The CQ Researcher

Nice Plutocrats United Campaign Distortion Elections:

Plutocrats United Richard L. Hasen, 2016-01-12 Campaign financing is one of today's most divisive political issues. The left asserts that the electoral process is rife with corruption. The right protests that the real aim of campaign limits is to suppress political activity and protect incumbents. Meanwhile, money flows freely on both sides. In *Plutocrats United*, Richard Hasen argues that both left and right avoid the key issue of the new Citizens United era: balancing political inequality with free speech. The Supreme Court has long held that corruption and its appearance are the only reasons to constitutionally restrict campaign funds. Progressives often agree but have a much broader view of corruption. Hasen argues for a new focus and way forward if the government is to ensure robust political debate. The Supreme Court should allow limits on money in politics to prevent those with great economic power from distorting the political process. **Dollars for Life** Mary Ziegler, 2022-06-21 A new understanding of the slow drift to extremes in American politics that shows how the antiabortion movement remade the Republican Party. A sober, knowledgeable, scholarly analysis of a timely issue. Kirkus Reviews. As Mary Ziegler shows us in this incisive and important book, anti-abortion activists have shaped the GOP in ways that even they could not have anticipated. Everyone interested in the past and future of American politics should read this book. Laura Kalman, University of California Santa Barbara. The modern Republican Party is the party of conservative Christianity and big business, two things so closely identified with the contemporary GOP that we hardly notice the strangeness of the pairing. Legal historian Mary Ziegler traces how the anti-abortion movement helped to forge and later upend this alliance. Beginning with the Supreme Court's landmark decision in *Buckley v. Valeo*, right-to-lifers fought to gain power in the GOP by changing how campaign spending and the First Amendment work. The anti-abortion movement helped to revolutionize the rules of money in U.S. politics and persuaded conservative voters to fixate on the federal courts. Ultimately, the campaign finance landscape that abortion foes created fueled the GOP's embrace of populism and the rise of Donald Trump. Ziegler offers a surprising new view of the slow drift to extremes in American politics and explains how it had everything to do with the strange intersection of right-to-life politics and campaign spending. **Issues for Debate in American Public Policy** The CQ Researcher, 2017-03-20 This collection of non-partisan reports written by award-winning CQ Researcher journalists focuses on provocative current policy issues. As an annual publication that comes together just months before it goes to press, the volume is all new and as up-to-date as possible. And because it's CQ Researcher, the policy reports are expertly researched and written, showing all sides of an issue. Chapters follow a consistent organization: exploring three issue questions, then offering background, current context, and a look ahead, and feature a pro-con debate box. All issues include a chronology, bibliography, photos, charts, and figures. **The Emperor's Nightmare** Robert A. G. Monks, 2022-03-21 From angry shareholders to concerned chief executives, almost everyone knows at a gut level that the present political system is not working. This book finds the root cause to be poor corporate governance. In the prequel to this book, *The Emperor's*

Nightingale Robert A G Monks one of the world s foremost shareholder activists had warned corporations against putting short profit ahead of long term value for all stakeholders Few listened and the result was system wide trauma that only bold solutions can heal In *The Emperor s Nightmare* his latest book Monks reveals what can happen when corporate leadership abandons the common good to court and conquer a powerful elite This insightful honest and direct portrayal of corporate governance and the surrounding political system will be of immense value to those interested in corporate governance particularly shareholder and stakeholder advocates and the true corporate leaders who serve them In the end better corporate governance means better democracy This book shows the way *Dark Quadrant* Jonathan Marshall,2021-04-09

From Truman to Trump the deep corruption of our political leaders unveiled Many critiques of the Trump era contrast it with the latter half of the twentieth century when the United States seemed governed more by statesmen than by special interests Without denying the extraordinary vigor of President Trump s assault on traditional ethical and legal norms Jonathan Marshall challenges the myth of a golden age of American democracy Drawing on a host of original archival sources he tells a shocking story of how well protected criminals systematically organized the corruption of American national politics after World War II Marshall begins by tracing the extraordinary scandals of President Truman whose political career was launched by the murderous Pendergast machine in Missouri He goes on to highlight the role of organized crime in the rise of McCarthyism during the Cold War the near derailment of Vice President Johnson s political career by two mob related scandals and Nixon s career long association with underworld figures The book culminates with a discussion of Donald Trump s unique history of relations with the traditional American Mafia and newer transnational gangs like the Russian mafiya and how the latter led to his historic impeachment by the House of Representatives **Strengthening Electoral Integrity** Pippa Norris,2017-08-29 Norris counters current pessimism about the effectiveness of democratic programs monitoring and assisting elections worldwide arguing for international engagement **The Bill of Rights in Modern America** David J. Bodenhamer,James W. Ely,2022-04-05 As the 2020s began protestors filled the streets politicians clashed over how to respond to a global pandemic and new scrutiny was placed on what rights US citizens should be afforded Newly revised and expanded to address immigration gay rights privacy rights affirmative action and more *The Bill of Rights in Modern America* provides clear insights into the issues currently shaping the United States Essays explore the law and history behind contentious debates over such topics as gun rights limits on the powers of law enforcement the death penalty abortion and states rights Accessible and easy to read the discerning research offered in *The Bill of Rights in Modern America* will help inform critical discussions for years to come *Democracy by the People* Eugene D. Mazo,Timothy K. Kuhner,2018-11-29 Thanks to a series of recent US Supreme Court decisions corporations can now spend unlimited sums to influence elections Super PACs and dark money groups are flourishing and wealthy individuals and special interests increasingly dominate American politics Despite the overwhelming support of Americans to fix this broken system serious

