Occupational Therapy for Children - E-Book Jane Case-Smith, Jane Clifford O'Brien, 2013-08-07 The sixth edition of Occupational Therapy for Children maintains its focus on children from infancy to adolescence and gives comprehensive coverage of both conditions and treatment techniques in all settings. Inside you'll discover new author contributions, new research and theories, new techniques and current trends to keep you in step with the changes in pediatric OT practice. This edition provides an even stronger focus on evidence based practice with the addition of key research notes and explanations of the evidentiary basis for specific interventions. Unique Evolve Resources website reinforces textbook content with video clips and learning activities for more comprehensive learning. Case studies help you apply concepts to actual situations you may encounter in practice. Evidence based practice focus reflects the most recent trends and practices in occupational therapy. Unique Chapter on working with adolescents helps you manage the special needs of this important age group. Unique Research Notes boxes help you interpret evidence and strengthen your clinical decision making skills. Video clips on a companion Evolve Resources website reinforce important concepts and rehabilitation techniques.

Pediatric Skills for

Occupational Therapy Assistants - E-Book Jean W. Solomon, Jane Clifford O'Brien, 2010-12-15 UNIQUE Demonstrates how concepts apply to practice with video clips on the Evolve website that exhibit pediatric clients involved in a variety of occupational therapy interventions. UNIQUE Prepares you for new career opportunities with content on emerging practice areas such as community systems. UNIQUE Offers new assessment and intervention strategies with the addition of content on Model of Human Occupation, MOHO assessments and physical agent modalities. PAMS Provides the latest information on current trends and issues such as childhood obesity documentation, neurodevelopmental treatment, NDT and concepts of elongation.

Occupational Therapy Models for Intervention with Children and Families Sandra Barker Dunbar, 2007 This textbook explores recent theoretical models that enable occupational therapists to practice and interact with families in a more holistic and occupation centered manner. It offers the latest information on viewing the broader contexts of environment and family in order to meet diverse occupational needs in a range of settings. The editor presents a variety of case scenarios that feature culturally diverse populations and varying diagnoses of children with occupational needs. With contributions from 11 leaders in occupational therapy, this comprehensive text is designed to increase awareness and understanding of theoretical models and their relationship to current occupational therapy practice with today's children and families. Traditional frames of reference in pediatric practice are explored including sensory integration and neurodevelopmental treatment. Some current theoretical models discussed include the Model of Human Occupation, the Person Environment Occupation model, the Ecology of Human Performance model and the Occupational Adaptation model. The new Occupational Therapy Practice Framework is incorporated throughout the text. Overall the textbook employs a practical approach to this significant aspect of pediatric practice in occupational therapy.
