Dick** Jason P. Vest, 2009-02-17 From his 1952 short story *Roog* to the novels *The Divine Invasion* and *VALIS* few authors have had as great of an impact in the latter half of the 20th century as Philip K Dick

In *The Postmodern Humanism of Philip K Dick* Jason Vest explores the work of this prolific subversive and mordantly funny science fiction writer. He examines how Dick adapted the conventions of science fiction and postmodernism to reflect humanist concerns about the difficulties of maintaining identity agency and autonomy in the latter half of the 20th century. In addition to an extensive analysis of the novel *Now Wait for Last Year*, Vest makes intellectually provocative comparisons between Dick and the works of Franz Kafka, Jorge Luis Borges, and Italo Calvino. He offers a detailed examination of Dick's literary relationship to all three authors, illuminating similarities between Dick and Kafka that have not previously been discussed, as well as similarities between Dick and Borges that scholars frequently note but fail to explore in detail. Like Kafka, Borges, and Calvino, Dick employs fantastic, unreal, and visionary fiction to reflect the disruptions, dislocations, and depressing realities of twentieth-century life. By comparing him to these other writers, Vest demonstrates that Dick's fiction is a fascinating barometer of postmodern American life, even as it participates in an international tradition of visionary literature.

**Unmaking Merlin** Elliot Murphy, 2014-11-28. A unique exploration of how anarchist philosophy and practice has inspired some of the English language's most revered and reviled authors.

**The Postnormal Times Reader Volume 2** Ziauddin Sardar, Shamim Miah, C. Scott Jordan, 2024-01-01. The book updates the theory and methods, offers new ways of developing scenarios, and suggests ways and means to engage communities in polylogues. It explores the notions of time, knowledge, ignorance, and modernity, and outlines potential futures beyond postnormal times based on decolonised creativity and mutually assured diversity. The reader also showcases how postnormal times theory is being used in diverse disciplines, from political science and international relations to science studies, education, museology, and drama and theatre. Postnormal times presents us with existential threats. Understanding the postnormal condition, the changing nature of accelerating change, is key to our survival.

**Charlie Kaufman** Doreen Alexander Child, 2010-07-01. This revealing study looks at the influences and creative impulses that shape one of today's most progressive, thoughtful filmmakers. Charlie Kaufman got his start in television, but it was his first film, the eccentric *Being John Malkovich*, that won notice for his unique storytelling style. With the aid of a plethora of contributions from those with whom the writer has worked, *Charlie Kaufman: Confessions of an Original Mind* presents the intriguing story of that movie and others, as it examines one of the most innovative voices in modern film. This exhaustive study of Kaufman's life and work is organized chronologically to cover his early influences, as well as his most recent ventures. Highlights include explorations of Kaufman's collaboration with *Being John Malkovich* director Spike Jonze, who stood him up for their first meeting, and the writer's conflict with George Clooney about whom Kaufman says, "I can tell you that George Clooney is my least favorite person." There are analyses of *Human Nature*, *Adaptation*, and the hauntingly beautiful *Eternal Sunshine of the Spotless Mind*, which led to an Academy Award. The book also studies Kaufman's sound plays for Theatre of the New Ear and his directorial debut *Synecdoche, New York*.

**A Twentieth-century Literature Reader** Suman Gupta, David Johnson, 2005 This critical Reader is the essential companion to any course in twentieth century literature Drawing upon the work of a wide range of key writers and critics the selected extracts provide a literary historical overview of the twentieth century insight into theoretical discussions around the purpose value and form of literature which dominated the century closer examination of representative texts from the period around which key critical issues might be debated Clearly conveying the excitement generated by twentieth century literary texts and by the provocative critical ideas and arguments that surrounded them this reader can be used alongside the two volumes of Debating Twentieth Century Literature or as a core text for any module on the literature of the last century Texts examined in detail include Chekhov's The Cherry Orchard Mansfield's Short Stories poetry of the 1930s Gibbon's Sunset Song Eliot's Prufrock Brecht's Galileo Woolf's Orlando Okigbo's Selected Poems du Maurier's Rebecca poetry by Ginsburg and O'Hara Dick's Do Androids Dream of Electric Sheep Puig's Kiss of the Spiderwoman Beckett's Waiting for Godot Heaney's New Selected Poems 1966-1987 Gurnah's Paradise and Barker's The Ghost Road

**Last Call: Humanity Hanging From A Cross Of Iron And Our Escape To Another Planet** Daniel R Altschuler, 2022-05-30 This book tries to look at human thought and action from a scientific perspective and in the process acquaints the reader with essential concepts about science and its history It takes a broad look at our present troubles without overlooking some crucial historical religious and political causes but places science at the center stage The author applies what he has learned throughout his career to go beyond science After an introduction setting the scene and a review of the scientific temper and the inexcusable ignorance of science by some leaders and many followers the author turns his sharp vision to look at other issues The most significant challenges are critical and global climate change caused by our activities stockpiles of nuclear weapons that are a constant threat population growth and increasing inequality at all levels These problems do have a profound ethical character and threaten to end forever with our misery producing a catastrophic convergence Written with rigor for all readers with many references and infused with relevant quotations the author's message is clear we need to change our ways drastically and

urgently now or never But he offers not much in terms of a solution something done by many authors to sweeten the pill because as he argues beyond lofty declarations there is no real solution as the clock runs down leading to his dystopian view of the future     Relativism, Alternate History, and the Forgetful Reader Derek Thiess,2014-11-25 The writer of alternate history asks what if What if one historical event were different what would the world look like today In a similar way the postmodern philosopher of history suggests that history is literature or that if we read certain historical details differently we would get a distinctly different interpretation of past events While the science fiction alternate history means to illuminate the past to increase our understanding of past events however the postmodern approach to history typically suggests that such understanding is impossible To the postmodern philosopher history is like literature in that it does not offer the reader access to the past but only an interesting story Building on criticism that suggests personal psychological reasons for this obscuring the past and using a literary theory of readership this book challenges the postmodern approach to history It channels the speculative power of science fiction to read the works of postmodern philosophy of history as alternate histories themselves and to map the limits and pathology of their forgetful reading of the past     Instrumental Intimacy Melissa M. Littlefield,2018-03 By contextualizing and analyzing EEG wearables Instrumental Intimacy provides a crucial intervention in an emergent consumer market and in the scholarly fields of STS critical neuroscience and the history of technology
