reconsideration of America's first Gilded Age when war born dreams of freedom and democracy died of their impossibility Focusing on the alliance between government and railroads forged by bribes and campaign contributions Jack Beatty details the corruption of American political culture that in the words of Rutherford B Hayes transformed a government of the people by the people and for the people into a government by the corporations of the corporations and for the corporations A passionate gripping scandalous and sorrowing history of the triumph of wealth over commonwealth **The Generation**

That Saved America Bettye B. Burkhalter, 2010-12 History Romance Destiny The Third Novel in the Trilogy Dr John Burel's great grandson John Harrison was a toddler when his family pioneered from South Carolina to Mississippi As a youngster he proudly helped his family bellwether the Civil War and rebirth of the New South By the early 1900s he was a prosperous farmer and landowner Time passed quickly and too soon he was an old man Join Grandpa and feel the biting north wind as he shuffled onto the front porch cupped his hands around his mouth and shouted It's hog killing day Watch the bustling families rush toward the big house to slaughter enough hogs to carry them through the winter Summer finally arrived and brought old time gospel singing and preaching to their country church on the hill Mama rose early on Sunday morning and filled her basket with fried chicken biscuits baked sweet potatoes and fried apple pies After preaching there was going to be another dinner on the ground Everyone was excited Without a doubt those were the good years But all that changed Walk down the dismal road with the Burrell family as they helplessly watched the reckless Roaring Twenties and Great Depression bring a flourishing economy and their comfortable lifestyle to a grinding halt Feel Grandpa's pain and humiliation when the bank called in his Deed of Trust and he was forced to sell his last 640 acre farm and home for a few dollars Sit for awhile and listen to his grandson Cecil Allen Burrell The Man Himself as his thought provoking stories detail how they all survived those disastrous years With their eyes on the future John Harrison's children and grandchildren navigated their way back into

prosperity and eventually reclaimed their part of the American dream the same dream brought to America by their Great3 Grandfather Dr Jean Baptiste Elz ar Burel in 1778 Underground Railroad in Delaware, Maryland, and West Virginia William J. Switala,2004-06-18 Detailed maps trace the routes runaway slaves followed Explores the impact of geography transportation free blacks and members of religious congregations on the Underground Railroad Information on modern roads and landmarks allows readers to retrace escape paths **Remembering Reconstruction** Carole Emberton,Bruce E. Baker,2017-04-12 Academic studies of the Civil War and historical memory abound ensuring a deeper understanding of how the war s meaning has shifted over time and the implications of those changes for concepts of race citizenship and nationhood The Reconstruction era by contrast has yet to receive similar attention from scholars Remembering Reconstruction ably fills this void assembling a prestigious lineup of Reconstruction historians to examine the competing social and historical memories of this pivotal and violent period in American history Many consider the period from 1863 beginning with slave emancipation to 1877 when the last federal troops were withdrawn from South Carolina and Louisiana an unfinished revolution for civil rights racial identity formation and social reform Despite the cataclysmic aftermath of the war the memory of Reconstruction in American consciousness and its impact on the country s fraught history of identity race and reparation has been largely neglected The essays in Remembering Reconstruction advance and broaden our perceptions of the complex revisions in the nation s collective memory Notably the authors uncover the impetus behind the creation of black counter memories of Reconstruction and the narrative of the tragic era that dominated white memory of the period Furthermore by questioning how Americans have remembered Reconstruction and how those memories have shaped the nation s social and political history throughout the twentieth century this volume places memory at the heart of historical inquiry **Comparative Perspectives on School Textbooks** Dobrochna Hildebrandt-Wypych,Alexander W. Wiseman,2021-04-22 This book examines the discourses on nation building civic identity minorities and the formation of religious identities in school textbooks worldwide It offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide Chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks *Cross-Cultural Management* Mai Nguyen-Phuong-Mai,2019-09-02 Cross Cultural Management With Insights from Brain Science explores a broad range of topics on the impact of culture in international business and vice versa and the impact of businesses and individuals in shaping a culture It provides critical and in depth information on globalization global glocal leadership cross cultural marketing and cross cultural negotiation It also discusses

many other topics that are not typically found in the mainstream management textbooks such as diversity management bias management cross cultural motivation strategies and change management While most literature in the field is dominated by the static paradigm that is culture is fixed nation equates to culture and values are binary this book takes a different approach It regards national values as a first best guess and balances it with an introduction of the dynamic paradigm This school of thought posits that culture is not static context is the software of the mind opposing values coexist change is constant and individuals can develop a multicultural mind A unique feature of this book is the contribution of an interdisciplinary approach It is the first textbook of cross cultural management that incorporates latest findings from the emerging discipline of cultural neuroscience and evolutionary biology in the discussion Such a holistic approach is meant to help readers gain a deeper and broader understanding of the subjects

