Broadcast News Writing, Reporting, and Producing Frank Barnas, 2017-07-06 Broadcast News Writing Reporting and Producing 7th Edition is the leading book covering all aspects of writing and reporting the news. It identifies the key concepts and terms readers need to know in the news gathering and dissemination process and provides practical real world advice for operating in the modern day newsroom. New to the seventh Edition are profiles of working journalists who give readers a glimpse into the working life of modern reporters, producers, and directors. This new edition also covers important aspects of the use of social media, drone journalism, and digital technology. A new chapter on portfolio development will assist readers in developing the skills to advance in their careers. The text has also been updated to reflect new industry standards in modes of information gathering and delivery, writing style, and technology. Additional features include Key words at the start of every chapter, identifying important terms and definitions; End of chapter summaries which allows readers to review the chapter's main points; Text Your Knowledge which helps readers quiz themselves on important concepts; Chapter by chapter exercises which readers can apply to a chapter's themes; A companion website featuring video tutorials of necessary skills for journalists including how to arrange lighting, structures, how to hold a microphone, and how to properly conduct an interview.

The Art of Editing in the Age of Convergence Brian S. Brooks, James L. Pinson, 2017-07-28 The Art of Editing in the Age of Convergence remains the most comprehensive and widely used text on editing in journalism. This latest edition continues to shift the focus toward online multimedia as more and more people get their news that way. Amid these changes, the authors continue to stress the importance of taking the best techniques learned in print and broadcast editing and applying them to online journalism. The reality is that most people now often first learn of breaking news on Facebook or Twitter, and therefore the challenge for journalists in this new media world is distinguishing the quality and dependability of their work from all the fake news and propaganda memes now so common online. This book is designed to help serious news providers produce a product that is well edited and grounded in the best practices of journalism.
