Dreaming of Sheep in Navajo Country Marsha Weisiger, 2011-11-15 Dreaming of Sheep in Navajo Country offers a fresh interpretation of the history of Navajo Din pastoralism The dramatic reduction of livestock on the Navajo Reservation in the 1930s when hundreds of thousands of sheep goats and horses were killed was an ambitious attempt by the federal government to eliminate overgrazing on an arid landscape and to better the lives of the people who lived there Instead the policy was a disaster resulting in the loss of livelihood for Navajos especially women the primary owners and tenders of the animals without significant improvement of the grazing lands Livestock on the reservation increased exponentially after the late 1860s as more and more people and animals hemmed in on all sides by Anglo and Hispanic ranchers tried to feed themselves on an increasingly barren landscape At the beginning of the twentieth century grazing lands were showing signs of distress As soil conditions worsened weeds unpalatable for livestock pushed out nutritious native grasses until by the 1930s federal officials believed conditions had reached a critical point Well intentioned New Dealers made serious errors in anticipating the human and environmental consequences of removing or killing tens of thousands of animals Environmental historian Marsha Weisiger examines the factors that led to the poor condition of the range and explains how the Bureau of Indian Affairs the Navajos and climate change contributed to it Using archival sources and oral accounts she describes the importance of land and stock animals in Navajo culture By positioning women at the center of the story she demonstrates the place they hold as significant actors in Native American and environmental history Dreaming of Sheep in Navajo Country is a compelling and important story that looks at the people and conditions that contributed to a botched policy whose legacy is still felt by the Navajos and their lands today **The Encyclopedia of North American Indian Wars, 1607-1890**

Bloomsbury Publishing, 2011-09-19 This encyclopedia provides a broad in depth and multidisciplinary look at the causes and effects of warfare between whites and Native Americans encompassing nearly three centuries of history The Battle of the Wabash the U.S. Army's single worst defeat at the hands of Native American forces The Battle of Wounded Knee an unfortunate unplanned event that resulted in the deaths of more than 150 Lakota Sioux men women and children These and other engagements between white settlers and Native Americans were events of profound historical significance resulting in social political and cultural changes for both ethnic populations the lasting effects of which are clearly seen today The

Encyclopedia of North American Indian Wars 1607 1890 A Political Social and Military History provides comprehensive coverage of almost 300 years of North American Indian Wars Beginning with the first Indian settler conflicts that arose in the early 1600s this three volume work covers all noteworthy battles between whites and Native Americans through the Battle of Wounded Knee in December 1890 The book provides detailed biographies of military social religious and political leaders and covers the social and cultural aspects of the Indian wars Also supplied are essays on every major tribe as well as all significant battles skirmishes and treaties

Roadside New Mexico David Pike, 2015-08 This revised and expanded edition of Roadside New Mexico provides additional information about these sites and includes approximately one hundred new markers sixty five of which document the contribution of women to the history of New Mexico

Three Roads to Magdalena David Wallace Adams, 2016-06-03 Someday Candelaria Garcia said to the author you will get all the stories It was a tall order in Magdalena New Mexico a once booming frontier town where Navajo Anglo and Hispanic people have lived in shifting sometimes separate sometimes overlapping worlds for well over a hundred years But these were the stories and this was the world that David Wallace Adams set out to map in a work that would capture the intimate complex history of growing up in a Southwest borderland At the intersection of memory myth and history his book asks what it was like to be a child in a land of ethnic and cultural boundaries The answer as close to all the stories as one might hope to get captures the diverse ever changing experience of a Southwest community defined by cultural borders and the nature and role of children in defending and crossing those borders In this book we listen to the voices of elders who knew Magdalena nearly a century ago and the voices of a younger generation who negotiated the community's shifting boundaries Their stories take us to sheep and cattle ranches Navajo ceremonies Hispanic fiestas mining camps First Communion classes ranch house dances Indian boarding school drill fields high school social activities and children's rodeos Here we learn how class religion language and race influenced the creation of distinct identities and ethnic boundaries but also provided opportunities for cross cultural interactions and intimacies And we see the critical importance of education in both reinforcing differences and opening a shared space for those differences to be experienced and bridged In this Adams's work offers a close up view of the transformation of one multicultural community but also of the transformation of childhood itself over the course of the twentieth century A unique blend of oral social and childhood history Three Roads to Magdalena is a rare living document of conflict and accommodation across ethnic boundaries in our ever evolving multicultural society Published in Cooperation with the William P Clements Center for Southwest Studies Southern Methodist University