American Memories Joachim J. Savelsberg, Ryan D. King, 2011-09-01 In the long history of warfare and cultural and ethnic violence the twentieth century was exceptional for producing institutions charged with seeking accountability or redress for violent offenses and human rights abuses across the globe often forcing nations to confront the consequences of past atrocities The Holocaust ended with trials at Nuremberg apartheid in South Africa concluded with the Truth and Reconciliation Commission and the Gacaca courts continue to strive for closure in the wake of the Rwandan genocide Despite this global trend toward accountability American collective memory appears distinct in that it tends to glorify the nation's past celebrating triumphs while eliding darker episodes in its history In *American Memories* sociologists Joachim Savelsberg and Ryan King rigorously examine how the United States remembers its own and others atrocities and how institutional responses to such crimes including trials and tribunals may help shape memories and perhaps impede future violence *American Memories* uses historical and media accounts court records and survey research to examine a number of atrocities from the nation's past including the massacres of civilians by U.S. military in My Lai Vietnam and Haditha Iraq The book shows that when states initiate responses to such violence via criminal trials tribunals or reconciliation hearings they lay important groundwork for how such atrocities are viewed in the future Trials can serve to delegitimize violence even by a nation's military by creating a public record of grave offenses But the law is filtered by and must also compete with other institutions such as the media and historical texts in shaping American memory Savelsberg and King show for example how the My Lai slayings of women children and elderly men by U.S. soldiers have been largely eliminated from or misrepresented in American textbooks and the army's reputation survived the episode untarnished The American media nevertheless evoked the killings at My Lai in response to the murder of twenty-four civilian Iraqis in Haditha during the war in Iraq Since only one conviction was obtained for the My Lai massacre and convictions for the killings in Haditha seem increasingly unlikely Savelsberg and King argue that Haditha in the near past is now bound inextricably to My Lai in the distant past With virtually no criminal convictions and none of higher ranks for either massacre both events will continue to be misrepresented in American memory In contrast the book examines American representations

of atrocities committed by foreign powers during the Balkan wars which entailed the prosecution of ranking military and political leaders The authors analyze news accounts of the war s events and show how articles based on diplomatic sources initially cast Serbian President Slobodan Milosevic in a less negative light but court based accounts increasingly portrayed Milosevic as a criminal solidifying his image for the public record American Memories provocatively suggests that a nation s memories don t just develop as a rejoinder to events they are largely shaped by institutions In the wake of atrocities how a state responds has an enduring effect and provides a moral framework for whether and how we remember violent transgressions Savelsberg and King deftly show that such responses can be instructive for how to deal with large scale violence in the future and hopefully how to deter it A Volume in the American Sociological Association s Rose Series in Sociology *The National Union Catalogs, 1963- ,1964* *The Atlantic Slave Trade* Jeremy Black,2017-11-30 Covering the Atlantic slave trade from its origins to 1600 the essays in this collection look at the reasons for the causes of slavery and serfdom slavery in Africa the development of the slave trade the demographic situation in Latin America and European attitudes to slavery as an institution *Fort Worth* Julia Kathryn Garrett,2013-05-31 In the 1950s history teacher Julia Kathryn Garrett of Fort Worth began collecting stories from old timers and pioneers whose memory or knowledge reached back to the early days of the city For fifteen summer vacations she worked from morning to night on her book creating an anecdotal chronicle of the early years of the city that began as a fort on the Trinity River in 1849 She closed her history with events a quarter of a century later when Fort Worth was poised on the edge of growth ready to become a modern city with the 1876 arrival of the railroad First published in 1972 and reprinted by TCU Press in 1996 **The Second Crucifixion of Nat Turner** John Henrik Clarke,1997 Originally published as William Styron s Nat Turner These essays address the misrepresentation of Turner s life and activities by white writers The contributors include Lerone Bennett Jr John O Killens Alvin Poussaint and John A Williams Teaching White Supremacy Donald Yacovone,2023-10-24 A powerful exploration of the past and present arc of America s white supremacy from the country s inception and Revolutionary years to its 19th century flashpoint of civil war to the Civil Rights movement of the 1960s and today s Black Lives Matter The most profoundly original cultural history in recent memory Henry Louis Gates Jr Harvard University Stunning timely an achievement in writing public history Teaching White Supremacy should be read widely in our roiling debate over how to teach about race and slavery in classrooms David W Blight Sterling Professor of American History Yale University author of the Pulitzer Prize winning Frederick Douglass Prophet of Freedom Donald Yacovone shows us the clear and damning evidence of white supremacy s deep seated roots in our nation s educational system through a fascinating in depth examination of America s wide assortment of texts from primary readers to college textbooks from popular histories to the most influential academic scholarship Sifting through a wealth of materials from the colonial era to today Yacovone reveals the systematic ways in which this ideology has infiltrated all aspects of American culture and how it has been at the heart of our collective national

identity Yacovone lays out the arc of America's white supremacy from the country's inception and Revolutionary War years to its nineteenth century flashpoint of civil war to the civil rights movement of the 1960s and today's Black Lives Matter. In a stunning reappraisal the author argues that it is the North not the South that bears the greater responsibility for creating the dominant strain of race theory which has been inculcated throughout the culture and in school textbooks that restricted and repressed African Americans and other minorities even as Northerners blamed the South for its legacy of slavery segregation and racial injustice. A major assessment of how we got to where we are today of how white supremacy has suffused every area of American learning from literature and science to religion medicine and law and why this kind of thinking has so insidiously endured for more than three centuries.

Historical Thinking Sam Wineburg, 2001-03. Since ancient times the pundits have lamented young people's lack of historical knowledge and warned that ignorance of the past surely condemns humanity to repeating its mistakes. In the contemporary United States this dire outlook drives a contentious debate about what key events, nations and people are essential for history students. Sam Wineburg says that we are asking the wrong questions. This book demolishes the conventional notion that there is one true history and one best way to teach it. Although most of us think of history and learn it as a conglomeration of facts, dates and key figures for professional historians it is a way of knowing, a method for developing and understanding about the relationships of peoples and events in the past. A cognitive psychologist Wineburg has been engaged in studying what is intrinsic to historical thinking: how it might be taught and why most students still adhere to the one damned thing after another concept of history. Whether he is comparing how students and historians interpret documentary evidence or analyzing children's drawings Wineburg's essays offer rough maps of how ordinary people think about the past and use it to understand the present. Arguing that we all absorb lessons about history in many settings: in kitchen table conversations at the movies or on the world wide web for instance these essays acknowledge the role of collective memory in filtering what we learn in school and shaping our historical thinking.
