Dear Mr. Last:

Need 3 short paragraphs for both positive and negative letter.

**For Positive Letter**--just start with the main idea for your positive letter. For example, I am so happy with the job you did for our festival!

Then, in three short paragraphs, outline the reasons why you feel so positively about something or someone. Put white space between the paragraphs.

Closing needs to be another re-statement of something positive.

End the letter with a nice sentence and signature.

**For a Negative Letter**—there are two different types of Negative Letters.

**Use Direct Strategy**—If bad news:

- is not damaging
- may be overlooked
- is preferred by recipient
- requires firmness

Standby Letters of Credit in International Trade Ramandeep Kaur Chhina, 2012-12-01 The question of what constitutes fraud in the transaction with respect to international letters of credit varies considerably among jurisdictions In proving allegations of fraud it is crucial for the practitioner to know the relevant jurisdiction s case law especially if wider defences such as inducement unconscionable conduct or bad faith must be invoked In this book the author argues that whereas fraud in the documents is generally sufficient in cases involving commercial letters of credit standby letters of credit demand a wider fraud exception The central issue how wide that fraud exception should be is what this book explores in depth This author compares and critically examines the application of the fraud exception in four major trade jurisdictions the United States England Canada and Australia With an overall focus on how each jurisdiction s fraud tests treat the autonomy of standby letters of credit she builds her arguments on such relevant sources and concepts as the following when it can be shown that the beneficiary has no bona fide belief in the validity of its claim demand guarantees international initiatives ICC Rules and the UN Convention on Independent Guarantee and Standby Letters of Credit the Sztejn Rule parameters of the fraud in the transaction defence materiality standard prerequisites for injunctive relief arguing fraud in the formation of the contract performance bond cases applying the breach of good faith defence negative stipulation in the underlying contract and equitable versus statutory broader notion of unconscionability The presentation includes detailed summaries and analyses of leading cases in all four jurisdictions Lawyers and corporate counsel responsible for arguing claims or defences in letter of credit transactions will welcome the way the author s research and insight define the range of options in each case they handle Academics also will appreciate the systematic way the book frames a complex area of international trade law

**Letter to Beaumont, Letters Written from the Mountain, and Related Writings** Jean-Jacques Rousseau, 2013-05-14 Published between 1762 and 1765 these writings are the last works Rousseau wrote for publication during his lifetime Responding in each to the censorship and burning of *Emile* and *Social Contract* Rousseau airs his views on censorship religion and the relation between theory and practice in politics The *Letter to Beaumont* is a response to a Pastoral Letter by Christophe de Beaumont Archbishop of Paris also included in this volume which attacks the religious teaching in *Emile* Rousseau s response concerns the general theme of the relation between reason and revelation and contains his most explicit and boldest discussions of the Christian doctrines of creation miracles and original sin In *Letters Written from the Mountain* a response to the political crisis in Rousseau s homeland of Geneva caused by a dispute over the burning of his works Rousseau extends his discussion of Christianity and shows how the political principles of the *Social Contract* can be applied to a concrete constitutional crisis One of his most important statements on the relation between political philosophy and political practice it is accompanied by a fragmentary *History of the Government of Geneva* Finally *Vision of Peter of the Mountain* Called the Seer is a humorous response to a resident of Motiers who had been inciting attacks on Rousseau during

his exile there Taking the form of a scriptural account of a vision it is one of the rare examples of satire from Rousseau's pen and the only work he published anonymously after his decision in the early 1750s to put his name on all his published works Within its satirical form the Vision contains Rousseau's last public reflections on religious issues Neither the Letter to Beaumont nor the Letters Written from the Mountain has been translated into English since defective translations that appeared shortly after their appearance in French These are the first translations of both the History and the Vision

different characteristics are emerging and being integrated in heterogeneous networks. As a result, there are many interconnected problems that can occur at different levels of the hardware and software design of communicating entities and communication networks. These networks are expected to manage increasing usage demand, provide support for a significant number of services, guarantee Quality of Service (QoS), and optimize the use of network resources. The success of all IP networking and wireless technology has changed the lifestyles of people around the world, and advances in electronic integration and wireless communications will pave the way to providing access to wireless networks on the fly, as electronic devices can increasingly exchange information with each other virtually anytime and anywhere. The aim of this book is to provide the latest findings, methods, and development techniques from both theoretical and practical perspectives regarding the emerging areas of broad band and wireless computing.

