Nice Organizing Written Utrecht Medieval Literacy:

Divine Creation in Ancient, Medieval, and Early Modern Thought, 2007-03-31 Throughout his academic career Robert Crouse has insisted that the patristic and medieval philosophical and theological traditions which have so profoundly shaped western culture cannot be understood apart from the subtle and complex dialogue between Christianity and Hellenic culture out of which these traditions emerged In this volume in Father Crouse s honour twenty two eminent scholars from across North America and Europe examine various moments within the emergence of the doctrine of creation in the patristic and medieval periods the Hebraic and Hellenic pre history of this movement as well as modern reactions to the partristic and medieval syntheses Student and specialist alike will appreciate not only the depth of scholarly research clearly evident in the individual essays but also the broad scope of the volume as a whole Contributors include Stephen Andrews Stephen F Brown Mary T Clark RSCJ Kevin Corrigan Lawrence Dewan Robert Dodaro OSA Wayne J Hankey Walter A Hannam Michael Harrington Paige E Hochschild Dennis House Edouard Jeaneau Angus Johnston Torrance Kirby Terence J Kleven Marguerite Kussmaul Matthew L Lamb D Gregory MacIsaac Ralph McInerny Luca Obertello Willemien Otten Neil G Robertson Horst Seidl and Michael Treschow The Use and Abuse of Sacred Places in Late Medieval Towns Paul Trio, Marjan de Smet, 2006 This book discusses how secular authorities made use of churches and monasteries in the Low Countries the German regions and the British Isles during the late medieval period *The Scribes for Women's Convents in Late Medieval Germany* Cynthia J. Cyrus, 2009-01-01 Cyrus demonstrates the prevalence of manuscript production by women monastics and challenges current assumptions of how manuscripts circulated in the late medieval period *The Oxford Handbook of Medieval Christianity* John H. Arnold, 2014-08-21 The Oxford Handbook of Medieval Christianity takes as its subject the beliefs practices and institutions of the Christian Church between 400 and 1500AD It addresses topics ranging from early medieval monasticism to late medieval mysticism from the material wealth of the Church to the spiritual exercises through which certain believers might attempt to improve their souls Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience drawing together thirty key scholars in the field from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field Lords' Rights and Peasant Stories Simon Teuscher, 2013-02-12 In the mid nineteenth century Jacob Grimm published a collection of late medieval records of local law called Weist mer that was scarcely less comprehensive than his

famous collection of fairy tales As with the fairy tales Grimm assumed that before their transcription people had handed these down orally from time immemorial His interest in these customary laws arose from their seemingly folkloristic notions of custom and from their poetic narratives about ritualized encounters between lords and peasants capturing an oral tradition from an unsophisticated time Grimm's readings are still used today as a basis for theories about oral societies in the premodern West and contemporary non-Western societies and the modernizing effects of writing As Simon Teuscher contends however those aspects of legal texts that have been considered since Grimm to be vestiges of a traditional preliterate popular culture were eventually rooted in relatively advanced and learned techniques of writing jurisprudence and administration Lords Rights and Peasant Stories uses examples from German and French speaking Switzerland to investigate what legal order meant to individuals and to a society at the eve of the early modern period Teuscher deals with legal documents not only as texts but also as objects The book takes the materiality of documents seriously and reconstructs cultural techniques of their production and social practices of their use Lords Rights and Peasant Stories suggests the need to rethink master narratives about transitions from oral to literate societies It explores the local dimensions of processes of state formation and the emergence of modern notions of law in western Europe Students of rural society and village organization will find here a discussion of local power distribution that is inspired by social anthropology that looks beyond simple antagonisms between lords and peasants and that insists on the role of state servants and the unconscious effects of their writing practices

The Making of Christian Myths in the Periphery of Latin Christendom (c. 1000-1300) Lars Boje Mortensen, 2006 Mythology is usually reserved for non-Christian religions However the adoption of Christianity in Northern and East Central Europe between c 1000 and 1300 can be adequately described as a myth making process local saints were added to the Christian pantheon in all regions entering Latin Europe The present collection explores the links between local sanctity and the making of national myths in medieval historical writing By bringing together specialists in history and literature of the European periphery in question the case is made that the writing of history and saints lives from this pioneering period should be analysed together as mainly successful attempts at creating cultural foundation myths

The Art of Compilation Anna Dorofeeva, 2025-03-04 The Art of Compilation Manuscripts and Networks in the Early Medieval Latin West interrogates the medieval manuscript book as a dynamic constantly changing object entangled in intellectual and cultural networks constructed and deconstructed by different people and transmuting in form and meaning over time Medieval manuscripts are not static permanently bound and delimited but rather serve as evidence for the layered relationships between texts and their material supports and when we realize that we gain a clearer view of medieval

manuscript culture as driven by the agency and intellectual exchange of the people behind it This volume of essays investigates early medieval Western European manuscript culture as a field of entangled objects focusing on the connections between knowledge selection material representation and scribal agency The complex road of compiling selected texts into manuscripts compilatio in the early Middle Ages is still not well understood yet it is the key to the historical context surrounding medieval manuscript culture The practice of knowledge selection consisted of three key stages the intellectual selection of the textual content of manuscript collections the pragmatic action of arranging the textual content in a draft form by authors or editors and the material representation and aesthetic exposition of texts in manuscripts These stages were part of a linear development but also exercised reciprocal influence upon one another By tracing this process in surviving manuscript collections we can better understand in what practical ways knowledge was encoded and how these often innovative and experimental practices contributed to the emergence and consolidation of intellectual and scribal traditions This has important implications for how we understand education reform and the exercise of power in the early Middle Ages

Zečević,Daniel Ziemann,2022 A unique comparative presentation of a region that is often considered forgotten this handbook provides a variety of expertly informed perspectives on life and society in medieval Central Europe and its dynamic interactions across the continent **Harmony and the Music of the Spheres** Mariken Teeuwen,2022-06-08 In the ninth

century Martianus Capella s De nuptiis Philologiae et Mercurii a late antique encyclopedia of ancient learning on the seven Liberal Arts was read with scrupulous vigour by the intellectual elite Carolingian scholars produced a wealth of commentaries and glosses which survived hidden in the margins of a remarkably large number of manuscripts In the first part of the book the manuscript tradition of the oldest commentary is taken under scrutiny and the Carolingian reception of ancient knowledge on the subject of music is opened up and analyzed Its relevance for the formation of a new medieval music theory is evaluated In the second part the relevant parts of the oldest commentary are edited on the basis of eight ninth century manuscripts **Rethinking Authority in the Carolingian Empire** Rutger Kramer,2025-10-01 By the early ninth

century the responsibility for a series of social religious and political transformations had become an integral part of running the Carolingian empire This became especially clear when in 813 4 Louis the Pious and his court seized the momentum generated by their predecessors and broadened the scope of these reforms ever further These reformers knew they represented a movement greater than the sum of its parts the interdependence between those wielding imperial authority and those bearing responsibility for ecclesiastical reforms was driven by comprehensive yet still surprisingly diverse expectations Taking this diversity as a starting point this book takes a fresh look at the optimistic first decades of the ninth century Extrapolating from a series of detailed case studies rather than presenting a new grand narrative it offers new interpretations of contemporary theories of personal improvement and institutional correctio and shows the self awareness of its main instigators as they pondered what it meant to be a good Christian in a good Christian empire Erzähltes Recht Simon Teuscher,2007
