Design has been employed as an agent of social and political change and a catalyst for spatial and urban transformations in cities across the world Concurrent Urbanities argues for the centrality of designing in the conceptualization and production of inclusive and participatory urban space by bringing together civic and urban activists urbanists designers and architects committed to exploring designing as a socio spatial praxis concerned with the reorganization of urban socio economic systems and relations of power The blend of first hand experiences and reflections of the urban practitioners featured reframes design practice beyond the design of physical objects and public amenities to the design of social protocols processes and infrastructures for radically reframing practices of socio spatial inclusion on the ground Through illustrated examples this book features the work of Stalker and Stealth who employ design to negotiate new social contracts Teddy Cruz s design of urban political and economic processes models of urban pedagogy by the Center for Urban Pedagogy Cohabitation Strategies work on designing urban social cooperatives and others Concurrent Urbanities presents a compendium of the emerging models of design driven urban practice that offers important new insights to professional urban practitioners as well as to students of urbanism architecture urban design and urban and spatial planning Concurrent Urbanities Miodrag Mitrasinovic,2015-10-14 Design has been employed as an agent of social and political change and a catalyst for spatial and urban transformations in cities across the world Concurrent Urbanities argues for the centrality of designing in the conceptualization and production of inclusive and participatory urban space by bringing together civic and urban activists urbanists designers and architects committed to exploring designing as a socio spatial praxis concerned with the reorganization of urban socio economic systems and relations of power The blend of first hand experiences and reflections of the urban practitioners featured reframes design practice beyond the design of physical objects and public amenities to the design of social protocols processes and infrastructures for radically reframing practices of socio spatial inclusion on the ground Through illustrated examples this book features the work of Stalker and Stealth who employ design to negotiate new social contracts Teddy Cruz s design of urban political and economic processes models of urban pedagogy by the Center for Urban Pedagogy Cohabitation Strategies work on designing urban social cooperatives and others Concurrent Urbanities presents a compendium of the emerging models of design driven urban practice that offers important new insights to professional urban practitioners as well as to students of urbanism architecture urban design and urban and spatial planning **Design and the Social Imagination** Matthew DelSesto,2022-09-22 How can social theory help us all design solutions to address the social political and ecological challenges that confront us and build more sustainable communities Design professions have typically been associated with intervention and action while social science has long been associated with thought and reflection Design and social thought are too frequently considered distinct in terms of how

theories can be applied in practice Design and the Social Imagination brings together the creative action oriented sensibility of design with the reflective analytical capacities of the social sciences to offer models ideas and strategies for shaping the future of the world we live in In a world of global economic inequality racism and environmental degradation designing with an understanding of our social reality is increasingly crucial to our survival Matthew DelSesto explores current practices and discourses in areas of urban design design for social innovation environmental design co design service design and more illustrating how thoughtful design can contribute in a more productive way Drawing on a range of theory and practice from radical social thinkers C Wright Mills Patrick Geddes Jane Addams and W E B Du Bois his book shows us how design and the social sciences can interact in order to intervene in the crises we face today The Routledge Companion to Design Research Paul A. Rodgers, Joyce Yee, 2023-07-31 This new edition of The Routledge Companion to Design Research offers an updated comprehensive examination of design research celebrating a plurality of voices and range of conceptual methodological technological and theoretical approaches evident in contemporary design research This volume comprises thirty eight original and high quality design research chapters from contributors around the world with offerings from the vast array of disciplines in and around modern design praxis including areas such as industrial and product design visual communication interaction design fashion design service design engineering and architecture The Companion is divided into four distinct sections with chapters that examine the nature and process of design research the purpose of design research and how one might embark on design research They also explore how leading design researchers conduct their design research through formulating and asking questions in novel ways and the creative methods and tools they use to collect and analyse data The Companion also includes a number of case studies that illustrate how one might best communicate and disseminate design research through contributions that offer techniques for writing and publicising research The Routledge Companion to Design Research has a wide appeal to researchers and educators in design and design related disciplines such as engineering business marketing and computing and will make an invaluable contribution to state of the art design research at postgraduate doctoral and post doctoral levels and teaching across a wide range of different disciplines The Emerging Public Realm of the Greater Bay Area Miodrag Mitrašinić, Timothy Jachna, 2021-07-29 Through illustrated case studies and conceptual re framings this volume showcases ongoing transformations in public space and its relationship to the public realm more broadly in the world s most populous urban megaregion the Greater Bay Area of southeastern China projected to reach eighty million inhabitants by the year 2025 This book assembles diverse approaches to interrogating the forms of public space and the public realm that are emerging in the context of this region s rapid urban development in the last forty years bringing together authors from urbanism architecture planning sociology anthropology and politics to examine innovative ways of framing and conceptualizing public space in of the Greater Bay Area The blend of authors first hand practical experiences has created a unique cross disciplinary book that employs public space to frame issues of

