**This Land Is Your Land** RD Moore, 2023-06-10 This land was made for you and me This is the emphatic refrain of Woody Guthrie's iconic anthem a profound rendering of one of our nation's most sacred truths Yet for far too many and for far too long this hasn't felt like a land made for them or one that even wants them And that's just not sustainable *This Land Is Your Land* TLIYL is a telling of our social story through the lens of the American people how we became who we are and who we are in the process of becoming It's about the systems we built both generative and degenerative from democracy and equality to slavery and social supremacy and how everything about us is changing Right this minute we are in the midst of the greatest sociological shift in U.S. history one where in every way we currently measure we'll soon be a post majority nation By 2045 incumbent majorities from racial whiteness to Christianization to heteronormativity will all be downgraded to minority status This Time of Turmoil one where everything's shifting is why we are experiencing so much unrest and instability from rising poverty to increasingly caustic elections to diminishing human regard But it's also why getting this right has never been more important or mattered more A combination of personal vignettes and cultural analysis TLIYL covers 300 years of shared history one that's been shaped by nearly 550 million lives lived and explores how together we move forward It's a story with three parts Part One How the American Race Construct ARC and other toxic frameworks impaired us Part Two How the Degenerative Cycle DGC and other predatory processes imperiled us Part Two and Part Three How through personal practices like the Four Actions each of us can help us become a society that embraces all of us Today we find ourselves in a bit of a tough place But instead of an ending this shift we are undergoing might actually be a beginning a chance to both make our founding

dreams real and gift the future a future And in doing so we transform ourselves into a new land one as Woody sang made for you and me      *The Uncrowned King of Cambodia* David Chandler,Anthony Barnett,2023-10-01 Lt Col Edward D Moke Murray an outstanding officer in the Indian Army and became a Gurkha commander in Malaya In 1939 he fired the crucial shot that dispersed a strike that threatened the Raj He became an outstanding leader in the fight against the Japanese in Assam and Burma He suppressed the Viet Minh in Saigon in 1945 in what can be seen as the start of the Vietnam War He was Allied Land Commander in Cambodia and supervised the surrender of the Japanese there In 1953 he was cheered by millions along the eight kilometre route of Elizabeth II s coronation parade as he marched at the head of the hugely popular Gurkha contingent But when he died not a single obituary of him appeared apart from a short notice in the Gurkha gazette From Anthony Barnett s Introduction What sort of man was Moke Murray this forgotten Achilles of the dying British Empire He served his King in wars from Waziristan to Burma and helped to shape the future of Indochina But as this touching and fascinating biography recounts he ended his life in lonely poverty as the Empire itself dissolved and fell out of memory Neal Ascherson novelist reporter and historian      *The Totalitarian Experiment in Twentieth Century Europe* David Roberts,2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book s original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment      *Fortune's Turn* David Pollard,2024-07-04 The year 1942 began with disaster for the Allies but paved the way to victory World War II was a conflict over land and resources but also democracy and freedom The 1920s and 30s had seen liberal democracy losing the fight against challengers from the Left and Right By the end of the 1930s Hitler had destroyed the few functioning democracies in Europe and at the end of 1941 the future looked bleak even as the US entered the war after the attack on Pearl Harbour But the year that began in such fear ended with the Allies winning victories everywhere on land on the sea and in the air Discover what caused this drastic change of fortunes in the war and its long term consequences      *Ancient Greeks on the Human Condition* Matthew Sims,2021-08-03 This book examines the writings of four ancient Greeks Homer Thucydides Euripides and Aristophanes Each of these four individuals represents a different approach toward the human condition ranging from the heroic and tragic to the comic and absurd This book focuses on how the human condition can best be understood within

the framework of these four perspectives by examining the major contributions of these Greek writers whether in the form of epic Homer's Iliad history Thucydides History of the Peloponnesian War or drama the plays of Euripides and Aristophanes These various perceptions of Greek thought illuminate our understanding of what it means to be fully human By focusing on the concepts of the heroic tragic comic and absurd we can see how these ancient Greek authors still provide key insights for us today as they clarify those timeless features that define the human condition

**The Art of Peace** Juliana Geran Pilon, 2016-10-31 Sun Tzu author of The Art of War believed that the acme of leadership consists in figuring out how to subdue the enemy with the least amount of fighting a fact that America's Founders also understood and practiced with astonishing success For it to work however a people must possess both the ability and the willingness to use all available instruments of power in peace as much as in war US foreign policy has increasingly neglected the instruments of civilian power and become overly dependent on lethal solutions to conflict The steep rise in unconventional conflict has increased the need for diplomatic and other non hardpower tools of statecraft The United States can no longer afford to sit on the proverbial three legged national security stool military diplomacy development where one leg is a lot longer than either of the other two almost forgetting altogether the fourth leg information especially strategic communication and public diplomacy The United States isn't so much becoming militarized as decivilianized According to Sun Tzu self knowledge is as important as knowledge of one's enemy if you know neither yourself nor the enemy you will succumb in every battle Alarmingly the United States is deficient on both counts And though we can stand to lose a few battles the stakes of losing the war itself in this age of nuclear proliferation are too high to contemplate

**The Fortunes of Everyman in Twentieth-century German Drama** Brian Murdoch, 2022 Death still comes to Everyman but this study of three twentieth century German plays shows the harder challenge of living without salvation in an age of war and unprecedented mass destruction Death comes to

everyone and in the late medieval morality play of Everyman the familiar skeleton forces the universalized central figure to come to terms with this Only his inner resources in the forms of Good Deeds and Knowledge ensure that he repents and is redeemed Three important twentieth century German plays echo Everyman Toller's Hinkemann Borchert's The Man Outside and Frisch's The Arsonists Firebugs but the unprecedented scale of killing in the First and Second World Wars changed the view of death while in the Cold War the nuclear destruction literally of everyone became a possibility Brian Murdoch traces the heritage of Everyman in the three plays in terms of dramatic effect changes in the image of Death and especially the problem of living with existential guilt Death now over fed still has to be faced but Everyman has the harder problem of living with the awareness of human wickedness without the possibility of salvation All three plays have tended to be viewed in their specific historical contexts but by viewing them less rigidly and as part of a long dramatic tradition Murdoch shows that all present a message of lasting and universal significance They pose directly to the theater audience questions not just of how to cope with death but how to cope with life

*Inchon* S. P. MacKenzie, 2025-09-12 *Inchon* the battle that saved South Korea Operation Chromite the American led amphibious landing at the port of Inchon Incheon in September 1950 is arguably the most famous battle of the Korean War Often hailed as a masterstroke on the part of its creator General Douglas MacArthur its consequences were vast Seoul was liberated by the end of the month the invasion of South Korea by North Korea rapidly reversed and the stage set for an advance toward the Yalu River by United Nations and South Korean forces that would lead to Chinese intervention and a whole new war The Inchon Seoul campaign is also noteworthy for the way in which participating states and commanders developed different and sometimes irreconcilable accounts of what had transpired and conclusions as to its ultimate meaning This volume chronicles the origins and course of the battle itself and then examines its cultural afterlife first through press coverage then through published memoirs in official histories on the big screen and finally via sites of commemoration down to the present in the United States and the two Koreas The overarching aim of *Inchon* is to explore how complimentary or competing narratives at both the national and individual level developed over a timespan of more than seven decades
