## **New Perspectives In Greek Linguistics:**

**New Perspectives in Greek Linguistics** Nikolaos Lavidas, Elissavet Nouchoutidou, Marietta Sionti, 2020-10-27 New Perspectives in Greek Linguistics is a selection of papers presenting some of the ongoing research in Greek Linguistics. The contributions in this volume which have their origin in the 4th Athens Postgraduate Conference in Linguistics refer to various theoretical frameworks and cover a wide range of topics from phonology of dialects to acquisition of syntax; however they share the common reference to Greek and Theoretical Linguistics. The second common feature is a tendency to investigate already known problems using new methods considering different factors from previous research or introducing innovative ideas. The volume is dedicated to Professor Gaberell Drachman and Professor Angeliki Malikouti Drachman as a small token of gratitude for their ceaseless presence and their contribution to Theoretical Linguistics to Greek Linguistics and to postgraduate studies in Linguistics in Greece. This volume is of particular interest to linguists working on various areas of Greek Linguistics especially those who would like to keep up with ongoing research. It presents an opportunity to see the application of linguistic theory in Greek and the current comparative research.

**New Perspectives on Romance Linguistics: Phonetics, phonology and dialectology** Chiyo Nishida, Jean-Pierre Montreuil, 2006-01-01 This is the second of two volumes emanating from the Linguistic Symposium on Romance Languages held at the University of Texas at Austin in February 2005. It features the keynote addresses delivered by Prof Jacques Durand on the Phonology of Contemporary French Project and Prof John Charles Smith on skeuomorphy and refunctionalization. It also includes eleven contributions by reputed scholars on topics ranging from phonetics, phonology, morphophonology, dialectology, sociolinguistics and language variation. Formal phonology papers favor the model of Optimality Theory while phonetic measurements serve as the basis for sociolinguistic and dialectometric studies. Many of these studies emphasize new comparative typological approaches to Romance data including many non standard varieties of French, Italian and Spanish. This volume will be of interest to all Romance linguists.

**New Perspectives on Romance Linguistics: Morphology, syntax, semantics and pragmatics** Chiyo Nishida, Jean-Pierre Montreuil, 2006-01-01 This is the first of two volumes emanating from the Linguistic Symposium on Romance Languages held at the University of Texas at Austin in February 2005. It features the keynote address delivered by Denis Bouchard on exaptation and linguistic explanation as well as seventeen contributions by emerging and internationally recognized scholars of Spanish, French, Italian as well as Rumanian. While the emphasis bears on formal analyses the coverage is remarkably broad as topics range from morphology, syntax, semantics, pragmatics and language acquisition. Each article seeks to represent a new perspective on these topics and a variety of frameworks and concepts are exploited: distributive morphology, entailment theory, grammaticalization, information structure, left periphery, polarity, lattice, spatial individuation, thematic hierarchy etc. This volume will challenge anyone interested in current issues in theoretical Romance Linguistics.

**New Perspectives on Judeo-Spanish and the Linguistic History of the Sephardic Jews**, 2024-05-06 At the

intersection of Jewish studies and linguistic research the essays assembled in this book approach the topic of the languages of Sephardic Jews from different perspectives spanning chronologically from the Middle Ages to the present day Drawing on diverse sources from medical glossaries to inquisition archives from rabbinic responsa to recordings of today's speakers the scholars collaborating on this project have endeavoured to reconstruct fragments of a complex and elusive linguistic reality which over the centuries has been shaped by the historical experience of its speakers An innovative collection of rigorously conducted synchronic and diachronic studies that contributes to expanding our knowledge and opening new perspectives on crucial issues such as the effects of contact on the linguistic structures the possibility of a norm for polycentric languages the relationship between the lexicon of a language and the vitality of its speech community **New Perspectives on Romance Linguistics** Chiyo Nishida, Jean-Pierre Y. *New Perspectives on Historical Latin Syntax* Philip Baldi, Pierluigi Cuzzolin, 2009

*New Perspectives on Historical Latin Syntax* is a methodologically uniform multi-authored work that traces main currents in the syntactic history of Latin. The term history of Latin or of any other ancient IE language in its most widespread usage means history of phonology and morphology as they have developed from PIE. Standard comparative grammars of Latin have concentrated primarily on the development of the phonological and morphological systems of the language with comparatively little attention paid to historical syntax. This emphasis is reflective of the Indo-European tradition in which

*New Perspectives on (Im)Politeness and Interpersonal Communication* Lucis Fernández Amaya, María de la O Hernández López, Reyes Gómez Morón, 2012-12-18

*New Perspectives on (Im)Politeness and Interpersonal Communication* gathers eleven studies by prominent scholars which explore issues related to im politeness in human communication. The study of linguistic im politeness is undoubtedly one of the central concerns in the field of pragmatics as attested to by the numerous conferences and journals currently dedicated to the topic, the various theoretical models and approaches developed or developing so far and the seemingly endless list of insightful and inspiring empirical studies tackling the topic from a wide variety of angles. This volume contributes to the subfield of social pragmatics by putting together works that review the state of the art of im politeness studies, analysing im politeness in media contexts like the Internet or dubbed films and other contexts looking into the effects and consequences of some speech acts for social interaction, drawing implications for language teaching and approaching some of the linguistic mechanisms which help to communicate im politeness. Resulting from the efforts made by specialists in the field, the chapters in this volume offer additional evidence that examining the complexity of interpersonal communication from different standpoints can benefit a more complete understanding of social interaction in general. Their scope and practical applications demonstrate the transversality and versatility of interpersonal communication. The editors hope that these works will retain scholars' interest and attention for some time to come and spark off further research.
