Children's Books in Print, 1993 *Forced Marriage and 'Honour' Killings in Britain* Christina Julios, 2016-03-09 This book explores the contemporary phenomenon of forced marriage and honour killings in Britain Set against a background of increasing honour based violence within the country's South Asian and Muslim Diasporas the book traces the development of the honour question over the past two decades It accordingly witnesses unprecedented changes in public awareness and government policy including ground breaking honour specific legislation and the criminalisation of forced marriage All of

which makes Britain an important context for the study of this now indigenous and self-perpetuating social problem. In considering the scale of the challenge and its underlying causes, attention is paid to the intersections of gendered power structures that disadvantage female members of honour cultures as well as feminist theories that seek to explain them. The book features five key case studies of honour killings and draws from a wide range of narratives including those of honour violence survivors, grassroots service providers and legislators. Such a myriad of perspectives reveals the complexity of the honour issue and the deep ideological divisions that characterise it. With the UK's multiculturalist discourse unable to reconcile protecting patriarchal minority cultures with safeguarding gender equality and human rights, the book raises fundamental questions about the country's future direction. Following a long trend of state-sponsored integrationist policies, the government's response to the honour question points decisively in the direction of a post-multicultural British nation.

Forthcoming Books Rose Arny, 2000 The Publisher, 1907 **The Spectator**, 1902 A weekly review of politics, literature, theology and art **The Bookseller**, 1913 Official organ of the book trade of the United Kingdom **Bookseller and the Stationery Trades' Journal**, 1913 **Publishers' Circular and Booksellers' Record of British and Foreign Literature**, 1907 The End of the Ottomans Hans-Lukas Kieser, Margaret Lavinia Anderson, Seyhan Bayraktar, Thomas Schmutz, 2019-04-25 In the early part of the twentieth century as Europe began its descent into the First World War, the Ottoman world, once the largest Empire in the Middle East, began to experience a revolution which would culminate in the new secular Turkish state. Alongside this, in 1915, as part of an increasing nationalism, it enacted a genocide against its Armenian citizens. In this new study, Hans Lukas Kieser marshals a dazzling array of scholars to re-evaluate the approach and legacy of the Young Turks, whose eradication of the Armenians from Asia Minor would have far-reaching consequences. Kieser argues that genocide led to today's crisis-ridden Middle East and set in place a rigid state system whose effects are still felt in Turkey today. Featuring new and groundbreaking work on the role of bureaucracy, the actors outside of Istanbul, and re-centring Armenian agency in the genocide, *The End of the Ottomans* is a vital new study of the Ottoman world, the Armenian Genocide, and of the Middle East.