planning political control social inclusion participation learning education and appropriation in the production of everyday urbanism In the context of the Greater Bay Area such spaces and practices also present opportunities for reconfiguring design driven urban practice beyond traditional interventions manifested by the design of physical objects and public amenities to the design of new social protocols processes infrastructures and capabilities This is a captivating new dimension of urbanism and critical urban practice and will be of interest to academics students and practitioners interested in urbanization in China

**Public Space Reader** Miodrag Mitrašinić, Vikas Mehta, 2021-03-30 Recent global appropriations of public spaces through urban activism public uprising and political protest have brought back democratic values beliefs and practices that have been historically associated with cities Given the aggressive commodification of public resources public space is critically important due to its capacity to enable forms of public discourse and social practice which are fundamental for the well being of democratic societies Public Space Reader brings together public space scholarship by a cross disciplinary group of academics and specialists whose essays consider fundamental questions What is public space and how does it manifest larger cultural social and political processes How are public spaces designed socially and materially produced and managed How does this impact the nature and character of public experience What roles does it play in the struggles for the just city and the Right to The City What critical participatory approaches can be employed to create inclusive public spaces that respond to the diverse needs desires and aspirations of individuals and communities alike What are the critical global and comparative perspectives on public space that can enable further scholarly and professional work And what are the futures of public space in the face of global pandemics such as COVID 19 The readers of this volume will be rewarded with an impressive array of perspectives that are bound to expand critical understanding of public space

**Universities as Drivers of Social Innovation** Davide Fassi, Paolo Landoni, Francesca Piredda, Pierluigi Salvadeo, 2019-11-15 This book reviews the social role of universities in their local urban contexts and describes a number of initiatives of major interest in terms of the impact achieved the range of stakeholders involved and the significance of the university campus and teachers as agents of change It is divided into three parts the first of which draws on the international literature to provide theoretical background regarding the role of universities and university campuses as drivers of and magnets for social innovation The second and third parts each focus on four main themes of interest in the contemporary design setting urban community gardens social TV stations mobile pavilions and economic sustainability models After a theoretical overview that also illustrates international best practices it then focuses on the specific context of Milan based on the pilot project recently conducted by the Politecnico di Milano CampUS incubation and implementation of social practices which won the 25th ADI Compasso d'Oro Award 2018 in the social design category The book is of interest to academics students those working at public institutions and city policymakers

*Public Space Unbound* Sabine Knierbein, Tihomir Viderman, 2018-03-15 Through an exploration of emancipation in recent processes of capitalist urbanization this book argues

the political is enacted through the everyday practices of publics producing space This suggests democracy is a spatial practice rather than an abstract professional field organized by institutions politicians and movements Public Space Unbound brings together a cross disciplinary group of scholars to examine spaces conditions and circumstances in which emancipatory practices impact the everyday life of citizens We ask How do emancipatory practices relate with public space under post political conditions In a time when democracy solidarity and utopias are in crisis we argue that productive emancipatory claims already exist in the lived space of everyday life rather than in the expectation of urban revolution and future progress

