**Commentary on Virgil's Eclogues** Andrea Cucchiarelli, 2023-08-24 Virgil's Eclogues are a fundamental text of Western literature that served as a model for the nascent poetry of the Augustan and later of the Imperial Age Inspired by the bucolic poetry of Theocritus the work uses the apparent simplicity of rural settings to explore complex elements of poetic literary philosophical and even figurative culture and to express the drama of civil war and expropriations In this commentary accompanied by a detailed introduction Andrea Cucchiarelli analyses the Eclogues in depth establishing comparisons with both Greek and Roman poetic models with philosophical texts and with significant later texts from the Roman poetic tradition The commentary is the first to offer a systematic account of the poem in its historical context between the end of the Republic and the Age of Augustus particular attention is also paid to the language of the figurative arts which for Roman

readers constituted an important complement to literary knowledge of myths and stories The volume offers the reader a reliable and concise interpretation of the text which is systematically lemmatized and annotated throughout each eclogue is additionally accompanied by an introductory overview and a detailed bibliography to direct further reading

**The Myth of Empowerment** Dana Becker, 2005-02-01 The Myth of Empowerment surveys the ways in which women have been represented and influenced by the rapidly growing therapeutic culture both popular and professional from the mid nineteenth century to the present The middle class woman concerned about her health and her ability to care for others in an uncertain world is not as different from her late nineteenth century white middle class predecessors as we might imagine In the nineteenth century she was told that her moral virtue was her power today her power is said to reside in her ability to relate to others or to take better care of herself so that she can take care of others Dana Becker argues that ideas like empowerment perpetuate the myth that many of the problems women have are medical rather than societal personal rather than political From mesmerism to psychotherapy to the Oprah Winfrey Show women have gleaned ideas about who they are as psychological beings Becker questions what women have had to gain from these ideas as she recounts the story of where they have been led and where the therapeutic culture is taking them

*To End All Suffering* Michael Collender, 2014-03-17 Both Buddhism and the Christian gospel promise the ending of suffering However each defines and interprets morality compassion proof and truth according to starkly different worldviews This is why adjudicating rival claims between these religions has proven so difficult Two alternate approaches have emerged treating religious claims as mere personal opinions or postulating some higher standard outside of religion to which each religion must submit However both of these approaches to comparative religious research implicitly deny that any religion can present a story about the totality of reality including ultimate standards for proof and truth This book takes a different approach entirely demonstrating a way that religions can self critically engage one another using their own respective standards Within this framework early Buddhist philosophy and the Christian faith enter into philosophical dialogue In the process To End All Suffering pointedly demonstrates that on its own terms Buddhism cannot account for the very doctrines necessary to show that the Buddha's teachings end suffering Written primarily for Christians and Buddhists interested in interreligious dialogue To End All Suffering is a course book suitable for individual study or for college or seminary courses in comparative philosophy or