*Lexicon Technicum* John Harris, 1736      **Politeness in Nineteenth-Century Europe** Annick Paternoster, Susan Fitzmaurice, 2019-01-15. This volume explores a pivotal period in European history: the long nineteenth century. Politeness scholars have suggested that the nineteenth century heralds a significant transition in the meanings and realisations of politeness between the Ancien Régime and the contemporary period, with the rise of the middle classes as economic, political, social, and cultural actors. The central innovation of this volume consists in its use of a wide range of politeness metasources: grammar books, schoolbooks, conduct books, etiquette books, and letter writing manuals, to access social norms. This interdisciplinary approach, which draws on historical linguistics, argumentation theory, appraisal theory, and literary stylistics, is applied to a wide range of languages: English, including Scottish and business English, Italian, Spanish, West and South Slavic languages. As a highly coherent collection of innovative research papers, the volume will be welcomed by researchers in politeness pragmatics and sociolinguistics, both from a historical and contemporary perspective.

**Lexicon Technicum, Or, An Universal English Dictionary of Arts and Sciences** John Harris, 1736      *Braids and Self-Distributivity* Patrick Dehornoy, 2012-12-06. The aim of this book is to present recently discovered connections between Artin's braid groups  $B_n$  and left self distributive systems, also called LD systems, which are sets equipped with a binary operation satisfying the left self distributivity identity  $x \cdot yz = xy \cdot xz$ . LD systems appeared in set theory in the 1980s and led to the discovery in 1991 of a left invariant linear order on the braid groups. Braids and self distributivity have been studied for a long time. Braid groups were introduced in the 1930s by E. Artin, and they have played an increasing role in mathematics in view of their connection with many fields, such as knot theory, algebraic combinatorics, quantum groups, and the Yang-Baxter equation, etc. LD systems have also been considered for several decades: early examples are mentioned in the beginning of the 20th century, and the first general results can be traced back to Belousov in the 1960s. The existence of a connection between braids and left self distributivity has been observed and used in low dimensional topology for more than twenty years, in particular in work by Joyce, Brieskorn, Kauffman, and their students. Brieskorn mentions that the connection is already implicit in Hurwitz (1891). The results we shall concentrate on here rely on a

new approach developed in the late 1980s and originating from set theory      **Roberts Academic Medicine Handbook**

 Dennis Campbell, 2015-04-10 In a long dead language isolate such as Hurrian grammatical studies are replete with  
 difficulties The paucity of material and our inability to compare it to modern well documented languages typically results in  
 more questions than answers Many posited answers to these questions lead inevitably to dead ends Studies in languages  
 such as Hurrian run the risk of either stagnating due to an adherence to the status quo by scholars or fragmenting when no  
 two scholars can or will agree on any point In this book Campbell has in many ways broken with tradition in an attempt to go  
 beneath the surface and reveal further complexities in Hurrian grammar This work the first English language monograph on  
 Hurrian since 1941 is not a dogmatic treatise meant to counter the status quo but an exploration of the complexities of the  
 Hurrian language from a new perspective His conclusions may challenge present perceptions but the hope is that they will in  
 turn inspire challenges for it is only in this way that our understanding of this wonderful language and the people who spoke  
 it can be furthered Mood and Modality in Hurrian provides a formal and functional analysis of the Hurrian modal morphemes  
 Unlike the better known Semitic and Indo European languages of the ancient Near East Hurrian has a rich complement of  
 modal endings This at times bewildering variety in form and function of modal morphemes in Hurrian has been a largely  
 unstudied topic Although it has been touched upon in a number of studies it has not received a detailed treatment until now  
 Beyond a philological treatment of a dead language Campbell also adds to the accumulated knowledge of ergativity This book  
 explores the interplay between ergativity and modality in Hurrian Furthermore Campbell explores the issue of voice in  
 Hurrian and its relation to modality