efforts at reform have languished Campaign finance is a highly intricate and complex area of the law and the current system favors the incumbent politicians who oversee it This illuminating book takes these hard realities as a starting point and offers realistic solutions to reform campaign finance With contributions from more than a dozen leading scholars of election law it should be read by anyone interested in reclaiming the promise of American democracy **Trump and the Hidden Empire** Lisheng Dong,2025-09-26 This book analyzes Donald Trump s three electoral campaigns 2016 2020 and 2024 and exposes the hidden networks of power that shape modern campaigns and politics The author maps the influence of financial oligarchs deep state agencies tech moguls and celebrity elites revealing how populist narratives intersect with corporate lobbying military and intelligence continuity and fragmented mass media Blending cultural and structural perspectives the book explains how Trump often seen as an outsider was able to simultaneously serve entrenched interests Each chapter examines critical turning points from early endorsements and mainstream coverage to digital echo chambers polling failures and escalating conspiracy theories culminating in Trump s victory in 2024 The book concludes with an assessment of democracy s resilience in an age of misinformation economic inequality and strategic realignment It will appeal to scholars students and researchers in political science and related fields as well as policymakers and the general public interested in better understanding the shifting power structures that underpin American democracy Political, Economic and Legal Effects of Artificial Intelligence Georgios I. Zekos,2022-03-07 This book presents a comprehensive analysis of the alterations and problems caused by new technologies in all fields of politics It further examines the impact of artificial intelligence AI on the nexus between politics economics and law The book raises and answers several important questions What is the role of AI in politics Are people prepared for the challenges presented by technical developments How will AI affect future politics and human society How can politics and law deal with AI s disruptive technologies What impact will AI and technology have on law How can efficient cooperation between human beings and AI be shaped Can artificial intelligence automate public decision making Topics discussed in the book include but are not limited to digital governance public administration digital economy corruption democracy and voting legal singularity separation of power constitutional rights GDPR in politics AI personhood digital politics cyberspace sovereignty cyberspace transactions and human rights This book is a must read for scholars and students of political science law and economics as well as policy makers and practitioners interested in a better understanding of political legal and economic aspects and issues of AI *Nation on the Take* Wendell Potter,Nick Penniman,2017-02-07 A rallying cry to bring government back under the control of the people Their argument is impassioned and accessible Library Journal American democracy has become coin operated Special interest groups increasingly control every level of government The necessity of raising huge sums of campaign cash has completely changed the character of politics and policy making determining what elected representatives stand for and how their time is spent The marriage of great wealth and intense political influence has rendered our country unable to address our most pressing problems from

runaway government spending to climate change to the wealth gap It also defines our daily lives from the cars we drive to the air we breathe to the debt we owe In this powerful work of reportage Wendell Potter and Nick Penniman two vigilant watchdogs expose legalized corruption and link it to the kitchen table issues citizens face every day Inciting our outrage the authors then inspire us by introducing us to an army of reformers laying the groundwork for change ready to be called into action The battle plan for reform presented is practical realistic and concrete No one except some lobbyists and major political donors likes business as usual and this book aims to help forge a new army of reformers who are compelled by a patriotic duty to fight for a better democracy An impassioned infuriating yet ultimately hopeful call to arms Nation on the Take lays bare the reach of moneyed interests and charts a way forward toward the recovery of America's original promise

America's Energy Gamble Shanti Gamper-Rabindran, 2022-01-13 How can America get back to an energy transition that's good for the economy and the environment That's the question at the heart of this eye opening and richly informative dissection of the Trump administration's energy policy The policy was ardently pro fossil fuel and ferociously anti regulation implemented by manipulating science and economic analysis putting oil and gas insiders at the helm of environmental agencies and hacking away at democratic norms that once enjoyed bipartisan support The impacts on the nation's health economy and environment were as this book carefully demonstrates dire But the damage can be reversed Ordinary Americans civil society groups environmental professionals and politicians at every level all have parts to play in making sure the needed energy transition leaves no one behind This compelling book will appeal to course instructors and students government and industry officials activists and journalists and everyone concerned about the nation's future *The*