Science for the Sustainable City Steward T. A. Pickett, Mary L. Cadenasso, J. Morgan Grove, Emma J. Rosi, Christopher M. Swan, 2019-01-01 A presentation of key findings and insights from over two decades of research education and community engagement in the acclaimed Baltimore Ecosystem Study In a world of over seven billion people who mostly reside in cities and their suburbs and exurbs the Baltimore Ecosystem Study is recognized as a pioneering program for modern urban social ecological science critical to the emerging theory of urban ecology After two decades of research education and community engagement in this complex system there are insights to share generalizations to examine and gaps to highlight This timely volume synthesizes the key empirical findings melds the perspectives of different disciplines and celebrates the accomplishments of interacting with diverse communities and institutions in improving the understanding of Baltimore s ecology These widely applicable insights from Baltimore contribute to our understanding the ecology of other cities provide a comparison for the global process of urbanization and inform establishment of urban ecological research elsewhere Comprehensive interdisciplinary and highly original it gives voice to the wide array of specialists who have contributed to this living urban laboratory

Architecture and the Public World Kenneth Frampton, 2024-01-25 This book brings together Kenneth Frampton s essays from the 1960s to today which epitomize his reflections on the historical theoretical entanglements of architecture with place the public realm cultural identity urban landscape and environment and the political question of the predicament of architecture in the new Millennium The essays explore Frampton s contention that architecture s imperative is to assume a significant responsibility for the edification and stewardship of the Arendtian public world One of the most theoretically sophisticated and politically committed architectural thinkers Frampton s work breaks emphatically with the limits and norms of much contemporary practice and restores a sense of richness and social consequence of architecture s unfinished project while offering abiding lessons not only for architecture but for social cultural and design criticism alike

**Living Politics in the City** Marion Hohlfeldt , Carmen Popescu, 2023-03-15 Public space and performativity from the perspective of architecture In recent decades architecture has been seen as a field of practice that contributes greatly to the performativity of public space In spite of the explosion of virtual communities through social media and the limitations imposed by pandemics architecture today still holds an active role in literally building our societies Bearing in mind its acute politicisation in past years Living Politics in the City looks at public space from the

perspective of architecture and its effective contribution not as a prop but as an actual catalyst for embodying politics The essays gathered here span five continents activating various disciplinary approaches to architecture and examining it in different contexts from a Palestinian refugee camp to the most vibrant urban axis in Sao Paulo from the numerous city squares around the world crowded with rebellious populations to the proximal politics of housing in Australia Contributors Endriana Audisho University of Technology Sydney Maja Babic Charles University Alexandra Biehler Ecole Nationale Supérieure d'Architecture de Marseille Tracey Bowen University of Toronto Mississauga Etienne Delprat Rennes 2 University Claudia Faraone IUAV Venice School of Architecture ETICity Caterina Frisone Oxford Brookes University Catherine Grout ENSAPL Lille Pavel Kunysz University of Liège Flavia Marcello Swinburne University of Technology Eric Le Coguiec University of Liège Tova Lubinsky University of Technology Sydney Giovanna Muzzi IUAV Venice School of Architecture ETICity Can Onaner Ecole Nationale Supérieure d'Architecture de Bretagne Shadi Saleh KU Leuven Frédéric Sotinel Ecole Nationale Supérieure d'Architecture de Bretagne Karolina Wilczynska Adam Mickiewicz University Ian Woodcock Swinburne University of Technology This publication is GPRC labeled Guaranteed Peer Reviewed Content The Ethics of a Potential Urbanism Camillo Boano, 2016-11-25 The Ethics of a Potential Urbanism explores the possible and potential relevance of Giorgio Agamben's political thoughts and writings for the theory and the practice of architecture and urban design It sketches out the potentiality of Agamben's politics which can affect change in current architectural and design discourses The book investigates the possibility of an inoperative architecture as an ethical shift for a different practice just a little bit different but able to deactivate the sociospatial dispositive and mobilize a new theory and a new project for the urban now to come This particular reading from Agamben's oeuvre suggests a destituent mode of both thinking and practicing of architecture and urbanism that could possibly redeem them from their social emptiness cultural irrelevance economic reductionism and proto avant garde extravagance contributing to a renewed critical encounter with architecture's aesthetic political function Informality through Sustainability Antonino Di Raimo, Steffen Lehmann, Alessandro Melis, 2020-12-30 Informality through Sustainability explores the phenomenon of informality within urban settlements and aims to unravel the subtle links between informal settlements and sustainability Penetrating its global profile and considering urban informality through an understanding of local implications the authors collectively reveal specific correlations between sites and their local inhabitants The book opposes simplistic calls to legalise informal settlements or to view them as problems to be solved It comes at a time when common notions of informality are being increasingly challenged In 25 chapters the book presents contributions from well known scholars and practitioners whose theoretical or practical work addresses informality and sustainability at various levels from city planning and urban design to public space and architectural education Whilst previous studies on informal settlements have mainly focused on cases in developing countries approaching the topic through social cultural and material dimensions the book explores the concept across a range of contexts including former

