Obligations In Roman Law Obligations In Roman Law:

The Roman Law of Obligations Peter Birks, 2014-07-11 The Roman Law of Obligations presents a series of lectures delivered by the late Peter Birks as an introductory course in Roman law Discovered in complete manuscript form following his death the lectures are published here in paperback for the first time The lectures present a clear conceptual map of the Roman law of obligations guiding readers through the institutional structure of contract delict quasi contract and quasi delict They introduce readers to the terminology needed to understand the foundations of Roman law and the conceptual framework of the law of obligations that left an enduring legacy on European private law The lectures offer an invaluable introduction to Roman private law for those coming to the subject for the first time They will also make stimulating reading for academics and lawyers interested in Roman law European legal history and the lasting influence of Roman law on modern private law *A Manual of the Principles of Roman Law Relating to Persons, Property, and Obligations* Robert Dundonald Melville, 1921 The Law of Obligations Reinhard Zimmermann, 1996 This book is widely regarded as one of the most remarkable achievements in Roman Law and Comparative Law scholarship this century a fact attested to by the universal acclaim with which it has been received throughout Europe America and beyond As a work of Roman Law scholarship it fuses the vast volume of 20th century scholarship on the Roman law of obligations into a clear and very readable and in many ways original account of the law As a work of comparative law it traces the transformation of the Roman law of obligations over the centuries into what is now modern German English and South African law presenting the reader with a contrast between these legal systems which is unique both in its scope and its depth As a whole the book is written with a deep understanding of human nature and of many social economic and other forces that determine the face of the law *Obligations in Roman Law* Thomas McGinn, 2012 Explores a fundamental building block of Roman life *An Epitome and Analysis of Savigny's Treatise on Obligations in Roman Law* Archibald Brown, 2023-03-04 Reprint of the original first published in 1872 The Roman Law of Property and Obligations David Pugsley, 1972 *An Epitome and Analysis of Savigny's Treatise on Obligations in Roman Law. By A. Brown* Friedrich Karl von Savigny, 1872 *Roman Law of Obligations* Nikolaus Benke, 2025 *A Manual of the Principles of Roman Law Relating to Persons, Property, and Obligations* Robert Dundonald Melville, 2015-07-09 Excerpt from A Manual of the Principles of Roman Law Relating to Persons Property and Obligations With a Historical Introduction There are already in existence so many works upon Roman Law of the highest erudition and authority that it seems necessary to offer some explanation of the appearance of the present volume The purpose of this work is somewhat special Far from seeking either to place itself alongside of or to enter into rivalry with the already recognised authorities upon the subject it seeks rather to present the results of their critical erudition in a form and in terms free from technicalities and to expound the main principles of the matured Roman Law relating specially to Persons Property and Obligations but excluding the Law of Succession and Actions in so far as these are the foundation of modern legal science in

a manner that does not involve as a pre requisite a knowledge of the Latin language In this respect the present work seeks to be an introduction to the study of law that will be available to the interested layman no less than to the would be lawyer By means of a succinct Historical Introduction and throughout the text it has been sought to indicate the course of the development of the Roman legal institutions and principles a knowledge of which is essential to the true appreciation of any legal system This work has been prompted as the result of the experience obtained by the author during a number of years in lecturing to Egyptian students The Egyptian Native Codes being based in very large measure upon the French Codes a knowledge of the principles of Roman Law is essential to the student of law in Egypt who however suffers from the disadvantage that he has no knowledge of the Latin language While it is therefore impossible to expound the subject to him either directly or by way of commentary upon the Latin texts it is at the same time necessary to present to the student in language that will be readily understood a statement of the main principles of the Roman Law in such a manner as will both compensate for his lack of a classical education and do fair justice to the subject With this object in view the subject is here expounded by a method of divisions and sub divisions each of which is as far as possible self contained on which account indeed there may appear to be at times somewhat of redundancy About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
