Sinkovics,2022-04-01 The Academy of International Business UK and Ireland Chapter Published in association with the UK and Ireland Chapter of the Academy of International Business

This book presents the main trends in International Business with special emphasis on how these trends can shape and help propel the field forward. Covering a variety of timely topics from AI to the belt and road initiative, the book enhances our understanding of how and why technology, funding, policies, managerial decisions, cultural differences, and changes in subsidiaries can affect businesses that operate in foreign markets. A valuable resource for scholars and students in international business, this book provides fresh perspectives into the changing global business environment. **Megatrends in Retail Real Estate** John D. Benjamin, 2012-12-06. Retail real estate properties and their marketplaces are in a constant state of change. The emergence of such new and growing value formats as warehouse clubs, factory outlet malls, and other powerful discount formats provide traditional shopping centers and malls with increasingly competitive challenges. These value and discount retail formats generate higher sales per square foot and have lower construction costs than many traditional retail properties. Combined with the slow growth in retail sales and the increasing alternatives to in-store retailing, a question mark hangs over the future of retail marketplaces and the retail formats that will be the leaders of the future. **Megatrends in Retail Real Estate** allows the reader to analyze and forecast changes in the retail marketplace. The book presents a simple model to analyze and predict mall and shopping center investment returns. It then examines the financing of retail properties and securitization of their mortgages as well as the operations of retail properties. Finally, the book analyzes new retail marketplaces and the international retail arena. **Futurize! Dealing with Megatrends and Disruptors** André de Waal, Julie Linthorst, 2022-06-14. The future will bring only more megatrends and disruptions. With the guidance of this book, which centers around the authors' years of research-backed high performance organizations (HPO) framework and includes the unique self-assessment tool Futurize Diagnosis, business leaders and organizations will be prepared and truly future-ready. The next two decades will present massive challenges for organizations as they navigate the need for sustainable development against a complex backdrop of factors such as increasing inequality, resource scarcity, continued globalization, and the ever-increasing speed of technological advancement. This book will help business leaders and organizations set priorities and make decisions so that not only do they honor commitments to the United Nations Sustainable Development Goals but also become more future-ready by identifying the megatrends and disruptors which impact organizations now and will in the future, specifically outlining how those megatrends and disruptors will impact organizations, showing how organizations can deal with this impact in practical terms. This book is a must for management teams, aspiring leaders, and professionals and students interested in the future of work, human resource management, and innovation. **Global Megatrends** Stefan Hajkiewicz, 2015-05. A scarcity of natural resources. The challenge to protect biodiversity and the global climate. Rapid economic growth and urbanisation in Asia and the developing world. Changing demographics and an ageing population. The impact of new digital technologies. Consumer expectations for services, experiences, and social interaction. An imperative to innovate. Megatrends are gradual yet powerful trajectories of change that have the potential to throw

companies individuals and societies into freefall In Global Megatrends author Stefan Hajkowitz identifies these seven patterns of global change and tells a story about how the world will change over the next 20 years The book captures the thinking of many dedicated scientists and researchers who have devoted their careers to exploring and understanding change The change heralded by megatrends lies beyond our direct control but not beyond our influence By getting a picture of how the world is changing and what these megatrends are we can alter our destiny **Megatrends** ,2011 The current pace of global change has already had a decisive impact on the Arctic To understand the current and likely future situation in the Arctic it is important to acknowledge the pre conditions challenges and tendencies at work here Some of these developments should be characterised as megatrends because they overarch and impact on everything else They are trends deemed so powerful that they have the potential to transform society across social categories and at all levels from individuals and local level players to global structures and eventually to change our ways of living and thinking
