Translation Dror Abend-David, 2014-07-31 Over the last decade there has been a dramatic increase in publications on media and translation In fact there are those who believe that so much has been published in this field that any further publications are superfluous But if one views media and translation as anything ranging from film and television drama to news casting commercials video games web pages and electronic street signs it would seem that research in media and translation has barely scratched the surface The research in this field is shared largely by scholars in communication and translation studies often without knowledge of each other or access to their respective methods of scholarship This collection will rectify this lack of communication by bringing such scholars together and creating a context for a theoretical discussion of the entire

emerging field of Media and Translation with a preference for theoretical work rather than case studies on translation and communications of various forms and through various media **Topics in Audiovisual Translation** Pilar Orero, 2004-10-20

New perspectives in Audiovisual Translation Laura Mejías Climent, José Fdo. Carrero Martín, 2022-03-01 The aim of this book is to contribute to the dissemination of current research carried out by young scholars who are starting to build promising careers in the field of audiovisual translation Although it is by no means an exhaustive collection of state of the art

approaches to AVT this publication offers a carefully chosen list of research perspectives that are worth exploring in the current technologised landscape that this area of translation has become. Therefore it represents a select yet judicious group of studies with the added strength that the contributions presented here are not limited to academic circles but rather offer different points of view from various angles given the diverse profiles that characterize the authors. Thus each chapter deals with the subject of AVT from an academic, educational or professional perspective. As diverse as their approaches are, all the young authors who have collaborated to create this volume offer enriching perspectives that reflect the potential that AVT still has today and the prospective studies that are worth undertaking to continue enriching the field of AVT.

Reception Studies and Adaptation Giulia Magazzù, Valentina Rossi, Angela Sileo, 2020-07-22. Offering compelling insights into the Italian adaptation of diversified English products, this volume is addressed to both scholars and students wishing to delve into the field of reception studies. It focuses on literary multimedia and audiovisual translation due to the conviction that the modalities through which the imprinting of Italianness is marked upon several English hypertexts are still worth investigating today. The contributions here highlight how some choices may in some instances alter the meaning as much as the success of some English aesthetic texts by directing if not possibly undermining the audience reception.
