# JUMP START YOUR BRAIN

IMPROVE IQ, MEMORY, FOCUS & CONCENTRATION

**I**t's time to take control of your life and brain. Most students and employees have good intentions and great potential, but they can't always seem to stay focused, learn easily, and remember what is needed. Give your brain a jump start to function at a very high level and create success in school and work. Included are biological and brain function techniques to improve your life.

## NUTRITION FOR FOCUS, LEARNING & EXAMS

### EAT HEALTHY

- Eat high quality, low-fat proteins before study periods and dinner. Protein provides vitamins that aid production of enzymes, increasing metabolism and brain function.
- Water is very critical. Drinking 8-10 (200 ml) of water can increase metabolism 30%, and this includes improving brain function.
- Avoid sugary drinks — attention span shortens and performance decreases.
  - Carry a bag of nuts or a low-carb protein bar for situations when you feel you do not have time for breakfast or lunch.
  - Do not use "energy" bars as they are overloaded with sugar.
- Eating fruit is a great way to increase blood sugar slowly — berries, oranges, and grapes are good choices.

- Diets consisting predominantly of vegetables, fruits, and 10-15% whole grains help increase and maintain top brain function. Also remember the protein!

### AVOID SUGAR & STARCH

- The next eat sugars before long study periods or testing exams. While sugary foods provide a temporary burst of energy, the high blood sugar will reduce thinking abilities.
- Starches are easily digested sugars, they very rapidly enter blood sugar levels.
- 30-60 min after eating a dose of sugar or starch, the body creates a low blood sugar level (hypoglycemia) where brain function is greatly reduced.
- A small dose of sugar might improve your ability to maintain for 20-30 min, but then the hypoglycemia decreases memory and focus.
  - Use small doses of sugar, or slow release foods might help keep energy levels for most of the peak.

## NUTRITION FOR IMPROVED IQ & MEMORY

### SUPPLEMENTS: AN EASY WAY TO GET HELPFUL NUTRIENTS

Supplement	Natural Sources	Purpose	Suggested Daily Amount
Arginine glycyl-L-glutamate	Fish, Cherry, Fruit and Vegetables	Improves intra-brain communication and memory	300-400 mg
B-Complex Biotin, Folic Acid, Panthothenic Acid and B12	Whole Grains, Vegetables, Bananas, Wheat, Fish, Cherry, Eggs	Improves metabolism, brain function, ability within brain cells	Equal to a "Complete" or B-Complex to include all of these
Choline (Gentle)	Eggs, Fish, Soybeans, Peas, Liver	Builds neurotransmitters, improves memory and IQ	5-10 g/day, containing 250-500 mg Phosphatidyl choline
CHOLINE	Sardines	Pre-cursor of Choline	300-500 mg
Collagen Biotin	Fer to	Improves brain stem memory	200-300 mg
Citrusine (Gentle)	High quality, low-fat protein	Enhances mental ability	5,000 mg (one teaspoon fl oz)
Omega-3	Ferment, Biotin, Biotin, Biotin, Biotin, Biotin	Improved brain function	3 g/daily - 1000-1500 mg daily
Phosphatidyl Serine	Oily seeds	Enhances brain-cell communication	25-50 mg
Phosphatidyl Serine	Fer to	Improves circulation to the brain	10-20 mg
Vitamin C	Fresh Fruit and Vegetables	Protection of brain function	300-400 mg

## OTHER NUTRIENT SUPPORT

- Green tea, green tea extract, or L-theanine help with stress and act as neurotransmitters (increasing brain activity).
  - Green tea as a hot beverage is very beneficial and acts to reduce stress which can greatly improve focus and memory, stress levels may a day without sugar.
- Several amino acids are effective brain boosters including tyrosine, GABA, Serine, Tryptophan, and Phenylalanine.
- Magnesium and zinc are among several minerals that benefit the brain.
- Alpha Lipoic acid and acetyl L-carnitine improve metabolism and brain function.
- Antioxidants and good quality omega-3 oils (such as fish oils) can reduce inflammation (inflammation may lead to sluggish thinking and memory).

**Notes:** Recommended supplement amounts are listed per day. Always read labels carefully and consult a physician before beginning a supplement regime, especially if you have any underlying disease conditions.

**Nutritional Health** Norman J. Temple, Ted Wilson, David R. Jacobs, Jr., George A. Bray, 2023-05-10 This fourth edition brings together a diverse range of experts in nutrition related areas to discuss recent thinking and discoveries in nutrition especially in relation to topics that

have the greatest capacity to improve human health and nutritional implementation An overview of nutrition science in the third decade of the twenty first century reveals that much water has flown under the bridge of the advancing river that is nutrition research and practice With these large accumulations of developments in the field of nutrition the need for a new edition of this book is obvious Our vastly improved nutrition knowledge gives us the capability of preventing a sizable fraction of the chronic diseases that afflict the people of our world but only if these discoveries can be translated into effective action at the population level Nutritional Health endeavours to address the needs of those who would most benefit from up to date information on key areas in the field of nutrition The book starts with a discussion of the nature of nutritional research then moves into an overview of the most important aspects of the complex interactions between diet its nutrient components and their impacts on disease states and on those health conditions that increase the risk of chronic diseases Parts three and four discuss diet and include new chapters on the Mediterranean diet the DASH diet the flexitarian diet and the low carbohydrate diet The final two parts of the book discuss emerging trends in nutrition science such as gut microbiome and sustainable diet and areas of controversy in nutrition such as the influence of the food industry and dietary supplements Up to date and comprehensive Nutritional Health Strategies for Disease Prevention Fourth Edition offers physicians dietitians and nutritionists a practical data driven integrated resource to help evaluate the critical role of nutrition

**Food Faiths** Catherine L. Newell, 2023-08-29 Food Faiths Diet Religion and the Science of Spiritual Eating explores how individuals internalize scientific knowledge regarding health and diet and then incorporate that information into their lives as the basis of a personal spiritual practice In this book Catherine L Newell examines how science is used to justify a dietary lifestyle and investigates the world of spiritual eating which is comprised of practitioners who identify themselves not by a religion but by their diet These diets are based in diverse sciences such as anthropology ecology systems biology nutritional studies biomedicine and physiology adherents view their diet as a lifestyle a path to enlightenment and a nebulously defined point of health This in turn enables the practitioner to locate themselves in relation to other members of their community to older traditions suffused with religious practice and to understand their praxis in relation to the entire biosphere While on one level this project explores how food health and diet can be a source of spiritual fulfillment on another level Food Faiths illustrates how science and religion are subsumed into a culture and merged to form the basis of an individual's lived spiritual practice

*Let's Master The Art of Mindful Eating* Rhonda Morris, 2024-06-06 Are you super busy and struggle to eat healthy meals Do you often pick fast food because it's quick and easy Are you confused about which foods are really good for you because of all the labels and ads And do cultural habits and what others eat affect your food choices This book is here to help you get healthier and happier We'll talk about these common problems and give you practical solutions You'll learn the basics of healthy eating like why fiber and water are important We'll help you figure out if you're getting enough of the good stuff your body needs Plus we'll show you how to make balanced meals and control how much you eat Key Learnings