Communist countries and those in the so called Global North Contributions also explore understandings of informality at various scalar levels region precinct neighbourhood and individual building Thus this work helps reposition informality as a relational concept at various scales of urbanisation This book will be of great benefit to planners architects researchers and policymakers interested in the interplay between informality and sustainability [Walkscapes](#) Francesco Careri, 2017-12-25 Walkscapes deals with strolling as an architecture of landscape Walking as an autonomous form of art a primary act in the symbolic transformation of the territory an aesthetic instrument of knowledge and a physical transformation of the negotiated space which is converted into an urban intervention From primitive nomadism to Dada and Surrealism from the Lettrist to the Situationist International and from Minimalism to Land Art this book narrates the perception of landscape through a history of the traversed city

**Theorizing Heritage through Non-Violent Resistance** Feras Hammami, Evren Uzer, 2022-04-25 This book is about the entanglement of heritage and resistance in different situations of conflicts and the opportunities this entanglement may provide for social justice This entanglement is investigated in the different contributions through theoretical and empirical analyses of heritage led resistance to neoliberal economic development violation of the subaltern authorised narratives and state invented traditions colonialism and settler colonialism and even dominating discourses of social movement to name just a few Crossing the disciplinary boundaries of heritage and resistance studies these analyses bring new insights into several timely debates especially those concerned with the interrelated critical questions of displacement gentrification exclusion marginalization urbicide spatial cleansing dehumanization alienation ethnic cleansing and social injustice Following our purposeful and future driven approach we wish to bring new energy to the field of heritage studies through the focus on the potential of heritage and resistance for hopeful change rather than adding to the field yet another overwhelming engagement with conflict and war *Fare urbanistica oggi* Laura Montedoro, Michelangelo Russo, 2022-12-22T00:00:00+01:00 Il volume restituisce un confronto sull'urbanistica in Italia oggi e sull'idea del progetto che cambia sensibile ai temi che attraversano la condizione contemporanea con specifico riferimento alle culture alle pratiche all'insegnamento e alla ricerca Si tratta di una prima ricognizione sui molti modi di declinare la disciplina Dai ventuno saggi qui raccolti emerge un'idea ampia e multidimensionale di progetto come attitudine a prefigurare visioni di futuro come sguardo esplorativo e interpretativo che produce conoscenza come sistema di azioni tecnicamente pertinenti come campo di interazione sociale e di conflitto come capacità di elaborazione di strumenti multiscalarari e integrati di pianificazione del territorio e della città Un'idea costantemente riferita allo spazio fisico e sociale della città alle esplorazioni possibili del campo del visibile alle sensibilità per la morfologia urbana e territoriale per i paesaggi per i territori palinsesto Un'idea di progetto dunque in grado di recuperare una tradizione culturale italiana ricca di senso per mettere sistematicamente in tensione spazio e società con specifica attenzione ai contesti culturali e materiali intesi come riflesso della società delle economie e delle istituzioni Il governo del territorio e delle città ha crescente necessità di sperimentare forme di