^AReturns to Power Thomas F. Remington, 2023-05-16 In *The Returns to Power* Thomas F Remington examines the rise of extreme economic inequality in the United States by drawing comparisons to the effects of market reforms in Russia China and Germany Employing an unconventional comparative framework he shows that the US embraced deregulation and market based solutions around the same time that China and Russia also implemented major privatization and liberalization reforms Remington contrasts the effects of these policies Germany's postwar social market economy The book concludes with an analysis of the political dangers posed by high inequality and calls for a new public philosophy of liberal capitalism and liberal democracy

Race and the Politics of Fear J. Noel Hubler, 2025-05-16 *Race and the Politics of Fear* is a study of the role of race in American political history It takes a novel approach by using Aristotle's theory of the mixed regime to analyze the American system Aristotle's mixed regime containing elements of oligarchy and democracy was well known to the Founders who used it to design the Constitution Accordingly American political history has unfolded as a struggle between oligarchic and democratic forces Oligarchs have frequently used race to divide the people and maintain power This book traces the oligarchic construction of race from its creation in the Colonial period and through a study of four major figures James Madison helped formulate the Constitution to provide protection for the Southern oligarchies and was a

founder of the Democratic Republican party dominated by Southern interests John C Calhoun's theory of the concurrent majority provided a blueprint for the South's political strategy in the Jim Crow era Ben Tillman redefined race primarily as a feeling as an excuse for the South's violent oppression of the black community Ronald Reagan retooled the traditional racist myths and made them palatable to a national audience Readable yet extensively documented it is appropriate for general audiences and scholars

For the People? Charles R Beitz, Edwards S Sanford Professor of Politics Charles R Beitz, 2024-10-04 Many observers of American politics believe that representative government particularly in the Congress is failing This book examines the case for failure what are the outward signs and how do they reflect breaches of underlying norms of fair and effective representation The book argues that good representation demands healthy competition between parties but that in today's America that competition has run off the rails

The Republic of Virtue F. H. Buckley, 2017-11-28 Public corruption is the silent killer of our economy We've spawned the thickest network of patronage and influence ever seen in any country a crony capitalism in which business partners with government and transfers wealth from the poor to the rich This is a betrayal of the Framers vision for America and of the Constitution they saw as an anti corruption covenant Most Americans get it and this explains the otherwise improbable rise of Donald Trump and Bernie Sanders When a country is corrupt legislative efforts to make things better can actually make them worse That's what has happened with our campaign finance laws says the conservative and not entirely without reason We've criminalized political speech and sent the message that it's unsafe to get involved in politics without a lawyer at one's side Donor disclosure requirements have also unleashed Internet mobs that attack political opponents We'd be better off without any of them Buckley argues in this provocative book They're a net with the curious feature that the big fish swim through safely while only the little fish are caught and those with the wrong political beliefs All such rules are a disaster and should be replaced by a different set of laws that focus on crony capitalism and the nexus of legislators and lobbyists that prey on our economy

The Postmodern Predicament Bruce Ackerman, 2024-04-02 One of our most influential political theorists offers a boundary breaking and liberating perspective on the meaning of life in the internet age Human beings have taken one thing for granted since our earliest days we are bodily creatures dealing with one another on a face to face basis The internet has shattered this fundamental feature of human existence We are suddenly living our lives in two worlds at once shifting endlessly from virtual to physical reality as we reach out to others Worse yet we are developing different personal identities in our two worlds We say and do things in virtual reality that flatly contradict our face to face commitments to family friends and fellow workers and vice versa The Postmodern Predicament explores these dilemmas at each phase of the life cycle beginning at the moment a young child picks up a cell phone The existentialist tradition of the twentieth century provides a precious perspective on our postmodern dilemmas Thinkers and doers like Simone de Beauvoir and Jean Paul Sartre considered the fragmentation of modern life as a central source of contemporary anxieties Like them Ackerman views the

challenges of the internet age as a political no less than personal problem and proposes concrete reforms that that could mobilize broad based support for democracy against demagogic assaults on its very foundations **Ballot Battles** Edward B. Foley, 2024-05-10 Perhaps the truest test of a nation s ability to govern itself democratically is its ability to count ballots fairly and accurately in competitive high stakes elections Yet from the founding on America s adherence to this ideal has been distinctly uneven Edward Foley s Ballot Battles is a sweeping synthesis of the subject tracing how election controversies evolved over time from the 1780s to the present *Comparative Election Law* Gardner, James A., 2022-04-21 This timely research handbook offers a systematic and comprehensive examination of the election laws of democratic nations Through a study of a range of different regimes of election law it illuminates the disparate choices that societies have made concerning the benefits they wish their democratic institutions to provide the means by which such benefits are to be delivered and the underlying values commitments and conceptions of democratic self rule that inform these choices *Presidential Leadership* George C. Edwards, Kenneth R. Mayer, Stephen J. Wayne, 2020-01-03 With a focus on presidential leadership Edwards Mayer and Wayne address the capacity of chief executives to fulfill their tasks exercise their powers and utilize their organizational structures to affect the output of government Richly illustrated with timely fascinating examples this text examines all aspects of the presidency
