Landscape Conflicts Karsten Berr, Lara Koegst, Olaf Kühne, 2024-07-03 Landscape conflicts for example in connection with in view of the energy transition climate policy transport policy nature conservation the extraction of mineral raw materials the design of urban landscapes or tourism are potentially associated with high economic social and political costs even before a possible escalation It is therefore undoubtedly useful to gain a better understanding of landscape related conflicts in terms of their causes their course their dynamics their inherent logic and possible regulatory procedures Frequently such conflicts manifest themselves in particular in different claims and aspired or arrogated interpretative sovereignties concerning what can or may be considered together

as landscape here understood as a special case to space and these conflicts are not limited to the economic dimension but they also ignite in social political and cultural often also in aesthetic and moral questions The contributions to this anthology therefore focus on the question of how landscape conflicts can be seen as a productive social normality and be brought to a non violent and not necessarily consensual settlement

Jesus, Paul, and Power Rick F. Talbott, 2010-08-01 Jesus of Nazareth and Paul of Tarsus represent two of the most influential figures of history because of the expansion of later Christianity But Christianity's historical development includes a checkered and troubling past of abusive power that also impugns both Jesus and Paul European colonialism carried the gospel to the world claiming Jesus and Paul as architects of its oppressive empire building Modern churches in America quote Jesus and Paul to inspire inform and justify a host of cultural values that often include the subordination of women and marginalization of others who differ in beliefs values and lifestyles Talbott analyzes how Jesus and Paul responded to the systems of oppressive power in their day and how each in turn used power to form their respective communities The conclusions are based on the most recent scholarly approaches to Jesus and Paul and will enable modern readers to judge for themselves how Jesus and Paul envisioned the use of power among their communities

Approaching the World's Religions, Volume 2 Robert Boyd, 2017-06-20 Evangelical theology strives to be evangelical conservative and contemporary In a world in which everyone is Christian evangelical theology provides a balanced position between fundamentalism and liberalism While theological debates within the family will occur to be evangelical is a breath of fresh air for many However we do not live in such a world We do find ourselves living in a secular global society It is secular because no religious organization dictates how we live our lives It is global for at least two reasons First our technology brings us immediately in contact with those faraway places Second and of more importance we can simply step outside our front doors and encounter our neighborhoods that reflect a global pluralism This raises the question how shall we then live The intent of *An Evangelical Theology of Religions* is to suggest a direction for evangelicals to think about the secular global society in which they live in a way that is not only conservative but also evangelical and contemporary The final essay strives to address the evangelical aspect of our tradition that places an emphasis on the Great Commission and the law of love

Staying Human Harris Bor, 2021-11-17 Futurists speculate that we are heading towards a singularity where AI will outsmart human beings and humanity will coalesce into a single ever expanding mind for which data is everything The idea mirrors conceptions of God as everything singular and all knowing But is this idea of the singularity or God good for humanity Oneness has its attractions But what space does it leave for individuality and difference In this book British Jewish theologian Harris Bor explores these questions by applying approaches to oneness and difference found in the thought of philosophers Benedict Spinoza 1632 1677 and Martin Heidegger 1889 1976 to the challenges of religious belief and practice in the era of AI What emerges is a dynamic religion of the everyday capable of balancing all aspects of being while holding tight to a God who is both singular and wholly other and which urges us above all to stay

Michael Ryan, 2021-03-29 The SARS CoV 2 virus commonly referred to as COVID 19 is perhaps the greatest threat to life and lifestyles around the world in more than a century Although there is little global agreement on many issues related to the virus there is widespread agreement that the actual number of cases both of those infected and of those who have died as a result of infection is certainly much higher than official numbers suggest The impact of the virus however has spread well beyond the realm of the medical also heavily impacting social cultural economic political and quotidian ways of living for nearly every human being on the planet The two edited volumes in this set contribute to a broader understanding of the impact COVID 19 is having and will have on our understandings efforts and decisions of the future of global society The Oxford Handbook of Atheism Stephen Bullivant, Michael Ruse, 2013-11 This handbook is a pioneering edited volume exploring atheism understood in the broad sense of an absence of belief in the existence of a God or gods in its historical and contemporary expressions It probes the varied manifestations and implications of unbelief from an array of disciplinary perspectives and in a range of global contexts
