectations for change. Increasingly governments worldwide have become aware that curricula and teachers can be indirectly controlled through programmes of assessment. Opponents of centralized systems of mass assessment claim they are ill suited to the diverse and changing needs of learners and users of assessment. In this text the UK and US writers take the reader beyond the obvious functions of assessment and focus upon the roles it performs in the social structuring of society. They examine the myths and assumptions that underpin assessment and testing and draw attention to its cultural context. This collection is devoted explicitly to socio cultural studies of assessment and attempts to map the terrain of some 30 years of study in the field. Chapters are organized thematically with background text providing comparative perspectives, key issues and further reading. The book provides a wide ranging structured and accessible approach to the study of socio cultural origins and impacts of assessment.
