New Media Cultures Cultural Studies In Practice:

New Media Cultures P. David Marshall, 2004-08-27 *New Media Cultures* provides a comprehensive analysis of the value of cultural studies in the face of new media and the changes necessary for cultural studies to tackle the issues that new media presents Drawing from the active audience thesis developed in cultural studies of the media *New Media Cultures* focuses on the increased interactivity in contemporary culture and shows how this has become integrated into the production and consumption of cultural forms Critical areas investigated include Game culture The internet The digital transformation of film and television Intellectual property Forms of interactivity The significance of the user and cultural production in new media *Computer Games and New Media Cultures* Johannes Fromme, Alexander Unger, 2012-06-14 Digital gaming is today a significant economic phenomenon as well as being an intrinsic part of a convergent media culture in postmodern societies Its ubiquity as well as the sheer volume of hours young people spend gaming should make it ripe for urgent academic enquiry yet the subject was a research backwater until the turn of the millennium Even today as tens of millions of young people spend their waking hours manipulating avatars and gaming characters on computer screens the subject is still treated with scepticism in some academic circles This handbook aims to reflect the relevance and value of studying digital games now the subject of a growing number of studies surveys conferences and publications As an overview of the current state of research into digital gaming the 42 papers included in this handbook focus on the social and cultural relevance of gaming In doing so they provide an alternative perspective to one dimensional studies of gaming whose agendas do not include cultural factors The contributions which range from theoretical approaches to empirical studies cover various topics including analyses of games themselves the player game interaction and the social context of gaming In addition the educational aspects of games and gaming are treated in a discrete section With material on non commercial gaming trends such as modding and a multinational group of authors from eleven nations the handbook is a vital publication demonstrating that new media cultures are far more complex and diverse than commonly assumed in a debate dominated by concerns over violent content

[How to Do Media and Cultural Studies](#) Jane Stokes, 2012-11-30 The Second Edition of this student favourite takes readers step by step through the theories processes and methods of each stage of research from how to create a research question to designing the project and writing it up It gives students a clear sense of how their own work relates to broader scholarship and inspires understanding of why studying the media matters Now 20% bigger new features include Brand new chapters on the how and why of researching media and culture All new case studies spotlighting the international media landscape Online readings showing how methods get used in real research Essential new material on ethnography digital content analysis online surveys and researching blogs Perfect for students of all ranges *How to Do Media and Cultural Studies* continues to provide the clearest and most accessible guide to media and cultural studies as students embark on their own research *Global humanitarianism and media culture* Michael Lawrence, Rachel Tavernor, 2019-01-21 This electronic

version has been made available under a Creative Commons BY NC ND open access license This collection interrogates the representation of humanitarian crisis catastrophe and care Contributors explore the refraction of humanitarian intervention from the mid twentieth century to the present across a diverse range of media forms including screen media film television and online video newspapers memoirs music festivals and social media platforms notably Facebook YouTube and Flickr Examining the historical cultural and political contexts that have shaped the mediation of humanitarian relationships since the middle of the twentieth century the book reveals significant synergies between the humanitarian enterprise the endeavour to alleviate the suffering of particular groups and its media representations particularly in their modes of addressing and appealing to specific publics

Public Relations and Participatory Culture Amber Hutchins,Natalie T.J. Tindall,2016-03-10 While public relations practitioners have long focused on the relationship between organizations and their stakeholders there has never been a time when that relationship was so dominated by public participation The new model of multiple messages originating from multiple publics at varying levels of engagement is widely acknowledged but not widely explored in scholarly texts The established model of one way communication and message control no longer exists Social media and an increasingly participatory culture means that fans are taking a more active role in the production and co creation of messages communication and meaning These fans have significant power in the relationship dynamic between the message the communicator and the larger audience yet they have not been defined using current theory and discourse Our existing conceptions fail to identify these active and engaged publics let alone understand virtual communities who are highly motivated to communicate with organizations and brands This innovative and original research collection attempts to address this deficit by exploring these interactive engaged publics and open up the complexities of establishing and maintaining relationships in fan created communities
