Optimal Management Strategies in Small and Medium Enterprises Vemić, Milan B.,2017-01-18 Business sustainability is becoming increasingly difficult amongst the demands of today's markets. By implementing new and dynamic practices, organizations can optimize their day-to-day operations and improve competitive advantage. Optimal Management Strategies in Small and Medium Enterprises is a key source on the latest innovations in enhancing all main management functions such as working capital and marketing and examines how to implement sustainable business management practices. Featuring extensive coverage across a range of relevant perspectives and topics such as human resources, development, market orientation, and knowledge management, this book is ideally designed for business managers, professionals, graduate students, and researchers working in the field of smaller-scale business development initiatives. **Leading & Managing**

**Occupational Therapy Services** Brend Braveman,2016-02-19 Put theory and research into practice for real-world success. Here's your introduction to the use of theory, research, and evidence in guiding your practice as an occupational therapy manager. From leadership and supervision to policies, program development, and continuous quality improvement, you'll find complete coverage of the full range of issues and functions managers encounter in the real world in which they practice. Whatever your role, the practical knowledge and the guidance you'll find here will help you become a more effective OT colleague and manager. **Reducing Mortality in Critically Ill Patients** Giovanni Landoni, Martina Baiardo

Redaelli, Chiara Sartini, Alberto Zangrillo, Rinaldo Bellomo,2021-06-08 The 2nd edition of this book describes the recent techniques, strategies, and drugs that have been demonstrated by multicenter randomized trials to influence survival in critically ill, defined as those who have acute failure of at least one organ due to either a pathological condition or a medical intervention and require intensive care treatment. Each chapter focuses on a specific procedure, device, or drug. The scope is accordingly wide, with coverage of topics as diverse as noninvasive mechanical ventilation, protective ventilation, prone positioning, intravenous salbutamol in ARDS, high-frequency oscillatory ventilation, mild hypothermia after cardiac arrest, daily interruption of sedatives, tranexamic acid, dapsirin, cross-linked hemoglobin, albumin, growth hormone, glutamine supplementation, tight glucose control, supranormal oxygen delivery, and hydroxyethyl starch in sepsis. The topics selection was performed with the help of hundreds of specialists from dozens of countries; they expressed via web if they agreed or not with these topics and if they used them in their daily clinical practice. The clear text is supported by how-to-do sections and key-point boxes that provide easily accessible practical information. Written by acknowledged international experts, Reducing Mortality in Critically Ill Patients is of interest for a wide variety of specialists, including intensivists, emergency doctors, and anesthesiologists. **Screening and Risk Reduction Strategies for Breast Cancer** Masakazu Toi,2023-03-01 This book provides readers with the most up-to-date practical information on breast cancer screening. Since breast cancers are highly heterogeneous, time to clinical onset from the initial carcinogenesis differs diversely between cancers. Pathological germline variants and driver mutations cause a high lifetime risk of breast cancer. The lifetime risks are various according to what

genes are pathologically dysfunctional Integrated omics and imaging technologies have established varying tumour characteristics Thus this book suggests that a more individualised scheme is required to improve breast cancer screening A key aim is to demonstrate how multiple diagnostic imaging modalities such as mammography ultrasonography MRI PET and dbPET improve breast cancer screening accuracy Mammography screening alone may have a limited impact on breast cancer risk prediction These issues are crucial to discuss Clinical experts recommend that new modalities be incorporated for women with dense breasts like ultrasonography dynamic mammography MRI and maybe breast dedicated PET Topics on these modalities are going to be summarized in this book An in depth review of these modalities is summarised in this book In addition new diagnostic modalities including risk assessment tools multi cancer early detection tests using liquid biopsy the role of protein biomarkers in breast cancer risk screening challenges and hopes for future advances are also covered in this book
