Nursing School In Mafikeng

Mafukata, Mavhungu Abel

Nursing School In Mafikeng:

Working with indigenous knowledge Fhumulani M. Mulaudzi, Rachel T. Lebesse, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research Enterprise ,2000-07

Diversity and Division in Medicine Anne Digby, 2006 This is an innovative investigation of pluralism in health care Using both extensive archival material and oral histories it examines relationships between indigenous healing missionary medicine and western biomedicine The book includes the different regions within South Africa although focusing in most detail on the Cape the earliest area of white settlement In a wide ranging survey the division in medicine between western and indigenous medicine is analysed through an exploration of the evolving practices of healers missionaries doctors and nurses The book considers the extent to which there was a strategic crossing of boundaries in the construction of hybrid practices by these practitioners and the extent to which patients pursued health by sampling diverse care options Starting with missionary penetration during the early nineteenth century the volume outlines interventions by the colonial state in medicine and public health and the continued resilience of indigenous healing in the face of this The book ends by relating past to present in scrutinising the legacy of historical structures including those of the apartheid state for current health care and in briefly discussing the huge challenges that the HIV Aids pandemic poses in impacting on them The book thus provides an inclusive history of medicine for the New South Africa **Learn and Teach** ,1988 **North West Province** ,1999

Fostering Educational Culture for Student Success Dhakal, Robin, Davis, William G., Heske, Kira, 2025-09-17 Fostering an educational culture that supports students success is essential for creating lasting learning experiences An environment that values curiosity inclusivity collaboration and high expectations empowers students to reach their full potential academically socially and emotionally Educational culture extends to school leadership community involvement

teacher student relationships and learning institution values Further integration of supportive and motivating atmospheres may help students engage in their own education deal with challenges and thrive in school and beyond Fostering Educational Culture for Student Success explores how school environments teaching practices and community support systems shape an educational culture that promotes student achievement and well being It examines the role of leadership equity and student engagement in creating conditions that foster long term academic and personal success This book covers topics such as data science education technology and critical thinking and is a useful resource for educators engineers sociologists academicians researchers and scientists

Women Marching Into the 21st Century ,2000 You strike a woman you strike a rock On the 44th anniversary of the women s defiance campaign this book pays tribute to the many women who have shaped the history of South Africa *Pace* ,2001 **Summary of Events in Lesotho** ,2010 *Bophuthatswana Pioneer* ,1982-03-03 *The Europa World of Learning* ,2005

Development in Africa Mafukata, Mavhungu Abel, 2020-12-25 Human movement has an influence on the socio economic dynamics of people regions and countries The schisms between host and immigrants impact how host countries utilize immigrant skills and expertise to benefit their economies However immigrants are impacted by negative diplomatic relations between countries that limit the free movement of people and the welfare of immigrants In association this brings about social challenges such as Afrophobia racism xenophobia hatred and violence within these countries While these challenges are deeply rooted across the world Africa has its own unique challenges Still struggling with massive underdevelopment Africa needs to remove all the negative factors that could impede its quest of achieving development imperatives Impact of Immigration and Xenophobia on Development in Africa analyzes the genesis and evolution of immigration in Africa and how this has resulted in social challenges such as xenophobia within the continent The book focuses on demonstrating how immigrant skills and expertise can be positively utilized to assist African development and asserts the existence of xenophobia in respective countries does not assist Africa s quest of resolving its own challenges The chapters within this book therefore explore how this subsequent output of xenophobia has impacted African development and focuses on the revival of Pan Africanism as a uniting instrument and ideology for Africans This book is a valuable reference tool for activists retired and practicing politicians governments policymakers practitioners stakeholders researchers students and academicians
